## Chapter 1 Letter to Shareholder

#### I. The 2023 Business Report

(I) Implementation Results of the Business Plan

In 2023, the operating revenue soared to a record-breaking high of NT\$4,360,448 thousand, marking a remarkable growth of 15.80% compared to 2022. The net profit after tax amounted to NT\$126,243 thousand, translating to earnings per share after tax of NT\$1.05. The primary driver behind the profit growth was the heightened shipment volumes of cholesterol-lowering phosphate binders, anti-cancer active ingredients, and respiratory medications. Additionally, the robust performance of the US dollar bolstered gross profit margins, culminating in a notable surge in operating net profit compared to 2022. However, pre-tax net profit remained lower than the previous year, primarily attributable to the repercussions of financial asset valuation losses.

| Item                    | Year  | 2022   | 2023   |
|-------------------------|---|--------|--------|
| Financial               | Debt to assets ratio                        | 38.86  | 39.79  |
| Structure               | Long-term fund to fixed assets ratio (%)    | 163.55 | 172.52 |
| Debt                    | Current ratio (%)                           | 132.13 | 161.77 |
| Servicing<br>Capability | Quick ratio (%)                             | 78.30  | 109.12 |
|                         | Return on total assets (%)                  | 1.85   | (0.13) |
| Profitability           | Shareholders' return on<br>total equity (%) | 2.82   | (0.65) |
|                         | Net margin (%)                              | 5.76   | (1.2)  |
|                         | Earnings per share (NT\$)                   | 3.40   | 1.05   |

#### (II) Analysis on Revenue and Expense and Profitability

#### (III) R&D Status

In order to bolster the industry's competitiveness, the Company and its subsidiaries consistently engage in research and development as well as innovation. It is anticipated that expenditures on R&D will continue to exceed a certain threshold in the future. The Company has upgraded its technology and services for active pharmaceutical ingredients (APIs), expanded its R&D efforts to include downstream processing of existing APIs, and entered into the R&D of injectable formulations. Currently, the Company has put into production general production lines for both small molecules and macromolecules, as well as production lines for cytotoxic manufacturing of anticancer drugs and ADCs. The Company has also focused on reference listed drugs that will soon be launched, selecting products from them to expand the market of antibody drug conjugates (ADCs) and injectable formulations. Additionally, the Company's custom R&D and OEM business

offers custom synthesis services for small molecule APIs for clinical use, as well as custom synthesis services for APIs of ADCs. Currently, Formosa Pharmaceuticals Inc., a subsidiary of our Company, is conducting research and development on APP13007, an ophthalmic drug designed to alleviate inflammation and pain resulting from ophthalmic surgery. This drug is developed using the APNT<sup>™</sup> nanoparticle formulation platform, which offers ophthalmologists and patients a more direct and clearer method of medication administration. As a result, it provides a safer, more convenient, and effective option for medication. Formosa Laboratories, Inc. (Formosa Labs) has received approval from the U.S. Food and Drug Administration (FDA) in March 2024 for the new drug application of APP13007, a drug for the treatment of post-operative ocular inflammation and pain. Regarding out-licensing, Formosa Labs has completed exclusive licensing agreements for APP13007 with Faranda Pharmaceutical (China) in 2021 and Eyenovia, Inc. (USA) in 2023, with the total licensing agreement amount with Eyenovia reaching US\$86 million. Formosa Labs will supply the products for future sales. In addition, APP13007 has also signed an exclusive licensing agreement with Cristália Produtos Químicos Farmacêuticos Ltda. for the Brazil market in January 2024. In 2022, Formosa Pharmaceuticals entered into an authorization contract with EirGenix, Inc. for the development of a new drug, TSY-0110, intended for the treatment of breast cancer. Pursuant to the agreement, Formosa Pharmaceuticals will receive royalties in stages, while EirGenix will have the right to share in the profits. Both parties will share in the earnings resulting from the research and development of TSY-0110. The Phase I human clinical trial is anticipated to be submitted for follow-up in 2024.

#### II. 2024 Business Plan Outline

- (I) Operation Goals
  - 1. Given our existing production capacity, we persist in maximizing revenue scale and optimizing cost-profit margins for Active Pharmaceutical Ingredient (API) products. Moreover, we are actively pursuing the identification and development of the next star API product.
  - 2. To expand the Contract Development and Manufacturing Organization (CDMO) business, establish strategic alliances, or acquire foreign companies with compatible partners to enter the market, serve local customers, and offer swift, high-quality, and cost-effective services.
  - 3. The vaccine manufacturing facility successfully underwent inspection by the U.S. Food and Drug Administration (FDA), enabling it to vie for orders from prominent companies.
  - 4. Assess the integration of cutting-edge tools or techniques such as microfluidics (Flow Chemistry), automated equipment, or Artificial Intelligence to enhance the efficiency of research and development, production processes, or the development of new drugs.

- 5. Strive for achieving "zero defect" in business operations to enhance efficiency and effectively minimize various expenditures.
- 6. Consistently assess investment targets to attain optimal investment returns.
- (II) Production Plan
  - 1. Active Pharmaceutical Ingredients (APIs): By employing optimal production scheduling, enhance capacity utilization, maximize output, and consequently, diminish costs while augmenting profits.
  - 2. Injection products: Pursuant to our objective of mitigating variances, we endeavor to expeditiously conclude official factory inspections within domestic and international jurisdictions, thereby actively pursuing orders from multinational enterprises.
- (III) Research and Development Plan
  - 1. Committed to the development of proprietary generic drug injections utilizing inhouse API, thereby elevating the barrier to competitive entry.
  - 2. Continuously accumulate and construct intellectual property assets possessing patentability and utility.
- (IV) Production and Marketing Strategies

The Company has amassed almost 30 years of experience in customized R&D and OEM. With a core advantage in the process development of APIs, the Company consistently serves clients and creates new products and services. These include a range of peptides, as well as process optimization for existing products such as Vit. D derivatives, cholesterol and phosphate binders, anti-cancer drugs, and MRI enhancing agents. In addition to providing custom synthesis services for small molecule APIs intended for clinical use, the Company has also ventured into the preparation of ADCs.

After eleven years of development, our antibody drug conjugate (ADC) technology has matured. Combined with the injectable formulation R&D and contract manufacturing services which passed QP audit certification in 2021, our European client obtained clinical phase I trial approvals from the U.S. FDA, European EMEA and China NMPA in April 2022, and we have been stably providing clinical trial materials for ADC. In the field of innovation, with years of experience specializing in synthesis, the Company has also developed our own ADC linker-payload platform, providing partners and potential clients with various combinations of linkers and drugs, further increasing the drug to antibody ratio (DAR) and expanding the scope of Formosa Labs' one-stop service for antibody drug conjugates. With its experienced ADC technology platform, the Company offers customized services and serves as the ideal partner for clients.

The Company achieves vertical integration of technology to develop and integrate the production of APIs and sterile injectable formulations, including special formulations

such as pre-filled syringe cartridges and large volume lyophilized injectable formulations. The design, manufacturing process, validation, and registration of plants for sterile injectable formulations comply with international regulations. Consistent production from APIs to sterile injectable formulations significantly reduces production costs, increases product profitability, and enhances the Company's competitiveness.

Formosa Laboratories boasts top-tier talent, robust R&D capabilities, and plant facilities that comply with regulations in the United States, Europe, Japan, and other regions. Additionally, our comprehensive GMP system enables us to offer one-stop R&D and OEM services, from APIs to clinical and commercial drug production, that meet the unique needs of our clients and earn their trust and loyalty.

#### III. The Impact of External Competition, Regulations and the General Business Environment

The Company primarily sells its products to major international clients, with export sales accounting for over 90% of total sales volume this year. The sales scope covers America, Asia, Europe, and other regions, and the Company has experienced stable development and growth in all areas. The even distribution of clients across the globe has been instrumental in expanding the market and mitigating business risks. Furthermore, the Company's strong international market development abilities and efficient channels have enabled it to become a supplier of APIs to international pharmaceutical companies. Presently, the Company counts among its clients the top three brand drug manufacturers in the world, five of the top ten generic drug manufacturers in Japan.

In recent years, the API industry has shifted towards Asia in terms of R&D, production, and OEM. This trend can be attributed to the lower costs of manufacturing and clinical trials, as well as the rapid growth of the Asia-Pacific market. This shift is a result of the globalization of industry and economy.

Looking forward, the Company will continue to adhere to rigorous GMP production management, improve APIs technology and services, strengthen R&D and contract manufacturing business, while expanding downstream into formulation development, venturing into injectable formulation R&D, production and manufacturing. We will also continue to pay attention to products with upcoming patent expirations, selecting items from them to expand the market for antibody drug conjugates and injectable formulations.

Finally, I would like to express my sincere gratitude to our clients, shareholders, and diligent employees for their unwavering support throughout the years. In the future, we will consistently uphold a responsible entrepreneurial spirit and conscientious attitude. We will strive for innovation, growth, and breakthroughs, while keeping a close eye on global industry trends and seizing market opportunities in the highly competitive market. Our aim is to reward shareholders with progressive performance and development.

Chairman: Cheng, Chen-Yu President: Cheng, Chen-Yu Accounting Supervisor: Lo, Yu-Chen

## Chapter 2 Company Profile

#### I. Date of Incorporation

December 29, 1995

#### **II.** Company History

Dec 1995 Dr. Cheng Chen-Yu established Formosa Laboratories, Inc. with the primary objective of offering technical services for API process development and impurity identification and synthesis. Jul 1996 Began manufacturing and selling a range of ultraviolet (UV) absorbers, including octyl methoxycinnamate (OMC). Jul 1997 Began manufacturing and selling a range of UV filters, including Avobenzone. Started producing APIs in compliance with Current Good Manufacturing Apr 2000 Practices (cGMP). May 2001 Registered the DMF of Alfacalcidol and Calcitriol in Europe and registered numerous APIs in more than 20 EU countries. Jun 2001 Began selling Leflunomide in the United States. Jun 2002 Registered the DMF of Leflunomide in the United States. Nov 2002 Signed a supply contract with Roche Vitamins for a variety of UV absorbers. Certified for Good Manufacturing Practice (GMP) by the Ministry of Health and Welfare, Executive Yuan. At present, 19 of our products have received GMP certification from the Ministry of Health and Welfare. Sep 2003 Upgraded our ISO 9001 certification to the 2000 edition. Oct 2004 Passed our first GMP inspection by Food and Drug Administration (FDA). 2005-2009 Launched 6 APIs supplied by the Company in the United States one after another. Mar 2007 Passed our second GMP inspection by the FDA in the United States. Sep 2007 Registered Calcipotriol for a Certificate of Suitability (COS) in the EU. Nov 2007 Passed the GMP inspection conducted by the German BSG (Behörde für Soziales, Familie, Gesundheit und Verbraucherschutz) on behalf of EU member states. Jul 2008 Completed the merger with L.C. United Chemical Corporation. Registered the DMF of Gadodiamide in Japan. Completed official registration with Japan as a qualified foreign chemical Aug 2008 manufacturer. Apr 2009 Passed our first GMP inspection by the PMDA in Japan. Jun 2009 7 APIs (2 NDAs and 5 ANDAs) passed the third factory inspection by the FDA in the United States. Aug 2009 Offered shares publicly.

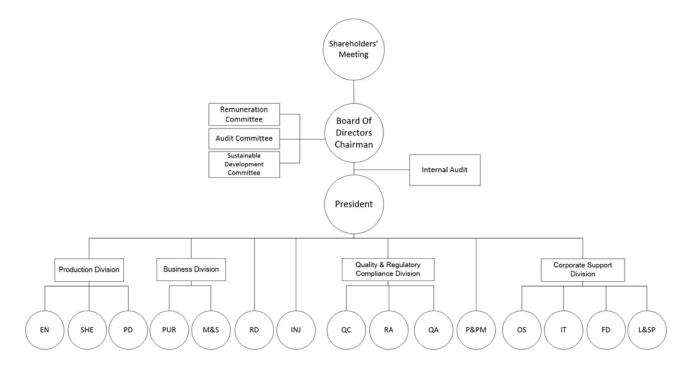

Sep 2009 Receive the Gold Medal Award for Biotechnology Commercialization at the 2009 Taipei Biotech Awards, followed by another Gold Medal Award at the Taiwan Healthcare Biotech Industries Innovation and Excellence Awards later that same year. Oct 2009 Signed a five-year supply contract for a new range of UV absorbers. Put a new plant for the production of highly potent APIs into operation. Nov 2009 Listed over-the-counter stocks for trading. July 2010 Completed the new complex and automated warehouse. Oct 2010 Jointly established A.R.Z. Taiwan Limited with A.R.Z. Chemicals. Nov 2010 Passed the GMP inspection by COFEPRIS in Mexico. Signed a cooperation agreement with Beijing Odyssey Chemicals Co., Ltd. Dec 2010 Established Formosa Pharmaceuticals Inc. with 100% investment from the Company. Feb 2011 Developed anticancer NCE with Taipei Medical University. Mar 2011 Listed on the Taiwan Stock Exchange. Won the Silver Medal Award in the Sep 2011 category of Biotechnology Commercialization, 2009 Taipei Biotech Award. Established Epione Investment Cayman Limited, which is 100% owned by the Company. May 2011 The Company indirectly holds 100% shares of Epione Investment HK Limited through Epione Investment Cayman Limited. Aug 2011 The Company indirectly holds 100% shares of Shanghai Epione Enterprise Co., Ltd. through Epione Investment HK Limited. May 2012 13 APIs passed the fourth factory inspection by the FDA in the United States. Mar 2013 Passed the joint inspection by BGV in the European Union and Germany. Mar 2014 Formosa Pharmaceuticals, a subsidiary of the Company, in partnership with Taipei Medical University, has received FDA approval to conduct the investigational new drug (IND) program for MPT0E028, a small-molecule anticancer drug. Jul 2014 Formed an alliance with EirGenix and European manufacturers to take on the ADC market. Sep 2014 Won the Golden Medal in the Biotechnology Commercialization category at the 2014 Taipei Biotech Awards. Held the ground-breaking ceremony for the expansion of the plant for highly potent APIs. MPT0E028 was approved by the Taiwan Food and Drug Administration (TFDA) for human clinical trials. Jan 2015 Passed the fifth factory inspection by the FDA in the United States.

| Apr 2015 | Hetlioz® (tasimelteon), an API supplied to Vanda, won the Industry Innovation<br>Award from the National Organization for Rare Disorders (NORD®)   |
|----------|--|
| Jul 2015 | Won the Silver Medal Award in Globalizing Award category of the 2015 Taipei Biotech Awards.  |
| Dec 2015 | Established Epione Pharmaceuticals, Inc. with 100% investment from the Company.  |
| Aug 2017 | Formosa Pharmaceuticals Inc., a subsidiary of the Company, acquired Activus Pharma Co. Ltd., affiliated with Sosei Group in Japan.   |
| Jan 2018 | The Ministry of Economic Affairs' Industrial Development Bureau included our Company in the reference list of domestic pharmaceutical R&D companies entrusted by the biotechnology pharmaceutical industry.  |
| Feb 2018 | Passed the sixth GMP inspection by the FDA in the United States.   |
| Jul 2018 | The Company provided APIs (Montelukast) to clients in response to the policy<br>of bundling APIs with pharmaceutical preparations in the Chinese mainland.<br>After passing the consistency evaluation of clients, the Company launched its<br>first imitation.  |
| Feb 2019 | Passed the seventh GMP inspection by the FDA in the United States.   |
| Jul 2019 | The new drug APP13007 developed by Formosa Pharmaceuticals Inc., a subsidiary of the Company, passed the IND review by the FDA.  |
| Sep 2020 | Formosa Pharmaceuticals Inc., a subsidiary of the Company, announced the results of the Phase II clinical trials for APP13007, an anti-inflammatory and analgesic drug used after cataract surgery. The trial results indicated that APP13007 is safe and well-tolerated, with no severe safety issues reported. |
| Nov 2021 | The Company's packaging operation was assessed by the Ministry of Health and Welfare, which confirmed its compliance with the Good Manufacturing Practice (GMP for Packaging Lines) for Western medicinal products and the Good Distribution Practice (GDP) for Western pharmaceuticals.                         |
| Mar 2022 | The Company formed an alliance with Formosa Pharmaceuticals Inc. and HCmed Innovations Co., Ltd., to seize business opportunities in global CDMO for inhalation treatment drugs.   |
| May 2022 | Formosa Pharmaceuticals Announce Successful Top-Line Results From CPN-<br>301 For the Treatment Of Inflammation And Pain After Cataract Surgery.   |
| Jun 2022 | Formosa Injectable plant passed GMP/GDP inspection by TFDA.  |
| Aug 2022 | Formosa Pharmaceuticals Announce Successful Top-Line Results From CPN-<br>302 For the Treatment Of Inflammation And Pain After Cataract Surgery.   |
| Nov 2022 | Passed the eighth GMP inspection (including the production line for fermentation) by the FDA in the United States.   |
| Feb 2023 | Formosalab receives TFDA approval for Eribulin Mesylate injectable.  |
| Dec 2023 | TFDA's inspection on new Plant H, with expanded capacity for polymer products.   |

# Chapter 3 Corporate Governance Report

## I. Organization

(I) Organizational Structure

#### (II) Business Functions of Major Departments

| Department                                     | Main Duties  |
|--|--|
| Corporate Support<br>Division                  | Legal affairs management, patent management, finance, accounting, human<br>resources, information management, warehouse management, general<br>affairs management                |
| Quality &<br>Regulatory<br>Compliance Division | Quality system management, drug license and registration, quality control, analytical method development for APIs and injectable products  |
| Business Division                              | Promote the R&D and OEM of APIs, ADCs, and injectable formulations.  |

- Note 1: President of Formosa Laboratories, Inc, Chairman of Formosa Pharmaceuticals, Inc, Director of Rayoung Chemtech Inc, Director of Epione Investment Cayman Limited, Director of EirGenix, Inc, Chairman and President of Epione Pharmaceuticals, Inc, Chairman of Activus Pharma Co., Ltd, Director of A.R.Z Taiwan Limited, Perennial Consultant of Forward Asset Management Ltd.
- Note 2: Director of Tairx, Inc, Attending physician of Pathology Department of Fu Jen Catholic University Hospital, Director of Tsui Hua Investment Co., Ltd.
- Note 3: Chairman of Yuan Qing Investment Inc, Chairman of JUI-I Investment Ltd, Chairman of Remo Taiwan Inc, Director of Reliance Internaltional Corp, Director of Strait Capital Co., Ltd, Chairman of King Dee Musical Instrument Corp, Director of Panlabs Biologics Inc, Chairman of Tai-I Investment Co., Ltd, Chairman of Ding Pu Investment Co. Ltd, Chairman of JUI-I Management Ltd, Supervisor of PWY International Corporation.
- Note 4: Chairman of Hygica Biotech Ltd, Chairman of Eros Biopharma INC, Chairman and president of PharmaStar Investment Cooperative Ventures, Inc, Director of Forward Asset Management Ltd, Chairman of Chia La Wei Erh Ltd.
- Note 5: Director of Panlabs Biologics Inc, Director of Hong Ray Corporation, Whitesun International Corp, Director of Protect Biotech Incorporation, Supervisor of Bei Guan Power Corporation, Supervisor of Chung Peng Construction Copmany, Supervisor of Hsien Tai resources Corp.
- Note 6: Vice Chairman of Anfu Solutions Inc, Assistant Professor of Department of Quantitative Finance of National Tsing Hua University, Assistant Professor of Business Administration of SooChow University, Chairman of Hung Yun, Inc.
- Note 7: Professor Emeritus of Department of Chemistry of National Chung Hsing University.
- Note 8: Technical Director of SCH Life Sciences Company Limited, Independent Director of General Biologicals Corporation, Director of HYGEIA TOUCH INC, Director of Hsinchu Kuang-Fu High School, Director of The KT Wang Foundation.
- Note 9: President of Ensure & Co., CPAs, Director of Foundation of Pacific Basin Financial Research and Development.
- Note10: If the chairperson, president, or an equivalent top manager of the Company is related to another person in any of those positions, either as a spouse or a first-degree relative, the report must include information on the reasons, rationale, necessity, and countermeasures.
  - The Chairman, Dr. Cheng, Chen-Yu, concurrently serves as the President to improve operational efficiency and implement policies. Dr. Cheng, Chen-Yu holds a Ph.D. in Pharmaceutical Chemistry from the University of California, San Francisco. He previously served as a professor in the School of Pharmacy at National Taiwan University, researcher at DuPont Chemical Company, and postdoctoral research fellow in the Department of Chemistry at Massachusetts Institute of Technology. During his years as the Chairman and General Manager of Formosa Labs, he has accumulated professional capabilities and extensive experience in operational judgment, business management, leadership decision-making, and crisis management, providing professional and comprehensive guidance for the Company's operations management and investment decisions, which has significantly benefited Formosa Labs' operations management. Through close and sufficient communication with directors on the Company's operations and future plans, the directors gain a clearer understanding of the Company's operations. Therefore, it is reasonable and necessary for the Chairman to concurrently serve as the General Manager. In order to implement corporate governance and strengthen the independence of the board of directors, the Company has been actively training suitable candidates for the General Manager position. The specific measures of the Company are as follows:
  - (1) Over half of the board members do not serve as employees or managers, thus reinforcing the independence of the Board of Directors.
  - (2) Every year, directors attend professional development courses to enhance the operational effectiveness of the Board of Directors.
  - (3) Independent directors actively participate in various meetings, including Shareholders' Meetings and board meetings, and fully engage in discussions while providing suggestions to implement the principles of corporate governance.
  - (4) Independent director seats to 4, which can not only enhance the functions of the Board of Directors, but also strengthen the supervisory and management functions.

#### (2) The Diversity and Independence of the Board of Directors

A. Diversity of Board of Directors

The company has developed the Corporate Governance Best Practice Principles and Procedures for the Selection of Directors, which advocate for a diverse composition of the Board of Directors. To achieve this goal, the Company will establish diversity guidelines tailored to the specific operational, business, and developmental requirements. These guidelines will include, but not be limited to, the following:

a. Basic conditions and values: Gender, age, nationality, culture, etc.

b. Expertise and skills: Professional background (such as law, accounting, industry, finance, marketing or technology), professional skills and industry experience.

To achieve ideal corporate governance, the Board of Directors as a whole shall have the following capabilities: a. The ability to make judgments about operations. b. Accounting and financial analysis skills. c. Business management ability. d. Crisis management capability. e. Knowledge of the industry. f. An international market perspective. g. Leadership. h. Decision-making ability.

Of the 9 members currently serving on the Board of Directors during the 10th term, 5 (56%) possess a background in pharmaceuticals or chemistry, while 4 (44%) have expertise in finance or corporate management. The Board also includes 2 female directors, comprising approximately 22% of the total number of directors. Furthermore, the number of directors who concurrently serve as the manager of the Company does not exceed onethird of the total number of directors. These factors demonstrate that the Board of Directors meets the basic conditions and values, provides specialized knowledge and skills to achieve diversity among its members, and takes into account the implementation of gender equality. The Company also continues to arrange diverse training courses for board members to serve as references for their decision-making, improve their supervisory and management capabilities, and further strengthen the functions of the board of directors. Therefore, each director of the Company can provide their professional opinions based on their different expertise and perspectives, which has a significant effect on the Company's business performance and governance decisions.

B. Independence of Board of Director

Currently, the Company has 4 independent directors, accounting for 44% of all (9) directors. The Board of Directors is composed of independent members who are not spouses or relatives within the second degree of kinship. Therefore, there is no violation of Paragraphs 3 and 4 of Article 26 of the Securities and Exchange Act.

Note 1: Indicates the date on which the person assumed their position.

Note 2: President of Formosa Laboratories, Inc, Chairman of Formosa Pharmaceuticals, Inc, Director of Rayoung Chemtech Inc, Director of Epione Investment Cayman Limited, Director of EirGenix, Inc, Chairman and President of Epione Pharmaceuticals, Inc, Chairman of Activus Pharma Co., Ltd, Director of A.R.Z Taiwan Limited, Perennial Consultant of Forward Asset Management Ltd.

Note 3: Director of Epione Pharmaceuticals, Inc; Director of A.R.Z Taiwan Limited.

Note 4: Supervisior of Epione Pharmaceuticals, Inc; Supervisior of A.R.Z Taiwan Limited; Supervisior of Activus Pharma Co., Ltd.

Note 5: If the Company's chairperson, president, or equivalent top manager is related to any person holding such a position, including spouses or first-degree relatives, the report must include information on the reasons, rationale, necessity, and countermeasures taken, such as increasing the number of independent directors and ensuring that more than half of the directors are not concurrently serving as employees or managers.

The Chairman, Dr. Cheng, Chen-Yu, concurrently serves as the President to improve operational efficiency and implement policies. Dr. Cheng, Chen-Yu holds a Ph.D. in Pharmaceutical Chemistry from the University of California, San Francisco. He previously served as a professor in the School of Pharmacy at National Taiwan University, researcher at DuPont Chemical Company, and postdoctoral research fellow in the Department of Chemistry at Massachusetts Institute of Technology. During his years as the Chairman and General Manager of Formosa Labs, he has accumulated professional capabilities and extensive experience in operational judgment, business management, leadership decision-making, and crisis management, providing professional and comprehensive guidance for the Company's operations management and investment decisions, which has significantly benefited Formosa Labs' operations management. Through close and sufficient communication with directors on the Company's operations and future plans, the directors gain a clearer understanding of the Company's operations. Therefore, it is reasonable and necessary for the Chairman to concurrently serve as the General Manager. In order to implement corporate governance and strengthen the independence of the board of directors, the Company has been actively training suitable candidates for the General Manager position. The specific measures of the Company are as follows:

(1) Over half of the board members do not serve as employees or managers, thus reinforcing the independence of the Board of Directors.

- (2) Every year, directors attend professional development courses to enhance the operational effectiveness of the Board of Directors.
- (3) Independent directors actively participate in various meetings, including Shareholders' Meetings and board meetings, and fully engage in discussions while providing suggestions to implement the principles of corporate governance.
- (4) Independent director seats to 4, which can not only enhance the functions of the Board of Directors, but also strengthen the supervisory and management functions.

#### III. Remuneration to Directors, Supervisors, President and Vice President in the Latest Year (2023)

(I) Remuneration Paid to Directors (including Independent Directors)

|                      | Name   | Directors' remuneration     |   |                               |   |                      |                                      |             |  | Sum of A, B, C, and  |   | Remuneration as an employee                                  |   |                               |  |                                 |              |  |  | Sum of A, B, C, D, |  |   |

Unit: NTD thousand

Please describe the policy, systems, standards and structure of remuneration of independent directors; also, describe the relationship with the amount of remuneration according to the responsibilities, risks and invested time: The remuneration of the directors of the company shall be determined in accordance with the articles of association of the company and the regulations on the payment of remuneration to directors and supervisors.

2. Compensation received by director for providing service to all companies included in the financial statements (e.g. consultancy service without the title of an employee) in the last year, except those disclosed in the above table: None.

- Note 1: The names of directors shall be listed separately (for corporate shareholder, the name of the corporate shareholder and its representative shall be listed respectively) and summarized for disclosure of each paid amount.
- Note 2: Refer to the remuneration paid to directors in the most recent year (including wage, position bonus, severance pay, and each kind of bonus and reward, etc.)
- Note 3: The amount of directors' remuneration that the Board has approved as part of the latest earnings appropriation.
- Note 4: The compensations for services rendered in the most recent year (including travel, special allowances, various subsidies, accommodation, corporate vehicle and other inkind benefits). Where housing, cars, vehicles, or personal allowances were granted, the nature and cost of assets, the rental rates (calculated based on actual or fair value), cost of petrol and other subsidies are also disclosed. Where personal drivers were allocated, please make a footnote disclosure explaining the amount in salaries made to drivers, but do not count them as part of the compensation paid to the above beneficiaries.
- Note 5: Any salaries, allowances, severance pay, bonuses, incentives, travel allowances, special allowances, subsidies, accommodation, vehicles and in-kind benefits that the director received in the last year for assuming the role of the Company's employee (including President, Vice President, manager or other employees). Where housing, cars, vehicles, or personal allowances were granted, the nature and cost of assets, the rental rates (calculated based on actual or fair value), cost of petrol and other subsidies are also disclosed. Where personal drivers were allocated, please make a footnote disclosure explaining the amount in salaries made to drivers, but do not count them as part of the compensation paid to the above beneficiaries. Part of the salary expense was recognized according to IFRS 2 "Share-based Payment." Amounts including employee stock options, RSAs and subscription to cash issues are treated as compensation.
- Note 6: If the directors who acted as employees concurrently (including President, vice president, managerial officer and employee) received employee remuneration (including stocks and cash) in the most recent year, please disclose the employee remuneration approved by the Board of Directors prior to the motion for earnings distribution submitted to the shareholders' meeting in the most recent year. If it is impossible to attribute the same, the amount to be distributed this year shall be based on that actual distributed amount last year. Please also complete Table 1-3.
- Note 7: Please disclose the total compensation paid by all companies included in the consolidated financial statements (including the Company) to the Company's directors.
- Note 8: The aggregate of the compensation to directors by the Company, and the names of such directors, should be disclosed in the relevant space of the table.
- Note 9: The aggregate of the compensation to directors of the Company from the companies included in the consolidated financial reports (including the Company), and the names of such directors, should be disclosed in the relevant space of the table.
- Note 10: Net income refers to that in the most recent year. If IFRSs have been adopted, net income shall refer to the amount of after-tax profit shown in the most recent parent company only or consolidated report.
- Note 11: (1) This field represents all forms of compensation the director has received from the Company's invested businesses other than subsidiaries.
  - (2) For directors who receive remuneration from invested businesses other than subsidiaries, the amount of remuneration from these invested businesses should be added to column I in the table of remuneration ranges, and please change the column name into "All invested businesses" in such cases.
  - (3) Compensation refers to any remuneration or return (including compensations received as an employee, director and supervisor) and professional service fees which the Company's directors received for serving as directors, supervisors or managers in invested businesses other than subsidiaries.

# (II) Remuneration for the President and Vice President

Note: After the Shareholders' Meeting on June 23, 2022, the Company appointed audit committee members to replace supervisors.

Note: The decrease in the total remuneration for directors in 2023 compared to 2022 was due to the decrease in net income after tax in 2023. The increase in the total remuneration for the general manager and deputy general managers compared to 2022 was due to the increase in salaries paid.

- 2. The Policies, Standards, and Remuneration Payment Combinations, as Well as the Procedures for Determining Remuneration, Are Relevant to Business Performance and Future Risks
  - (1) Directors and Supervisors: Pay the directors and supervisors their remuneration in accordance with the proportion of earnings distribution specified in the Articles of Association.
  - (2) Employee remuneration will be appropriated from earnings according to the Company's Articles of Association, which stipulate the percentage of earnings allocated to employee remuneration. This allocation will be resolved by the Board of Directors and reported to the Shareholders' Meeting.
- 3. Relationship between Performance Evaluation and Compensation of Directors and Managers
  - (1) Director

If the Company makes a profit, the Board of Directors shall allocate not less than 5% of the profit as the remuneration of employees and not more than 2% of the profit as the remuneration of directors.

The Company has established the "Board Performance Evaluation Measures" which stipulate that internal performance evaluations of board members shall be conducted at least once a year. The measurement indicators include the grasp of the company's goals and tasks, understanding of directors' responsibilities, level of participation in the company's operations, internal relationship management and communication, directors' professionalism and continuing education, and internal control.

In addition, the distribution of individual directors' remuneration is based on the "Remuneration Measures for Directors (Supervisors), Members of Various Functional Committees, and Managers". According to their level of participation in and contribution to the company's operations, the following weights are given and the weighted results are used for distribution:

- A. The basic weight for serving as a director or supervisor is 1.
- B. For serving as the Chairman, the weight is increased by 1.
- C. For serving as a joint and several guarantor due to financing needs, the weight is increased by 1.
- D. For other significant contributions, after being proposed by the Remuneration Committee and discussed and approved by the Board of Directors, the weight is increased by 1.
- E. Paid annually, if the tenure is less than one year, the weight is calculated according to the tenure.

The formula for calculating an individual director's remuneration is as follows:

Total amount of directors' remuneration resolved by the Board of Directors  $\times$  (individual director's weight / total sum of weights of all directors participating in the distribution)

If a director concurrently serves as an employee, their employee remuneration standards are the same as the following remuneration standards for managers.

- (2) Managerial Officer
  - A. Remuneration
    - a. Changes in Managerial officers' salary determination, annual salary adjustment, promotion, etc. are handled by the President in accordance with the Company's "Salary Management Measures", approved and sent to the Chairman for approval, and reported to the Board of Directors for resolution after being reviewed by the most recent Remuneration Committee meeting.
    - b. The Remuneration Committee may review the reasonableness of Managerial officers' salaries based on their level of participation in and contribution to the company's operations, using the salary levels of the industry as a basis ranging from 0% to 150%.
  - B. Bonuses
    - a. The distribution of various bonuses for Managerial officers' is handled by the President in accordance with the Company's "Employee Performance Evaluation Measures", "Performance Bonus Distribution Measures", "Year-end Bonus Distribution Management Measures", and other salary management related measures, approved and sent to the Chairman for approval, and reported to the Board of Directors for resolution after being reviewed by the most recent Remuneration Committee meeting.
    - b. The total amount received by Managerial officers shall not exceed 40% of the total amount of that bonus. For those with special contributions, after being reviewed by the Remuneration Committee and reported to the Board of Directors for resolution, they may not be subject to the above bonus distribution ratio limit.
  - C. The Remuneration of Employees
    - a. Each year, based on the employee remuneration provisions in the Company's Articles of Incorporation, it is resolved by the Board of Directors and reported to the shareholders' meeting. The amount received by Managerial officers is handled by the President in accordance with the Company's "Employee Bonus (Remuneration) Management Measures", reviewed and sent to the Chairman for

approval, and reported to the Board of Directors for resolution after being reviewed by the most recent Remuneration Committee meeting.

- b. The total amount of employee remuneration received by all Managerial officers shall not exceed 40% of the total amount of employee remuneration distributed; individual Managerial officer shall not exceed 50% of the total employee remuneration for managers. For those with special contributions, after being reviewed by the Remuneration Committee and reported to the Board of Directors for resolution, they may not be subject to the above employee remuneration distribution ratio limit.
- D. Retirement Pension

The Company allocates employee retirement pensions in accordance with relevant laws and regulations such as the Labor Standards Act and the Labor Pension Act.

E. Housing, Accommodation, Vehicles

This refers to the purchase or lease of housing and accommodation for managers' use due to work needs; vehicles are handled in accordance with the Company's "Executive Vehicle Management Measures".

F. Employee Stock Options, Employee Stock Subscription in Cash Capital Increase, Transfer of Treasury Shares to Employees

These are handled in accordance with current laws and regulations and the Company's relevant measures such as the "Measures for Issuance and Subscription of Employee Stock Option Certificates" and "Cash Capital Increase Employee Stock Subscription Management Measures". The number of shares that Managerial officers can subscribe to will be determined by the President based on factors such as seniority, rank, work performance, overall contribution or special performance, approved and sent to the Chairman for approval, and reported to the Board of Directors for resolution after being reviewed by the most recent Remuneration Committee meeting.

- (V) Succession Planning for Board Members and Middle to Senior Management Personnel
  - The company has implemented a candidate nomination system for electing directors, whereby shareholders select from a list of candidates. To ensure effective succession planning for board members, it is necessary to have a diverse pool of nominees. Therefore, appropriate diversity guidelines will be established based on operational requirements, business patterns, and development needs. These guidelines will include, but not be limited to, the following:
    - (1) Basic Conditions and Values: Gender, age, nationality, culture, etc.
    - (2) Expertise and Skills: Professional background, professional skills and industrial experience.

The Board of Directors of the Company as a whole shall have the following capabilities:

(1)The ability to make judgments about operations; (2)Accounting and financial analysis skills; (3)Business management ability; (4)Crisis management capability; (5)Knowledge of the industry; (6)An international market perspective; (7) Leadership; (8) Decision-making ability.

The Company has established the "Board Performance Evaluation Measures". Through the measurement items of performance evaluation, including six major aspects of grasping the company's goals and tasks, understanding directors' responsibilities, level of participation in the company's operations, internal relationship management and communication, directors' professionalism and continuing education, and internal control, it ensures the effective operation of the Board of Directors and evaluates the performance of directors as a reference for future selection of directors.

- 2. To cultivate management talent and ensure smooth and sustainable operations, the Company has implemented an organization and talent development project. This approach closely aligns talent development with organizational needs, facilitating the achievement of our goals. The following are the main considerations
  - (1) Talent diversity: Various operational and management functions should be covered by professionals to enhance the diversity of the company's talent pool.
  - (2) Urgency of demand: Based on the current needs for organizational growth and the importance of key positions, the Company has prioritized the cultivation and development of talent at specific public institutions and organizational levels.
  - (3) Qualifications and conditions of candidates: High-potential employees in an organization typically demonstrate exceptional performance in professional competence, work commitment, and career aspirations, as well as other important qualifications and selection criteria.
  - (4) Culture/values: Corporate culture and core values should be solidified as essential criteria for talent selection, defining the necessary characteristics and functional qualifications for potential hires.
- 3. The regular work evaluation will include the achievement of work objectives assigned to candidates as the main reference basis for employee promotion. This will be done by expanding the scope of responsibilities, making necessary organizational adjustments, and increasing the experience of management, in accordance with the Rules for Performance Evaluations of Employees.

# IV. Implementation of Corporate Governance

## (I) Information Concerning the Board of Directors

(1) The implementation status of the evaluation by the Board of Directors:

(2) Results of Board of Directors Performance Evaluation

A. Performance Evaluation of the Board of Directors

The Board of Directors' performance evaluation indicators encompass five aspects, with an average score of 4.95, signifying good evaluation results.

| Evaluation items   | Board of Directors   |
|--------------------|--|
| Self-assessment    | <ol> <li>Degree of involvement in corporate operation</li> <li>Improvement in the quality of decision making by<br/>the Board of Directors</li> <li>Composition and structure of the Board of</li> </ol> |
|                    | <ul><li>Directors</li><li>4. Selection and continuing education of directors</li><li>5. Internal control</li></ul>   |
| Evaluation results | Good   |

# B. Performance Evaluation of Individual Board Members

The evaluation of individual board members' performance encompasses six aspects, with an average score of 4.94, indicating good overall results.

| Evaluation items   | Board members  |
|--------------------|--|
| Self-assessment    | <ol> <li>Understanding of the Company's objectives and<br/>tasks</li> <li>Directors' awareness of duties</li> <li>Degree of involvement in corporate operation</li> <li>Internal relationship management and<br/>communication</li> <li>Directors' professional competence and continuing<br/>education</li> <li>Internal control</li> </ol> |
| Evaluation results | Good   |

C. Operational performance evaluation of the Audit Committee

The performance evaluation of the Audit Committee encompasses five aspects, with an average score of 5, indicating good results.

| Evaluation items   | Audit Committee  |
|--------------------|--|
| Self-assessment    | <ol> <li>Degree of involvement in corporate operation</li> <li>Audit Committee members' awareness of duties</li> <li>Improvement in the quality of decision making by<br/>the Audit Committee</li> <li>Composition of the Audit Committee and election<br/>of its members</li> <li>Internal control</li> </ol> |
| Evaluation results | Good   |

D. Evaluation of Remuneration Committee Operational Performance

The performance evaluation of the Remuneration Committee encompasses four aspects, with an average score of 5, indicating good results.

| Evaluation items   | Remuneration Committee  |
|--------------------|---|
| Self-assessment    | <ol> <li>Degree of involvement in corporate operation</li> <li>Remuneration Committee members' awareness of<br/>duties</li> <li>Improvement in the quality of decision making by<br/>the Remuneration Committee</li> <li>Composition of the Remuneration Committee and<br/>election of its members</li> </ol> |
| Evaluation results | Good  |

#### Conclusions:

The overall performance evaluation of the Board of Directors, individual board members, the Audit Committee, and the Remuneration Committee is satisfactory.

In addition, according to the provisions of the Company's "Board Performance Evaluation Measures", the Company shall appoint an external professional independent organization or an external expert and scholar team to conduct a board performance evaluation at least every three years. The Company completed an external board performance evaluation by the independent professional organization, Taiwan Investor Relations Institute, in 2023.

- 4. Assess the objectives and performance of strengthening the functions of the Board of Directors, including the establishment of the Audit Committee and the enhancement of information transparency, in the current and recent years.
  - (1) The company has assigned personnel to collect and disclose corporate information in a timely and appropriate manner, ensuring compliance with all relevant laws and regulations. This commitment to transparency enhances the dissemination of information.
  - (2) The Audit Committee was established by the Company on June 23, 2022. With a professional division of labor and an independent stance, the committee assists the Board of Directors in decision-making, enhances the supervisory function, and strengthens corporate governance.
  - (3) The Company's Board of Directors has sanctioned the creation of the Remuneration Committee and developed the Organizational Regulations of the Remuneration Committee. Furthermore, the Remuneration Committee convened twice during the latest fiscal year (2023) to deliberate on remuneration policies and pertinent recommendations for directors, supervisors, and managers.
  - (4) During their term in office, the current Board of Directors will be required to attend refresher courses on corporate governance as outlined in the Directions for the Implementation of Continuing Education for Directors and Supervisors of TWSE/TPEx Listed Companies.
- 5. The communication between the independent directors and the internal audit supervisor and CPAs, including the methods, matters, and results of communications regarding the Company's financial reports and financial and business conditions.
  - (1) Methods of Communication between Independent Directors and Internal Audit Supervisor.

The internal audit supervisor is required to attend quarterly meetings of the Audit Committee to present and discuss the business audit with the independent directors in compliance with regulations. The Audit Report must be submitted monthly to the Audit Committee convener for review and to all independent directors. Communication between the internal audit supervisor and independent directors has been effective. In the fiscal year 2023, their communication was as follows.

| Date              | Communication Highlights   | Handling of<br>Opinions |
|-------------------|--|-------------------------|
| March 9, 2023     | <ol> <li>Audit Report for Q1 2023.</li> <li>Report on the Implementation of the<br/>2022Annual Internal Audit Plan.</li> </ol>                                     | No objections           |
| May 12, 2023      | <ol> <li>Audit Report for Q2 2023.</li> <li>Report on Declaration of Internal Control<br/>System in 2022.</li> </ol>   | No objections           |
| August 10, 2023   | <ol> <li>Audit Report for Q3 2023.</li> <li>Report on the Improvement of the Deficiencies<br/>and Abnormalities of Internal Control System<br/>in 2022.</li> </ol> | No objections           |
| November 10, 2023 | <ol> <li>Audit Report for Q4 2023.</li> <li>Discussion on the 2023 Annual Audit Work<br/>Plan.</li> </ol>  | No objections           |

#### (2) Communication between Independent Directors and CPAs

During the quarterly communication meeting, the CPAs will present their audit findings and results of the financial statements to the independent directors. They will also gain an understanding of the Company's operating conditions, including financial and business conditions, and engage in effective communication with the independent directors. The communication between the Independent Director and independent directors during the most recent fiscal year (2023) was as follows:

| Date              | Communication Highlights  | Handling of<br>Opinions   |
|-------------------|---|---|
| March 9, 2023     | The CPA explained and communicated the<br>audit results of the 2022 financial report, the<br>revised provisions for non-assurance services,<br>and the questions raised by independent<br>directors with the governance units.  | Independent<br>directors had no<br>objections to the<br>CPAs' explanations. |
| May 12, 2023      | Regarding the Q1 2023 Financial Report audit<br>results, the CPAs provided an explanation and<br>communicated with the governing body<br>regarding the financial statements and<br>questions raised by independent directors.   | Independent<br>directors had no<br>objections to the<br>CPAs' explanations. |
| August 10, 2023   | Regarding the Q2 2023 Financial Report audit<br>results, the CPAs provided an explanation and<br>communicated with the governing body about<br>the audit results of the financial statements,<br>recent regulatory updates, and the questions<br>raised by independent directors. | Independent<br>directors had no<br>objections to the<br>CPAs' explanations. |
| November 10, 2023 | Regarding the Q3 2023 Financial Report audit<br>results, the CPAs provided an explanation and<br>communicated with the governing body<br>regarding the financial statements and<br>questions raised by independent directors.   | Independent<br>directors had no<br>objections to the<br>CPAs' explanations. |

Note1: If directors and supervisors hold shares in the Company, the names of the corporate shareholders and their representatives must be disclosed.

Note2: (1) If a director or supervisor resigns before the end of the year, the date of resignation will be noted in the "Remarks" column, and the actual attendance rate (%) will be calculated based on the number of Board of Directors meetings held during their term of office and their actual attendance.

<sup>(2)</sup> If directors and supervisors are re-elected before the end of the year, the list should include both newlyappointed and former directors and supervisors. The "Remarks" column should indicate whether the individual is a former, newly-appointed, or reappointed director or supervisor, along with the date of re-

election. The actual attendance rate (%) will be calculated by dividing the number of Board of Directors meetings attended by each member during their term of office by the total number of meetings held.

| Appendix 1: Implementation of Directors' Recusal from Conflict-of-Interest Agenda Item |

|                       | 4. Proposal to sign a pharmaceutical-related and resource sharing commissioned service contract with Formosa Pharmaceuticals. | Cheng, Chen Yu                                     | Involved the<br>director's<br>own interests | Chairman Cheng Chen-<br>Yu recused himself from<br>the discussion and<br>resolution of this<br>motion.  |

## (II) Operation of Audit Committee

The Audit Committee held 4 meetings (A) in the most recent fiscal year (2023). The independent directors present were as follows:

| Title        | Name             | Attendance in person (B) | By proxy | Rate of attendance<br>in person (%)<br>(B/A)(Note1 and<br>2) | Notes                        |
|--------------|------------------|--------------------------|----------|--|------------------------------|
| Convener     | Chen, Yi-Fen     | 4                        | 0        | 100%   |                              |
| Commissioner | Lu, Ta-Jung      | 4                        | 0        | 100%   |                              |
| Commissioner | Chaung, Tza-Zen  | 2                        | 0        | 100%   | Elected as an independent    |
| Commissioner | Chang, Ting-Jung | 2                        | 0        | 100%   | director on<br>June 27, 2023 |

Other remarks:

- 1. If the Audit Committee encounters any of the following circumstances during its operations, it must record the date and period of the meeting, the motion's content, any objections, reservations, or significant recommendations made by independent directors, the Audit Committee's resolution, and the Company's response to the Audit Committee's opinion.
  - (1) Matters listed in Article 14-5 of the Securities and Exchange Act.

(2) Other resolutions not approved by the Audit Committee but agreed upon by more than twothirds of all directors: None.

- 2. When an independent director abstains due to being a stakeholder in certain proposals, the name of the independent director, the content of motion, reasons for abstentions, and the results of vote counts shall be stated: None.
- 3. Communications between the independent directors, the Company's chief internal auditor, and CPAs (shall include the material items, methods and results of audits of corporate finance or operations, etc.):
  - (1) The independent directors reviewed the monthly internal audit reports and the quarterly audit follow-up reports.
  - (2) The audit supervisor attended 4 meetings of the Audit Committee in 2023and presented business reports to the independent directors. They also provided comprehensive updates on the implementation and effectiveness of the audit work.

(III) The State of the Company's Implementation of Corporate Governance, Any Departure from the Corporate Governance Best-Practice Principles for TWSE/TPEx Listed Companies, and the Reason for Such Departure

|  | Implementation Status |    | Corporate Governance Best-Practice  |   |
|--|-----------------------|----|---|---|
| Evaluation Item  | Yes                   | No | Abstract  | Principles for TWSE/TPEx Listed<br>Companies and the Reason for Such<br>Departure |
| 1. Has the Company established and<br>disclosed a corporate governance best-<br>practice principles in accordance with<br>the "Corporate Governance Best-<br>Practice Principles for TWSE/GTSM<br>Listed Companies"?   | ~                     |    | The company has established its Corporate Governance Best<br>Practice Principles and disclosed them on the Market<br>Observation Post System and its official website.  | No discrepancy.   |
| <ul> <li>2. Company Equity Structure and<br/>Shareholders' Equity</li> <li>(1) Has the Company established internal<br/>operating procedures to deal with<br/>shareholders' suggestions, concerns,<br/>disputes and litigation matters, and<br/>implement them accordingly?</li> </ul> | ~                     |    | In addition to holding annual shareholders' meetings in<br>compliance with regulations, the company has established an<br>effective and timely communication mechanism with<br>investors. The Company has also appointed a spokesperson<br>and acting spokesperson to address matters related to<br>shareholders' inquiries and concerns. | No discrepancy.   |
| (2) Does the Company have a list of the<br>names of the major shareholders who<br>actually control the company and the<br>ultimate controllers of the major<br>shareholders?   | ~                     |    | The company has engaged a professional shareholder services<br>agency and assigned a dedicated officer to manage related<br>affairs. The Company identifies significant shareholders and<br>their ultimate controllers through the shareholder services<br>agency's register of shareholders.   | No discrepancy.   |
| (3) Does the Company establish and<br>implement risk management and<br>firewall mechanisms between related<br>companies?   | ~                     |    | The company clearly delineates the management rights and<br>responsibilities of personnel, assets, and finance between itself<br>and its affiliate enterprises. Financial and business operations<br>are independently conducted in accordance with the<br>company's internal control system and related management<br>measures.          | No discrepancy.   |

|   |     |    | Implementation Status   | Corporate Governance Best-Practice  |
|---|-----|----|---|---|
| Evaluation Item   | Yes | No | Abstract  | Principles for TWSE/TPEx Listed<br>Companies and the Reason for Such<br>Departure |
| (4) Has the Company established internal<br>rules prohibiting Company insiders from<br>trading securities using information not<br>disclosed to the market?                                       | ~   |    | The Company has formulated the Rules of Procedure for<br>Preventing Insider Trading to prohibit insiders from trading<br>securities by using undisclosed information.   | No discrepancy.   |
| <ul> <li>3. The composition and responsibilities of the board of directors</li> <li>(1) Has the board of directors drawn up policies on diversity of its members and implemented them?</li> </ul> | ~   |    | <ul> <li>The company has developed the Corporate Governance Best<br/>Practice Principles and Procedures for the Selection of<br/>Directors, which advocate for a diverse composition of the<br/>Board of Directors. To achieve this goal, the Company will<br/>establish diversity guidelines tailored to the specific<br/>operational, business, and developmental requirements. These<br/>guidelines will include, but not be limited to, the following:</li> <li>Basic conditions and values: gender, age, nationality, and<br/>culture, etc.</li> <li>Professional knowledge and skills:Professional<br/>background (such as law, accounting, industry, finance,<br/>marketing or technology), professional skills and industry<br/>experience.</li> <li>To achieve the ideal goal of corporate governance, the overall<br/>capabilities that the board of directors should possess are: (1)<br/>Operational judgment ability; (2) Accounting and financial<br/>analysis skills; (3) Business management ability; (4) Crisis<br/>management capability; (5) Knowledge of the industry; (6) An<br/>international market perspective; (7) Leadership; (8) Decision-<br/>making ability.</li> <li>Of the 9 members currently serving on the Board of Directors<br/>during the 10th term, 5 (56%) possess a background in<br/>pharmaceuticals or chemistry, while 4 (44%) have expertise in<br/>finance or corporate management. The Board also includes 2</li> </ul> | No discrepancy.   |

|-----------------|-----|----|---|---|
| Evaluation Item | Yes | No | Abstract  | Principles for TWSE/TPEx Listed<br>Companies and the Reason for Such<br>Departure |
|                 |     |    | female directors, comprising approximately 22% of the total<br>number of directors. Furthermore, the number of directors who<br>concurrently serve as the manager of the Company does not<br>exceed one-third of the total number of directors. These factors<br>demonstrate that the Board of Directors meets the basic<br>conditions and values, provides specialized knowledge and<br>skills to achieve diversity among its members, and takes into<br>account the implementation of gender equality. The company<br>also arranges various refresher courses for board members to<br>enhance their decision-making abilities. The company will<br>increase the number of independent director seats to 4, which<br>can not only enhance the functions of the Board of Directors,<br>but also strengthen the supervisory and management functions.<br>In summary, the Company's directors offer valuable<br>professional advice from diverse perspectives, greatly<br>enhancing the Company's operational performance and<br>governance decisions.<br>The diversity of board members is as follows: |   |

Furthermore, the company's website<br>features a dedicated section for interested parties, complete<br>with contact windows for investor relations and news<br>inquiries, as well as separate sections for clients, suppliers, and<br>employees. The website also includes a corporate social<br>responsibility mailbox and a reporting mailbox for<br>professional ethics violations.<br>The Company has also taken out liability insurance for its<br>directors and supervisors to effectively cover any losses the<br>Company may suffer. | No discrepancy.   |

9. Please describe the improvements made based on the latest Corporate Governance Evaluation results released by the Corporate Governance Center of the Taiwan Stock Exchange, and provide priority improvement measures and plans for items yet to be improved:

(1) The Company's results in the latest (2023) "Corporate Governance Evaluation" were between 21% and 35%. The main items that did not score points were not holding the shareholders' meeting before the end of May and not announcing the annual financial report within two months after the end of the year.
 (2) In 2024, priority will be given to assessing the feasibility of implementing items that did not meet the standards.

## (IV) Remuneration and the Composition, Responsibilities and Operation Status of Nomination Committee:

1. Information about remuneration committee members

- 2. The Operation of the Remuneration Committee
  - (1) The Remuneration Committee consists of 3 persons appointed by the Board of Directors.
  - (2) The term of the commissioners: Committee members is from Jun 23, 2022 until Jun 22, 2025. The Committee has convened 2 meetings (A) during the most recent year (2023). The qualification and participation of the commissioners are listed below:

| Title        | Name             | Attendance in<br>Person (B) | Attendance by<br>Proxy | Actual Attendance<br>Rate (%) (B/A) | Remarks |
|--------------|------------------|-----------------------------|------------------------|-------------------------------------|---------|
| Convener     | Lu, Ta-Jung      | 2                           | 0                      | 100%                                |         |
| Commissioner | Chen, Yi-Fen     | 2                           | 0                      | 100%                                |         |
| Commissioner | Chang, Ting-Jung | 2                           | 0                      | 100%                                |         |

Other matters that should be recorded:

- 1. If the board meeting does not adopt or revise the Remuneration committee's proposals, the board meeting's date, period, motion contents, and resolution decisions as well as the method in which the company handles the Remuneration committee's opinions shall be disclosed in detail (e.g., if the salary rate adopted by the board committee is superior to that proposed by the remuneration committee, the differences and reasons shall be explained): None.
- 2. If there are objections or reservations by the members that have been recorded in writing during the Remuneration Committee resolution, the Remuneration Committee meeting's date, period, motion content, the opinions of all members, and treatment of the member's opinions must be disclosed in detail: None.
- 3. Terms of Reference of the Remuneration Committee

The Committee members must exhibit due diligence as competent managers to carry out the following responsibilities and present their proposals to the Board of Directors for deliberation:

- (1) Evaluate and supervise the Company's overall remuneration policies.
- (2) Establish and periodically review policies, systems, standards, and structures for the performance evaluation and remuneration of directors, supervisors, and managers.
- (3) Evaluate and determine the remuneration of directors, supervisors, and managers on a regular basis.

The Committee shall perform the above duties in accordance with the following principles:

- (1) When assessing the performance and compensation of the Company's directors, supervisors, and managers, the Committee will consider the pay levels of similar companies and evaluate the appropriateness of the correlation between compensation and individual performance, the Company's business performance, and future risk exposure.
- (2) It shall not incentivize directors or managers to engage in activities that pursue remuneration beyond the Company's risk tolerance.
- (3) When determining the ratio of bonus payout based on the short-term performance of its directors and senior management, as well as the time for payment of the variable part of remuneration, the Company shall take into consideration the characteristics of the industry and the nature of its business.

4. Discussion reasons and decision results of the Remuneration Committee, as well as the Company's response to members' feedback:

| Date/Term   | Subject Matter  | Resolution Results  | The Company's handling<br>of the opinion from the<br>Remuneration Committee   |

| Promoting Item  | Yes | No | Abstract  | Best-Practice Principles for<br>TWSE/TPEx Listed<br>Companies and the Reason<br>for Such Departure |
|   |     |    | are held to assess performance, which serves as a reference for<br>the distribution of annual performance bonuses.  |  |
|   |     |    | (2) Relationship between Performance Bonus and Revenue Targets  |  |
|   |     |    | The Company has formulated the Rules for the Payment of<br>Performance Bonus to motivate all employees to achieve<br>revenue targets, ensure product quality and improve production<br>efficiency, which is applicable to the staff of the Company. The<br>Rules stipulates that at the end of each quarter, the Finance<br>Department shall settle the revenue status and allocate 3% -<br>10% of net operating profit as performance bonus for all<br>employees, based on the ratio of the revenue achieved to the<br>revenue target.   |  |
|   |     |    | (3) Relationship between Employee Share Ownership Trust (ESOT) and Business Growth of the Company.  |  |
|   |     |    | The company has established the Employee Share Ownership<br>Trust Committee, which regular employees are eligible to join.<br>Employees may withdraw 3% or more of their remuneration<br>from their monthly salary accounts, and the Company will<br>allocate 3% of their remuneration as a bonus to the ESOT<br>accounts on a monthly basis. This approach achieves the dual<br>purpose of retaining talent and increasing employee<br>remuneration, while also encouraging employees to regularly<br>purchase shares of the Company. This principle of employees as<br>shareholders creates a situation where labor and management<br>share operating profits together. |  |
| (3) Does the Company provide a safe and<br>healthy work environment for employees<br>and regularly implement employee safety<br>and health education? | ~   |    | 1. In order to prevent occupational accidents, ensure the safety of all<br>employees and all contractors and partners, and provide a safe and<br>healthy work environment, the Company has passed   | No discrepancy.  |

|  |     |    | <ul> <li>introducing reaction heat risk assessment, also review the explosion-proof zoning and process ventilation in the plant.</li> <li>C. Safe evacuation and refuge: For the scope of new construction, renovation or change of use, review in accordance with the "Standards for Installation of Fire Safety Equipment in Various Places" and list them, and gradually adjust to comply with regulatory requirements.</li> </ul>  |  |
| (4) Does the Company establish an effective<br>career development training program for<br>employees?   |     |    | Summary: Formosa Labs is committed to cultivating talent and<br>enhancing employee capabilities. To this end, it plans to develop an<br>OJT (On the Job Training) learning map and a complete on-the-job<br>training mechanism to improve the employability of new employees<br>and enable employees to understand their personal development and<br>growth direction. From new employee training, professional skills<br>required for each position, to leadership training for middle and senior<br>management, there are dedicated personnel to design empowerment<br>projects. Through diverse learning channels such as physical teaching,<br>online learning videos, and digital learning platforms, coupled with a<br>teaching satisfaction feedback mechanism, the company's training<br>programs are continuously improved.<br>In 2023, a total of 253 internal training courses and external education<br>and training courses applied by employees were held, with a total of<br>4,613 participants in internal education and training courses and 273<br>participants in external training courses subsidized by the company,<br>totaling 4,886 participants in education and training courses. The<br>average training hours per employee was 10.8 hours, with an average of<br>11.4 hours for male employees and 9.9 hours for female employees. | No discrepancy.  |
| (5) Regarding issues such as customer health<br>and safety for products and services,<br>customer privacy, marketing and labeling,<br>does the company follow relevant | ~   |    | The Company places great importance on client feedback and has<br>established the Measures for Handling Client Complaints as the<br>foundation for addressing various client complaints. Furthermore, a<br>dedicated department has been established for interested parties, where   | No discrepancy.  |

|     |   |         |          | Implementation Status  | Sustainable Development  |
|-----|---|---------|----------|--|--|
|     | Promoting Item  | Yes     | No       | Abstract   | Best-Practice Principles for<br>TWSE/TPEx Listed<br>Companies and the Reason<br>for Such Departure |
|     | regulations and international standards,<br>and formulate relevant policies and<br>complaint procedures to protect consumer<br>or customer rights and interests?  |         |          | designated personnel will respond to clients' inquiries, complaints, and<br>suggestions to fully safeguard their rights and interests.   |  |
| (6) | Does the Company formulate supplier<br>management policies to require suppliers<br>to follow relevant regulations on issues<br>such as environmental protection,<br>occupational safety and health, or labor<br>human rights, and what is the<br>implementation status?   | ~       |          | The Company works with reputable manufacturers as its suppliers. To<br>ensure high quality, the Company has established the Qualification<br>Accreditation Procedure for Suppliers of Raw Materials, Evaluation<br>Procedure for Suppliers of Raw Materials, and Safety and Health<br>Management Measures for Contractors. These procedures serve as the<br>basis for regular supplier evaluations. Additionally, the Company<br>conducts on-site inspections to confirm that the supplier's quality<br>system meets the Company's standards, ensuring product quality and<br>material safety.   | No discrepancy.  |
| 5.  | Does the Company refer to internationally<br>accepted reporting standards or guidelines<br>to prepare reports that disclose non-<br>financial information such as sustainability<br>reports? Has the aforementioned report<br>obtained the assurance or verification<br>opinion of a third-party verification unit?   | ~       |          | The Company has compiled and issued a 2022 sustainability report.<br>This report is compiled in accordance with the 2021 version of the<br>Global Reporting Initiative (GRI) Sustainability Reporting Standards<br>(GRI Standards), and a GRI content index is provided in the appendix.<br>The Company's 2022 sustainability report has obtained assurance from<br>the verification company (SGS Taiwan Ltd.) based on the AA 1000<br>Assurance Standard, using Type 1 and Moderate Assurance level as the<br>verification basis, ensuring that the contents of this report comply with<br>the GRI Standards and the AA1000AP (2021) accountability principles. |  |
| 6.  | <ul> <li>6. If the Company has established its own sustainable development code in accordance with the "Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies", please describe the differences between its operation and the established code:<br/>The Board of Directors has approved the Sustainable Development Best Practice Principles which the Company formulated. The implementation of corporate social responsibility aligns with the Principles without any significant deviation.</li> </ul> |         |          |  |  |
| 7.  | Other important information that helps to un<br>For the Company's sustainable development<br>Sustainability Report: https://www.formosal  | t promo | otion, p | lease refer to the Company's website - Implementation of Sustainable De  | velopment and  |

#### Item Implementation status 1. Describe the Board's and management's The Sustainable Development Committee oversight and governance of climate-related risks collaborates with senior executives from all business units to assess the impact of climate change on and opportunities. global warming. The committee evaluates the risks that may affect the Company, prioritizes them, and develops corresponding countermeasures, management guidelines, and implementation plans. Regular reviews of the results are conducted. 2. Explain how climate-related risks and Risks and opportunities focus more on policy and opportunities impact the Company's business, regulatory requirements, including content on energy strategies, and finances in the short, medium, and resources and carbon reduction requirements, and their impact on the Company's business, strategy and long term. finance, as described below: 1. Business Pressure and requirements from customers, focusing on disclosure of carbon emissions and carbon footprint, the Company has successively established related operations and obtained thirdparty verification statements in 2023. Reduce customer impact. 2. Strategy (1) Initial introduction of carbon inventory to understand own carbon emissions. (2) Medium and long term goal - Set reduction targets, implement reduction strategies, and achieve carbon neutral operations. (3) Current operation, in order to achieve the goal of energy conservation and carbon reduction, the Company has evaluated the changes in electricity consumption and prices in the plant, and completed the first phase of renewable energy program by establishing renewable energy power generation equipment in June 2023. 3. Finance Due to the implementation of relevant energy conservation and carbon reduction countermeasures, it will directly or indirectly increase the Company's operating costs. 3. Describe the financial impact of extreme weather Extreme weather events, such as droughts, floods, events and transformation. heatwaves, and cold snaps, can significantly affect the Company's sustainable operations. Additionally, the risks associated with transitioning to a lowcarbon economy are as follows: 1. Policy and Regulatory Risk With the increasing global focus on environmental issues. low-carbon initiatives are

# 2. Climate-Related Information of TWSE/TPEx Listed Companies

| Item   | Implementation status  |
|--|--|
|  | becoming more prevalent. As a result, policies,<br>climate-related lawsuits, and regulations related<br>to climate change are emerging more frequently.  |
|  | (1) The Clean Competition Act (CCA) in the<br>United States and the Carbon Border<br>Adjustment Mechanism (CBAM) in the<br>European Union will inevitably impact the<br>operational expenses of companies in the<br>chemicals industry.  |
|  | (2) From 2024, a carbon tax will be levied on<br>enterprises in Taiwan, which will inevitably<br>increase operating costs.   |
|  | (3) From time to time, domestic water resources<br>are in short supply, and electricity costs are<br>increasing year by year. The utilization and<br>management of water resources and electricity<br>will unavoidably affect business operations<br>and raise costs.  |
|  | 2. Technology Risk   |
|  | Renewable energy technology remains a popular<br>topic. However, the Company's investment in<br>solar power has not yielded the expected<br>conversion efficiency, likely due to climate or<br>other factors, resulting in sunk costs.   |
|  | 3. Market Risk   |
|  | Due to the increasing global focus on low-carbon<br>initiatives, shifts in supply and demand, and<br>evolving consumer preferences, investors and<br>clients are now seeking low-carbon products. In<br>order to remain competitive, companies must<br>adapt their offerings to meet these market<br>demands. This requires a transformation of<br>commodities.  |
|  | 4. Reputation Risk   |
|  | Clients and communities are increasingly<br>concerned with whether enterprises are<br>committed to low-carbon transformation. If our<br>Company appears indifferent to our contribution<br>to global warming, we risk being perceived as a<br>destroyer of the environment and ecology, which<br>could have a negative impact on our reputation.   |
| <ol> <li>Describe how the identification, evaluation, and<br/>management process of climate risks are<br/>integrated into the overall risk management<br/>system.</li> </ol> | The Company has an internal risk management<br>system that encompasses risk identification, analysis,<br>evaluation, treatment, monitoring, and review. Each<br>operation has a clearly defined scope, a quantitative<br>evaluation mechanism, and potential solutions for<br>risk treatment. The Sustainable Development<br>Committee reviews and explains the management<br>and operation during the annual board meeting,<br>aligning with the practical operational requirements |

|    | Item   | Implementation status   |
|----|--|---|
|    |  | of the climate risk management process and<br>methodology. This process is integrated into the<br>Company's Risk Management Policies and<br>Procedures.   |
| 5. | If the situational analysis is used to assess<br>resilience to climate change risks, describe the<br>scenarios, parameters, assumptions, analytical<br>factors, and key financial impacts.                                     | The form used for climate change risk evaluation<br>employs a situational approach and hypothetical<br>evaluation, taking into account potential risk<br>measurement. This method provides a quantitative<br>and analytical basis for the parameters, allowing for<br>assessment of the financial impact of the risk level<br>and subsequent response.  |
| 6. | If there is a climate-related risk management plan<br>in place, please provide details on the plan's<br>contents, including the indicators and objectives<br>used to identify and manage physical and<br>transformation risks. | Climate change will first affect the use of energy<br>resources. For this reason, the Company will invest<br>in renewable energy solar power systems with low-<br>carbon technology for energy acquisition. The<br>description is as follows:   |
|    |  | 1. Indicators and objectives of transformation risk:  |
|    |  | <ul><li>(1) Goal: low-carbon transformation of energy resources.</li><li>(2) Indicate: Power above 600KW shall be supplied by renewable energy.</li></ul>   |
|    |  | 2. Physical Risks:  |
|    |  | <ol> <li>Regulations require a carbon tax (total mass<br/>based discharge management), which<br/>increases operating costs.</li> <li>The imbalance between power supply and<br/>demand adversely affects production and<br/>reduces competitiveness.</li> <li>Large carbon emissions, no energy efficiency<br/>management measures, low willingness of<br/>investors.</li> </ol>  |
|    |  | 3. Transformation plan  |
|    |  | (1) Short-term<br>Use new technology, completed the first phase<br>of construction of a 574.875KW solar power<br>generation system in June 2023, conduct<br>energy efficiency management for energy<br>reduction, and reduce impact.  |
|    |  | <ul> <li>(2) Medium and long-term<br/>Based on the carbon inventory and carbon<br/>footprint, the Company has calculated its<br/>carbon emissions and has increased its<br/>demand for solar energy system power<br/>generation. Despite the increased capital<br/>investment, the Company will reduce<br/>operating costs and lower risks in the long run,<br/>thereby enhancing competitiveness and<br/>improving its corporate image. Completed the<br/>2022 greenhouse gas inventory and carbon<br/>footprint inventory, and obtained third-party<br/>verification statements.</li> </ul> |

|    | Item  | Implementation status  |
|----|---|--|
| 7. | If internal carbon pricing is used as a planning<br>tool, state the basis for setting the price:  | In order to effectively address the impact of climate<br>change, our Company has implemented programs<br>related to greenhouse gas inventory and product<br>environmental footprint. These initiatives allow us to<br>collect and analyze data on our carbon emissions and<br>product carbon footprint. Moving forward, we plan<br>to gradually implement internal carbon pricing,<br>promote low-carbon production processes, conduct<br>technology research and development, and adjust our<br>internal supply chain to support the transition to a<br>low-carbon economy. |
| 8. | If climate-related targets have been established,<br>the report should include information on the   | Climate change-related targets <ol> <li>Related objectives and schedules</li> </ol>  |
|    | activities that are covered, the scope of<br>greenhouse gas emissions, the planning schedule,<br>and the annual progress. If carbon offsets or  | <ul><li>(1) Short-term goal - Introduce carbon inventory<br/>to understand the carbon emissions.</li></ul>   |
|    | renewable energy certificates (RECs) are utilized<br>to achieve the relevant targets, the report should<br>state the source and quantity of carbon reduction<br>credits to be offset or the quantity of RECs. | (2) Medium and long term goal - Set reduction targets, implement reduction strategies, and achieve carbon neutral operations.  |
|    | creatis to be offset of the quality of RECs.  | The current reduction target is an annual<br>electricity saving rate of 1%. Renewable<br>energy solar panels have been installed in June<br>2023, with a solar power generation capacity<br>of 574.875kw, and 242 renewable energy<br>certificates (RECs) have been obtained.  |
|    |   | 2. Scope of greenhouse gas emission  |
|    |   | The scope of greenhouse gas emission is mainly<br>based on ISO-14064. The Company must<br>disclose its direct emissions (Scope 1) from<br>processes or facilities, as well as its indirect<br>emissions (Scope 2) from the use of purchased<br>electricity, heat, or steam, in accordance with the<br>Environmental Protection Administration and the<br>Financial Supervisory Commission's regulations.   |
| 9. | Greenhouse gas inventory and verification status,<br>reduction targets, strategies and specific action<br>plans   | Please see the following table   |

3. The Company's Greenhouse gas Inventory and Verification Status for the Most Recent two Years

Note1: The Scope 2 indirect emissions of CO2e in the above table are calculated using the 2021 electricity carbon emission coefficient.

Note 2: Direct emissions (Scope 1, i.e., direct emissions from emission sources owned or controlled by the Company), energy indirect emissions (Scope 2, i.e., indirect greenhouse gas emissions from imported electricity, heat or steam), and other indirect emissions (Scope 3, i.e., emissions generated by the Company's activities that are not energy indirect emissions but come from emission sources owned or controlled by other companies).

Note 3: The scope of data covered by direct emissions and energy indirect emissions shall be handled in accordance with the timeline stipulated in Article 10, Paragraph 2 of these Principles, and the other indirect emissions information can be disclosed voluntarily.

Note 4: Greenhouse gas inventory standards: Greenhouse Gas Protocol (GHG Protocol) or International Organization for Standardization (ISO) issued ISO 14064-1.

Note5: Greenhouse gas emissions can be measured per unit of product or service, or based on turnover. However, it is mandatory to disclose the data calculated based on turnover (in NT\$ million) to determine the intensity of emissions. (Note 2).

| Year  | 2022                                    | 2023   |

### (2) Greenhouse Gas Verification Information

Note 1: It shall be handled in accordance with the timeline stipulated in Article 10, Paragraph 2 of these Principles. If the company has not obtained a complete greenhouse gas verification opinion before the date of printing the annual report, it should be noted that "complete verification information will be disclosed in the sustainability report". If the Company does not prepare a sustainability report, it should be noted that "complete verification Post System", and the complete verification information should be disclosed in the following year's annual report.

Note2: The assurance organization must adhere to the applicable regulations of the Taiwan Stock Exchange Corporation and the Taipei Exchange Market with respect to ensuring sustainable development reports.

Note 3: The disclosed content can refer to the best practice reference examples on the website of the Corporate Governance Center of the Taiwan Stock Exchange.

- 4. Greenhouse Gas Reduction Targets, Strategies and Specific Action Plans
  - (1) Reduction Targets

Moving towards the goal of net zero emissions by 2050.

- (2) Strategies
  - A. Initial stage: Introduce greenhouse gas inventory and environmental carbon footprint inventory to understand own carbon emissions.
  - B. Medium and long term goal Set reduction targets, implement reduction strategies, and achieve carbon neutral operations.
- (3) Specific Action Plans
  - A. Launch greenhouse gas and environmental carbon footprint inventory in 2024, adopt third-party verification, and analyze carbon emission hotspots to gradually propose countermeasures.
  - B. In line with medium and long-term goals, implement reduction strategies and move towards carbon neutrality.

(VI) Implementation of Ethical Corporate Management and Deviations from the "Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies" and Reasons

|   |             |    | Implementation Status  | Corporate<br>Governance Best-<br>Practice Principles<br>for TWSE/TPEx<br>Listed Companies<br>and the Reason for<br>Such Departure |  |
|---|-------------|----|--|---|--|
| Evaluation Item   | Yes         | No | Abstract   |   |  |
| <ol> <li>Evaluation Item:<br/>Establishment of Ethical<br/>Corporate Management<br/>Policies and Programs</li> <li>Has the Company<br/>established an ethical<br/>corporate management<br/>policy that has been<br/>approved by the board of<br/>directors, and clearly<br/>specified in its rules and<br/>external documents the<br/>ethical corporate<br/>management policies and<br/>practices, as well as the<br/>commitment of the board of<br/>directors and senior<br/>management to actively<br/>implement the management<br/>policies?</li> </ol>      | <b>&gt;</b> |    | The Company has established the "Code<br>of Ethical Corporate Management,"<br>"Guidelines for Establishment and<br>Operation of the Integrity Management<br>Committee," and "Whistleblowing<br>Procedures for Ethical Management," all<br>of which have been approved by the Board<br>of Directors. These documents explicitly<br>state the Company's policies on ethical<br>business practices and the Board and<br>management's commitment to<br>implementing these policies. Additionally,<br>the Company actively promotes and<br>advocates for integrity and ethical<br>conduct, ensuring that all employees<br>comply with the relevant regulations. | No discrepancy.   |  |
| <ul> <li>(2) Has the Company<br/>established a risk<br/>assessment mechanism for<br/>unethical conduct, regularly<br/>analyzed and assessed<br/>business activities within its<br/>business scope which are at<br/>a higher risk of being<br/>involved in unethical<br/>conduct, and established<br/>prevention programs<br/>accordingly and covered at<br/>least the preventive<br/>measures specified in<br/>Paragraph 2, Article 7 of the<br/>"Ethical Corporate<br/>Management Best Practice<br/>Principles for TWSE/TPEx<br/>Listed Companies"?</li> </ul> | ✓           |    | To ensure sound management of ethical<br>corporate management, the Company has<br>set up an Integrity Management Team<br>under the Sustainable Development<br>Committee to supervise the prevention of<br>unethical conduct, review the<br>effectiveness and make continuous<br>improvements, and report to the Board of<br>Directors at least once a year on the<br>implementation of ethical corporate<br>management.  | No discrepancy.   |  |

# (IX) Execution Status of Internal Control System

1. Statement of Internal Control System

## FORMOSA LABORATORIES, INC.

# Statement of Internal Control System

Date: March 12, 2024

Based on the findings of the self-auditing, the Company states the following with regard to its internal control system during the year 2023:

- I. The Company knows that the board and the management are responsible for establishing, implementing, and maintaining the internal control system. The Company has established the system. It aims at providing reasonable assurance regarding the achievement of objectives in the effectiveness and efficiency of operations (including profitability, performance, and the safeguard of assets), reliability, timeliness and transparency of reporting, and compliance with all the applicable laws and regulations.
- II. The internal control system has inherent limitations. No matter how perfectly designed, an effective internal control system can provide only reasonable assurance of accomplishing its above 3 stated objectives. Moreover, the effectiveness of the internal control system may change due to changes in the environment and situations. Nevertheless, the internal control system of the Company contains self-monitoring mechanisms, and corrective action is taken whenever a deficiency is identified.
- III. The Company evaluates the design and operating effectiveness of its internal control system based on the criteria provided in the "Regulations Governing the Establishment of Internal Control Systems of Public Companies" (herein below, the Regulations). The criteria adopted by the "Regulations" identify five components of internal control based on the process of management control: 1. control environment, 2. risk assessment, 3. control activities, 4. information and communication, and 5. monitoring. Each component further contains several items. Please refer to the "Regulations" for details.
- IV. The Company has evaluated the design and operating effectiveness of its internal control system according to the above-mentioned Regulations.
- V. Based on the findings of the evaluation mentioned above, the Company believes that, on December 31, 2023, its internal control system (including the supervision on and management of subsidiaries), as well as the design and operations of internal control systems for understanding its operational effectiveness and efficiency, the achievement level of objectives, reliability, timeliness, transparency and regulatory compliance in reporting, and compliance with the applicable laws and regulations, were effective, and the Company can provide reasonable assurance that the above-stated objectives would be achieved.
- VI. This Statement is an integral part of the Company's annual report and prospectus and will be made public. Any falsehood, concealment, or other illegality in the content made public will entail legal liability under Articles 20, 32, 171, and 174 of the Securities and Exchange Act.
- VII. This statement was passed by the Company's board in their meeting held on March 12, 2024, with none of the 7 attending directors expressing dissenting opinions, and all of them affirming the content of this Statement.

Formosa Laboratories, Inc. Chairman: Cheng, Chen-Yu President: Cheng, Chen-Yu

- 2. While Entrusting an Accountant to Review the Internal Control System on Project Basis, the Review Report Shall Be Disclosed: None.
- (X) In the most recent year, up to the publication date of the annual report, where legal punishment imposed on the Company and its internal personnel, or the punishment imposed by the Company on its internal personnel due to violation of internal control regulations, which would affect the shareholders' interests and the share price significantly, should have the content of the punishments, the main wrongdoings and improvements thereafter disclosed: None.
- (XI) Important Resolutions of Board Meetings and Shareholders' Meetings and the Execution Status of the Resolved Matters of Shareholders' Meetings in the Most Recent Year and up to the Publication Date of the Annual Report.

|   | Agenda  | The Company's Handling of Member's Opinions   |
|---|---|---|
|   | 1. Proposed the 2022 Business Report<br>and Financial Statement.  | This motion was adopted as originally proposed.   |

# (V) Information of Market Price per Share, Net Worth, Earnings and Dividends

Note 1: P/E ratio = Average closing price per share of the current year / EPS.

Note 2: P/D ratio=Average closing price per share of the current year / cash dividends per share.

Note 3: Cash dividend yield = cash dividends per share / average closing price per share of the current year.

Note 4: The latest CPAs reviewed financial statements are not available up to the date of publication of this annual report.

Note 5: The distribution of earnings for 2023 is pending resolution by the Shareholders' Meeting, but it is expected to be a cash dividend of NT\$ 2 per share.

- (VI) The Company's Dividend Policy and Implementation Status
  - 1. The Dividend Policy of the Company is in Accordance with Article 24 of the Articles of Association, and the Relevant Provisions Are as Follows:

If the Company makes a profit, the Board of Directors shall allocate not less than 5% of the profit as the remuneration of employees and not more than 2% of the profit as the remuneration of directors. However, if the Company has accumulated losses, the Company shall set aside a part of the profit first to make up for the losses and report to the Shareholders' Meeting.

The employees mentioned in the preceding paragraph shall include employees of subsidiaries that meet the conditions set by the Board of Directors.

If the Company earns a profit, it must first pay taxes to cover previous losses and then allocate 10% of the statutory surplus reserve. If the statutory surplus reserve equals the Company's total capital, the special surplus reserve must be allocated as mandated by law or the competent authority. The remaining amount may be added to the undistributed earnings from the previous period as dividends for shareholders. The Board of Directors will create a plan for distributing earnings and present it to the Shareholders' Meeting for approval, or choose to retain the earnings based on business requirements.

The Company's dividend policy considers various factors, including its financial structure, operating conditions, capital budget, shareholder interests, and dividend balance. Distributable earnings may be retained or distributed as shares, cash, or both. Cash dividends must account for at least 10% of the total dividends distributed to all shareholders, with the remainder being stock dividends.

- 2. Proposed Distribution of Dividends at This Shareholders' Meeting: To distribute a cash dividend of NT\$2 per share to shareholders.
- (VII) The Effect of the Proposed Stock Dividend Distribution on the Company's Operating Performance and Earnings per Share: Not applicable as the company does not distribute stock dividends.
- (VIII) Employee, Director and Supervisor Remuneration
  - 1. The Percentage or Scope of Employee, Director and Supervisor Remuneration as set out in the Company's Articles of Incorporation

If the Company makes a profit, the Board of Directors shall allocate not less than 5% of the profit as the remuneration of employees and not more than 2% of the profit as the remuneration of directors. However, if the Company has accumulated losses, the Company shall set aside a part of the profit first to make up for the losses and report to the Shareholders' Meeting.

The employees mentioned in the preceding paragraph shall include employees of subsidiaries that meet the conditions set by the Board of Directors.

2. The Basis for Estimating the Amount of Employee, Director and Supervisor Remuneration, the Basis for Calculating the Number of Shares to Be Distributed as Employee Remuneration, and the Accounting Treatment of any Discrepancy Between the Actual Distributed Amount and the Estimated Amount

The Company will estimate employee and director remuneration expenses based on the percentages outlined in the Articles of Association. Any changes to the remuneration amount approved by the Board of Directors in the following period will be reflected in the expense for the subsequent year.

- 3. Information on the Distribution of Remuneration Approved by the Board of Directors
  - (1) Amount of employee remuneration and directors' and supervisors' remuneration distributed in cash or shares. If there is any discrepancy with the recognized amount for the year the expense is estimated, the discrepancy amount, reason and handling situation should be disclosed
    - A. On March 12, 2024, the Board of Directors of the Company approved the proposed cash distribution of NT\$15,944,000 to employees and NT\$3,900,000 to directors and supervisors for 2023.
    - B. Please refer to the following table for the difference between the recognized expenses and the estimated figure, and the handling thereof:

Unit: NT\$

| Distribution<br>Item                | Amount of<br>Allotment<br>Proposed by the<br>Board (A) | Recognized<br>Expenses and<br>the Estimated<br>Figure (B) | Discrepancy<br>in Amount (A-<br>B) | Note              |
|-------------------------------------|--|---|------------------------------------|-------------------|
| The<br>Remuneration<br>of Employees | 15,944,000   | 15,944,000  | 0                                  | No<br>discrepancy |
| Directors'<br>Remuneration          | 3,900,000  | 3,900,000   | 0                                  | No<br>discrepancy |

- (2) The amount of employee remuneration distributed in shares, and its proportion to the sum of net profit after tax and total employee remuneration for the period: Not applicable as the Company did not distribute employee stock bonuses in 2023.
- (3) In 2023, earnings per share remained at NT\$1.05, as expenses for employee and director remuneration were factored in without impacting the calculation of earnings per share.
- 4. The actual distribution of employee, director, and supervisor remuneration for the previous fiscal year (with an indication of the number of shares, monetary amount, and stock price, of the shares distributed), and, if there is any discrepancy between the actual distribution and the recognized employee, director, or supervisor remuneration, additionally the discrepancy, cause, and how it is being handled

Information on the actual distribution of bonuses to employees and remuneration to directors and supervisors from the Company's earnings for the previous year (2022) is as follows:

The Company estimated a total remuneration of NT\$28,500,000 for employees and NT\$7,998,000 for directors and supervisors in 2022. As per the Board of Directors' resolution on March 09, 2023, the actual remuneration for employees and

directors/supervisors remained unchanged from the estimated figures, at NT\$28,500,000 and NT\$7,998,000, respectively.

- VI. Employees Restricted New Shares None.
- VII. New Shares Issued for Merger and Acquisition None.

# VIII. Implementation of Capital Allocation Plan

None.

# Chapter 5 Operational Highlights

## I. Content of Business

- (I) Business Scope
  - 1. The Main Content of the Company's Business

The Company and its subsidiaries are primarily involved in developing, producing, and selling various products, including cholesterol and phosphate binders, Vit. D derivatives, anti-cancer active ingredients, respiratory agents, anti-inflammatory and analgesic agents, central nervous system (CNS) agents, and UV absorbers. Additionally, they are dedicated to researching and developing biotech and new drugs, trading and investing in pharmaceuticals and chemicals, and wholesaling chemical raw materials and products, as well as acting as commission agents.

2. The Company's Main Products and Their Sales Ratios

Unit: NT\$ thousand: %

| Year   | 202                  | 22        | 202                  | 23        |
|--|----------------------|-----------|----------------------|-----------|
| Product Item   | Operating<br>Revenue | Ratio (%) | Operating<br>Revenue | Ratio (%) |
| Cholesterol Phosphate<br>Binding Agent                           | 1,292,494            | 34.32     | 1,575,432            | 36.13     |
| Vit. D Derivatives   | 700,968              | 18.62     | 808,995              | 18.55     |
| Contract Development<br>and Manufacturing<br>Organization (CDMO) | 535,512              | 14.22     | 514,714              | 11.80     |
| Respiratory Agents   | 357,355              | 9.49      | 478,286              | 10.97     |
| Anticancer Active<br>Ingredients                                 | 117,277              | 3.11      | 259,627              | 5.95      |
| Anti-inflammatory and<br>Analgesic Agents                        | 225,977              | 6.00      | 208,368              | 4.78      |
| Others   | 535,921              | 14.24     | 515,026              | 11.82     |
| Total  | 3,765,504            | 100.00    | 4,360,448            | 100.00    |

### 3. The Company's Current Product Items

| Item No. | Main Products  |  |  |  |
|----------|--|--|--|--|
| 1        | Cholesterol Phosphate Binding Agent                        |  |  |  |
| 2        | Vit. D Derivatives   |  |  |  |
| 3        | Contract Development and Manufacturing Organization (CDMO) |  |  |  |
| 4        | Respiratory Agents   |  |  |  |
| 5        | Anticancer Active Ingredients                              |  |  |  |
| 6        | Anti-inflammatory and Analgesic Series                     |  |  |  |

The main products of the Company are as follows:

Note: Currently, Formosa Pharmaceuticals, Epione Pharmaceuticals, and Activus Pharma, which are subsidiaries of the Company, are still in the research and development phase for new drugs. Despite the different division of labor among Epione Investment Cayman Limited, Epione Investment HK Limited, and Shanghai Epione Enterprise, they are also in the stage of new drug application (NDA) and have not yet launched their products on the market, resulting in no revenue generated. Subsidiary Formosa Laboratories, Inc. (Formosa Labs) has received approval from the U.S. Food and Drug Administration (FDA) in March 2024 for the new drug application of APP13007, a drug for the treatment of post-operative ocular inflammation and pain. Regarding out-licensing, Formosa Labs has completed exclusive licensing agreements for APP13007 with Faranda Pharmaceutical (China) in 2021 and Eyenovia, Inc. (USA) in 2023, with the total licensing agreement amount with Eyenovia reaching US\$86 million. Formosa Labs will supply the products for future sales. In addition, APP13007 has also signed an exclusive licensing agreement with Cristália Produtos Químicos Farmacêuticos Ltda. for the Brazil market in January 2024. In 2022, Formosa Pharmaceuticals entered into an authorization contract with EirGenix, Inc. for the development of a new drug, TSY-0110, intended for the treatment of breast cancer. Pursuant to the agreement, Formosa Pharmaceuticals will receive royalties in stages, while EirGenix will have the right to share in the profits. Both parties will share in the earnings resulting from the research and development of TSY-0110. The Phase I human clinical trial is anticipated to be submitted for follow-up in 2024.

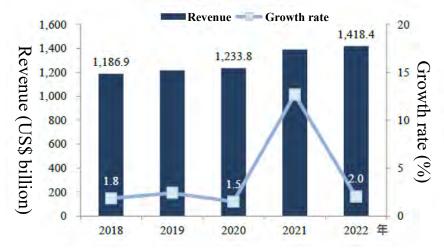

4. New Products (Services) Planned for Development

The Company is upgrading its APIs technology and services, expanding from the R&D and production of existing APIs to the downstream formulation development, venturing into injectable formulation R&D, production and manufacturing. Currently, there are general production lines (small molecules and large molecules) and cytotoxic production lines (anticancer drugs ADC) put into production. The Company also continues to pay attention to products with upcoming patent expirations, selecting items from them to expand the market for antibody drug conjugates and injectable formulations.

- (II) Industry Overview
  - 1. Current Status and Development of the Industry
    - (1) Current Status of the Global Pharmaceutical Market

According to statistics from Fitch Solutions, the global pharmaceutical market size in 2022 was approximately US\$1.4 trillion, a 2% growth compared to 2021, with a compound annual growth rate (CAGR) of 4.6% from 2018 to 2022. The

continued prevalence of COVID-19 and the active mutated virus strains maintained the revenue of COVID-19 vaccines in 2022 and increased the sales of COVID-19 treatment drugs. Combined with the demand for drugs related to aging diseases, it supported the pharmaceutical market sales in 2022, making slightly market change compared to the previous year, showing a balanced trend.

#### **Global Pharmaceutical Market Size from 2018 to 2022**

With the growth of biologics, plural special drug delivery systems have been developed, leading to a significant increase in the demand for drug injection devices over the past few years. At the 2023 BioAsia Conference, Aurelio Arias, Director of Global Thought Leadership at IQVIA, shared the latest trends in the global pharmaceutical industry. He particularly mentioned that biologics and injectables are areas that have grown significantly over the past decade compared to small molecule drugs and oral drugs. From 2016 to 2021, the global market value of injectable drugs grew by 10%, while tablets only grew by 3% and capsules only grew by 2%, indicating the increasing demand for injectable products year by year.

(2) Current Status of the Generic Drug Market

Due to the COVID-19 (Coronavirus Disease 2019) pandemic in 2020, the social distancing measures adopted by many countries led to slowed economic growth. Governments, facing financial difficulties, further encouraged the use of generic drugs to save medical and pharmaceutical expenditures. The aging global population has also led to an increase in the number of patients with chronic diseases, which is one of the main driving forces for the generic drug market. According to data from Fitch Solutions, global generic drug market growth was 13.2% in 2021. In 2022, as the world gradually emerged from the impact of COVID-19, pharmaceutical market demand gradually returned to normal. Therefore, global generic drug sales reached US\$420.16 billion in 2022,

Source: DCB 2023 Pharmaceutical Industry Yearbook

a 5.7% increase compared to 2021. During the period from 2018 to 2022, the compound annual growth rate (CAGR) of global generic drug sales was 4.3%.

**Global Market Size of Generic Drugs from 2018 to 2022** 

For chemical companies, the expiration of exclusive rights marks the conclusion of a new product's life cycle. It also indicates the conclusion of the market monopoly period, during which costs for continuous innovation are recouped and funds for future R&D are provided. Consequently, chemical companies gradually decrease commercial investment and shift focus to new innovative products, while the ecosystem of generic chemical companies takes over and continues to supply less expensive generic products to the market. According to the International Generics and Biosimilar Medicines Association, generic drugs account for 92% of prescription drugs in the US and 67% in Europe.

(3) Current Status of the API Market

Global API sales grew to US\$145.9 billion in 2023. The COVID-19 pandemic has had an impact on the global API market, resulting in a slight disruption to the upstream production supply chain of APIs. Downstream pharmaceutical factories are concerned about potential supply chain disruptions and have increased their procurement of APIs, leading to a higher growth rate in the global API market compared to previous levels. However, it is anticipated that this growth rate will gradually decline to its original level in the future.

According to data released by MarketsandMarket, the global API market has generally shown a steady growth trend in recent years, with a growth rate of 4.9% in 2022, despite a decline in 2020 due to the impact of the COVID-19 pandemic. The compound annual growth rate (CAGR) of global APIs sales from 2018 to 2022 was 12.3%. Factors such as the advancement of APIs manufacturing technology, the increase in chronic disease prevalence, the

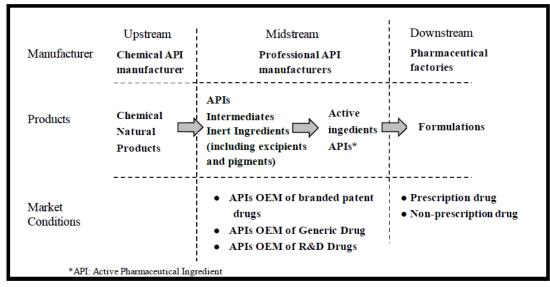

growth of the biologics market, and the increase in demand for generic drugs have all contributed to the growth of the APIs market.

(4) Current Status of Contract Development and Manufacturing Organization (CDMO) Market

CDMOs play an important role as facilitators in the global pharmaceutical industry, improving the efficiency of R&D and production. The COVID-19 pandemic has highlighted their significance even further, particularly in terms of meeting demand. CDMOs have benefited from the COVID-19 pandemic. The biotech industry's demand for CDMOs has increased due to the growing global demand for R&D productivity, the increasing complexity of drug discovery and development, and the rise of small/virtual biotech companies. The global CRO (Contract Research Organization) market is expected to grow to US\$74.53 billion in 2025, with a CAGR of 9.0% from 2020 to 2025. Additionally, the global CMO (Contract Manufacturing Organization) market is projected to grow to US\$149.44 billion in 2025, with a CAGR of 8.9% from 2020 to 2025.

2. Relationship Between Upstream, Midstream, and Downstream of the Industry

The API industry operates within the pharmaceutical industry's intermediate sector. Upstream raw materials primarily consist of natural animals and plants, as well as general chemicals. The downstream industry encompasses pharmaceutical factories, including both brand-name and generic drug companies.

Upstream, midstream, and downstream industries are described as follows:

(1) Upstream Industry

Upstream industry supplies the necessary raw materials for the production of APIs, which encompass natural animal and plant products as well as general chemicals. These materials are primarily synthesized chemically or extracted from the tissue cells of animals, plants, and microorganisms.

(2) Midstream Industry

As the majority of APIs are small organic molecules, they are typically synthesized using biological or chemical methods. Chemical methods are preferred due to their convenience, speed, and competitive pricing, making them a widely used option in the API industry. There are various production methods for APIs depending on the source of raw materials. In addition to raw material preparation, such as fermentation, natural product processing involves extraction, hydrogenation, separation, alcoholysis, esterification, saponification, and purification (e.g. distillation, extraction, crystallization). General chemical preparation involves complex organic synthesis, separation, and purification. Genetic engineering preparation involves purification and recovery engineering. As a result, the production process for APIs in the precision biochemical industry is complex, with synthesis technology being the most sophisticated.

(3) Downstream Industry

The downstream segment of the pharmaceutical industry chain encompasses the factories responsible for manufacturing pharmaceutical preparations. The production process for pharmaceutical preparations entails the addition of APIs to adjuvants, including excipients, adhesives, emulsifiers, and other substances, which are then reprocessed into convenient dosage forms.

3. Various Development Trends of Products

For over 30 years, our Company has established a strong presence in the European, American, and Japanese markets, earning the trust of major pharmaceutical companies and cultivating a positive brand image. As a supplier of APIs to international pharmaceutical manufacturers, our Company possesses strong international market development capabilities, a smooth pipeline, and competitive pricing. Currently, the Company serves as a supplier to the top three brand drug manufacturers worldwide, five of the top ten generic drug manufacturers in the United States, and the top three generic drug manufacturers in Japan.

The company has amassed experience in developing and producing APIs, resulting in a diverse range of products with unique characteristics. The following outlines the future market applications and development trends for these products.

(1) Active Pharmaceutical Ingredients (APIs)

The aging global population has increased the prevalence of chronic diseases such as cardiovascular diseases, cancer, and respiratory system diseases, leading to an increase in the demand for related treatment drugs and accelerating the growth in demand for APIs. As governments' health insurance demand for affordable healthcare increases, generic drugs are more costeffective than patented drugs, making the importance of generic drugs increasing. The relatively low prices of generic drugs have also increased the population that can afford drug treatment and the overall usage of drugs, further driving the demand for APIs and promoting the growth of the APIs market. In addition, there are some other factors that directly or indirectly promote the growth of the APIs market, such as the support of government policies in various countries, the expiration of patents for major drugs, and the increase in the number of approved drugs in recent years. In the post-pandemic era, although the APIs market is undergoing significant changes, the global focus on the APIs supply chain is also increasing, which makes the prospect of the APIs market is expected to continue expanding at a stable growth rate by 2030.

(2) Injectable Formulations

In 2018, Formosa Laboratories established a development team dedicated to the production of injectable formulations. The plant's hardware was designed by NNE Global, a globally recognized company, to fully comply with the aseptic filling requirements outlined in GMP. Additionally, a plant was constructed to produce anti-cancer injectable formulations that meet the highest international standards. The production line adheres to the standards of the United States, the European Union, and Japan, and can be expanded to meet the needs of clients.

Formosa Laboratories has transformed and upgraded its operations from the manufacturing of APIs to injectable formulations. Additionally, the Company has established three production lines. In addition to the production lines related to cytotoxicity (anti-cancer drugs and ADCs), Formosa Laboratories has planned general production lines (small molecules and macromolecules) to provide clients with flexible production lines and capacity options. The production line has a maximum capacity of 10,000 to 250,000 vials per batch. In addition to the general production line, there is a cytotoxic/high-potency production line, which offers a comprehensive service that includes R&D and production of APIs and injectable formulations. This service reduces clients' R&D cycle and cost.

#### (3) Contract Development and Manufacturing Organization

The Company has accumulated experience in customized R&D and contract manufacturing, with process development of APIs as its core advantage. At the same time, we continue to serve customers and develop new products such as peptide series products. In addition to providing custom synthesis services for small molecule APIs intended for clinical use, the Company has also ventured into the preparation of ADCs. In the field of innovation, with years of experience specializing in synthesis, the Company has also developed our own ADC linker-payload platform, providing partners and potential clients with various combinations of linkers and drugs, further increasing the drug to antibody ratio (DAR) and expanding the scope of Formosa Labs' one-stop service for antibody drug conjugates. With its experienced ADC technology platform, the Company offers customized services and serves as the ideal partner for clients.

The Company achieves vertical integration of technology to develop and integrate the production of APIs and sterile injectable formulations, including special formulations such as pre-filled syringe cartridges and large volume lyophilized injectable formulations. The design, manufacturing process, validation, and registration of plants for sterile injectable formulations comply with international regulations. Consistent production from APIs to sterile injectable formulations significantly reduces production costs, increases product profitability, and enhances the Company's competitiveness.

- (III) Technology and R&D Overview
  - 1. R&D Expenses (Company and Subsidiaries)

In the fiscal year 2023 and as of March 31 2024, the R&D expenses invested were NT\$841,872 thousand and NT\$219,115 thousand, respectively.

2. Successfully Developed Technologies or Products

The names of products successfully developed in 2023 and 2024 are as follows: Product Names: Abemaciclib, Difelikefalin, etc.

- (IV) Short-Term and Long-Term Business Development Plans
  - 1. Short-Term Business Development Plans
    - (1) Consolidate the relationship with the existing client base, actively attract new clients, and increase the market share in the industry.
    - (2) Strengthen communication with clients to fully grasp their needs.
    - (3) Focus on quality and maintain high standards of client satisfaction.
    - (4) Lower costs to improve competitiveness.
  - 2. Long-Term Business Development Plans
    - (1) Strengthen the relationship between manufacturers in the upstream and downstream sectors, and establish effective connections between supply chain operations to more efficiently meet client demand.
    - (2) Form strategic alliances with clients to expand market share and create win-win situations.
    - (3) Launch a minimum of 10 new R&D programs annually and commercialize no less than 3 new products each year to sustain our competitive edge.

- (4) Improve the equipment and processes to maximize efficiency, reduce costs, and increase market competitiveness.
- (5) We aim to enhance our R&D and OEM operations, broaden our customer reach for ADCs and injectable formulations.
- (6) Train employees to promote the company's sustainable growth in the future, foster recognition of the corporate culture among organizational members, establish a shared set of organizational values, and work towards the common goal of sustainable operations.

### II. Market and Sales Overview

(I) Market Analysis

|                 |           | Unit: NT\$ thousand |
|-----------------|-----------|---------------------|
| Sales Region    | 2022      | 2023                |
| India           | 918,782   | 1,031,114           |
| Netherlands     | 377,799   | 577,197             |
| Japan           | 228,751   | 311,977             |
| Germany         | 231,162   | 306,894             |
| Taiwan          | 380,508   | 278,083             |
| China           | 220,018   | 272,568             |
| Switzerland     | 280,347   | 272,054             |
| United States   | 190,339   | 269,315             |
| Canada          | 208,519   | 138,024             |
| Other Countries | 729,279   | 903,222             |
| Total           | 3,765,504 | 4,360,448           |

1. Sales Regions of Main Products

#### 2. Market Share

- (1) Active Pharmaceutical Ingredients (APIs)
  - A. Cholesterol Phosphate Binding Agent Series

The market share of cholesterol phosphate binding agent products maintains a leading position globally. The Company is one of the three major generic drug manufacturers' suppliers in the market and the main supplier for the US and European markets, with a market share as high as 70%. The demand for each product line is strong. This series of products obtained drug approval in China in 2023 and started shipping. In response to insufficient supply, new production lines started mass production in Q3 2023, increasing revenue contribution.

B. Vitamin D Derivative Series Products

The series of Vit. D derivatives has numerous patents and has gained a

favorable reputation in the European, American, Chinese, and Japanese markets, making it a flagship product series for the company. This series of products has currently entered the original manufacturer's supply chain, with a year-on-year increase of 27% in 2023, of which three items are among the top three global suppliers.

C. Corticosteroid Series Products

This series of products has entered the original manufacturer's supply chain, with a year-on-year increase of 39% in 2023. This series of products is currently in stable production and shipment.

D. Respiratory System Products

This series of products has outstanding sales performance, with revenue doubling. Production capacity will double in the second half of 2024 to meet market demand.

E. Anticancer Drug Series Products

One of the products in this series has received FDA approval and obtained a drug certificate in mainland China. The API currently holds over 60% of the market share in the United States as of 2022, and production and delivery remain stable.

(2) Injectable Formulations

The company's production lines for injectable formulations fulfill the production requirements for small molecule and macromolecule drugs. It possesses two sterile production lines for injectable formulations, with an annual production capacity of hundreds of millions of doses. Additionally, it can provide millions of doses for the pre-clinical development of clients. The product lines related to cytotoxicity have an annual production capacity of tens of millions of doses. In 2021, the packaging production lines received certification from PIC/S GMP and PIC/S GDP, while the cytotoxicity production lines were certified by TFDA GMP in Q2 2022. The Company's production lines for injectable formulations are capable of meeting service capacity. By utilizing a joint development model, the Company has improved its product supply chain and sales network, accelerated market development, launched new products, seized business opportunities, and gradually improved operational performance.

In addition to contract manufacturing, the Company's injectable formulation factory launched a new product, Eribulin, a novel type of chemotherapy treatment for advanced breast cancer that has been approved for marketing by the TFDA. It is scheduled to begin sales in 2024 and contribute to revenue. A drug approval application has also been submitted to the US FDA, with the final response period expected to be in July 2024. Eribulin Injectable has a global market of up to US\$370 million, of which the US market is about US\$130 million and the Taiwan market is about NT\$450 million.

## (3) Contract Development and Manufacturing Organization

The Company's business model, from R&D to mass production, has proven effective due to the high demand for the OEM business. This has resulted in the Company serving major international manufacturers, with their projects now entering the critical stage of validation or commercial amplification. Furthermore, the technology platform for ADCs has gained international recognition, aiding several new drug companies in product R&D and production. In light of the COVID-19 pandemic and the restructuring of the global supply chain, our Company has provided pharmaceutical filling clients with flexible and efficient solutions, as well as complete R&D and production supply chains. The Company offers comprehensive services ranging from APIs to finished dosage forms, including cytotoxic production lines for anti-cancer drugs and ADCs (antibody-drug conjugates), peptides, fermentation, and general production lines for small and large molecules. The general production lines can support pre-clinical development for clients with capacities ranging from millions to over a hundred million doses, providing flexible and diverse product services. Currently, the Company is gradually expanding its collaborations with several globally recognized pharmaceutical companies.

3. Future Supply and Demand Conditions and Growth Potential of the Market

In recent years, due to the globalization of industry and economy, the API industry has gradually shifted to Asia for R&D, production, and OEM, due to the lower manufacturing and clinical trial costs and the rapid rise of the Asia-Pacific market. The proportion of bulk APIs and key intermediates produced in China and India has been increasing steadily. As a result, these two countries have become significant suppliers in the global market. However, their focus remains on producing inexpensive generic drugs. In contrast, the API markets in Western Europe, North America, and Japan are dominated by patented and high-priced new drugs. Consequently, the proportion of outsourced production in these regions is on the rise.

The API market will experience constant growth due to the accelerated launch of new drugs and increased use in emerging markets. It is projected that global sales of APIs will reach US\$208.05 billion by 2024, with a CAGR of 4.0% from 2019 to 2024. The primary markets for APIs will continue to be concentrated in the United States, Chinese mainland, and India.

In the future, the chemicals industry will experience accelerated consolidation of global API manufacturers, resulting in the elimination of small and medium-sized manufacturers lacking international competitiveness. Only manufacturers with good manufacturing specifications, cost advantages, and price competitiveness will survive. Therefore, small and medium-sized companies must develop new technologies, such as transitioning from small-molecule APIs to large-molecule products, expanding from CMO business to CDMO business, integrating upstream new drugs to increase profitability, partnering with downstream pharmaceutical

manufacturers to lower costs, and finding a niche to survive in a competitive environment through transformation and upgrading.

Looking ahead, the company will continuously develop new products, adhere to strict GMP production management, strengthen R&D and OEM business, expand the client base for ADCs and injectable formulations, provide clients with higher quality products, and continue to expand market share.

4. Competitive Niches

The Company's extensive management experience has enabled it to effectively control the development and launch time of new products, positioning it as a market leader. The following are its main competitive niches:

(1) Strong R&D Team and Mass Production Experience

The Company boasts a robust R&D team dedicated to developing API processes and analytical methods. With over a decade of experience in process development and patents for relevant processes, the Company is well-equipped to provide clients with comprehensive, one-stop services. Its strong production capacity and practical expertise further enhance its ability to meet client needs. The Company has leveraged its extensive experience in R&D, manufacturing, and production of highly toxic drugs and plant equipment, as well as its long-standing training of talented individuals capable of handling highly toxic products, to establish a technology platform for ADCs. This platform covers the entire process from bulk drugs to preparations, and includes filling services for highly toxic preparations and injectable formulations.

(2) Quality Products

All of the Company's products conform to cGMP specifications and have passed both on-site inspections by the Taiwan Food and Drug Administration and inspections by foreign pharmaceutical manufacturers and official competent authorities, including the FDA, on an annual basis. Furthermore, our products have obtained drug certifications from the United States, Germany, Japan, and other countries. The Company also regularly participates in international biotechnology and medical drug exhibitions, which has helped establish our international reputation and demonstrates that our products undergo strict examination and are recognized by various countries.

(3) Stable Raw Material Supply

The Company's main raw materials are sourced from long-standing partnerships with manufacturers, ensuring a secure supply and favorable pricing that maintains the Company's competitive advantage.

(4) Good International Marketing Ability

As the Company's business relies on exports for over 90% of its revenue, there are no market limitations on sales. Over the past decade, our Company has successfully established a robust international sales network that spans Europe, the United States, Japan, India, the Middle East, and Southeast Asia. We have experienced stable development and growth in all regions, which has been instrumental in expanding our market and diversifying our business risks. With clients evenly distributed around the world, we are well-positioned to continue our success in the global chemicals industry. Due to the Company's strong capacity for international market development and efficient pipeline, it has become a reliable supplier of APIs to global pharmaceutical manufacturers. This creates favorable conditions for the future development of our international market.

- 5. Favorable and Unfavorable Factors of Development Prospects and Countermeasures
  - (1) Favorable Factors
    - A. Aging Population Structure and Rising Standard of Living

Currently, the world has entered an era of aging society. As the population structure continues to age, the demand for various drugs is expected to rise, leading to an expansion and growth of the market size for API manufacturers. An increasing number of countries are placing greater emphasis on healthcare. In order to provide medical resources to the majority of people, policies and regulations have been implemented to regulate drug prices, manage medical expenses, and enhance the overall quality of healthcare. This has prompted major global pharmaceutical manufacturers to seek out companies with low costs and quality systems that comply with international quality standards. This trend bodes well for the future growth of our marketing business.

B. Government Attention and Guidance

The government has identified the API industry as a crucial development project. Alongside investing in industrial technology R&D, the government has implemented several preferential measures on taxation and financing for manufacturers. These measures include the Guiding Measures for the Development of Leading New Products, the Regulations for Promoting Industrial Upgrading, and the Plan for Strengthening the Promotion of Biotechnology Industry. These regulations and measures provide the Company with external competitive advantages, create opportunities for domestic API manufacturers to expand globally, and facilitate the Company's growth in the international API market.

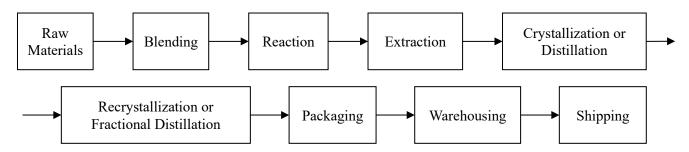

(2) Unfavorable Factors

- A. International regulations are increasingly stringent in the management of key starting materials, resulting in fewer suppliers who meet the necessary requirements.
- B. An imbalance in human resources caused by the electronics industry's shortage of talent and high salary incentives.
- C. Price-cutting competition from India.
- (3) Countermeasures
  - A. In addition to maintaining relationships with current suppliers, the Company has implemented a secondary supplier program and actively seeks out additional supply resources. Additionally, the Company has entered the intermediate supply chain with a strict GMP production management system and quality system that meets international regulatory requirements. This ensures the stability of raw material supply sources and creates new opportunities for the Company.
  - B. Establish a stable supply chain with suppliers, promptly acquire market information, and adapt to market changes by adjusting demand and inventory.
  - C. Carefully select products to differentiate in the market. Continue to maintain excellent product quality and the ability to obtain certifications in Europe, America, and Japan.
- (II) Important Uses and Production Processes of Main Products
  - 1. Important Uses of Main Products

The Company's current main products and their uses are as follows:

- (1) Cholesterol Phosphate Binding Agent: Mainly used to treat hyperlipidemia and hypophosphatemia in patients with low renal function.
- (2) Vitamin D derivatives: are primarily utilized to treat psoriasis, hyperparathyroidism, osteoporosis, and renal osteodystrophy resulting from uremia.
- (3) Drugs for Respiratory System Diseases: Mainly used to treat sensitive and allergic diseases of the upper respiratory tract.
- (4) Anti-inflammatory and Analgesic Agents: Mainly used as an analgesic for ulcerative colitis and herpes zoster.
- (5) Central Nervous System Drugs (CNS Agents): Mainly used for anti-depression.

## 2. Production Processes of Main Products

#### (III) Supply Status of Main Raw Materials

| Main Raw Materials     | Main Suppliers       | Supply Status |
|------------------------|----------------------|---------------|
| Chemical Raw Materials | Company E, Company F | Good          |

#### (IV) List of Major Importers and Sellers

1. The names and purchase amounts and ratios of suppliers accounting for more than 10% of total purchases in any year of the most recent two years, and explanation of the reasons for changes

Unit: NT\$ thousand; %

|      |               | 202     | 22  |                                    |                  | 20        | 023   |                                    |
|------|---------------|---------|---|------------------------------------|------------------|-----------|---|------------------------------------|
| Item | Name          | Amount  | Ratio of<br>Total<br>Annual Net<br>Purchases<br>(%) | Relationship<br>with the<br>Issuer | Name             | Amount    | Ratio of<br>Total Annual<br>Net<br>Purchases<br>(%) | Relationship<br>with the<br>Issuer |
| 1    | Company F     | 197,292 | 19.89   | None                               | Company F        | 128,860   | 11.59   | None                               |
| 2    | Company E     | 115,937 | 11.69   | None                               | Company E        | 112,293   | 10.10   | None                               |
|      | Others        | 678,917 | 68.42   | -                                  | Others           | 870,414   | 78.31   | -                                  |
|      | Net Purchases | 992,146 | 100   | -                                  | Net<br>Purchases | 1,111,567 | 100   | -                                  |

Note: Reasons for increases/decreases in suppliers:

There were no changes in suppliers accounting for more than 10% of total purchases in the most recent two years. The ratios of Company E and Company F in 2023 were lower than the previous year, but the ranking of the two companies remained unchanged.

2. The names and purchase amounts and ratios of customers accounting for more than 10% of total sales in any year of the most recent two years, and explanation of the reasons for changes

Unit: NT\$ thousand; %

|      |                | 2022      |   |                                    |                | 20        | 23  |                                    |

| Item | Name           | Amount    | Ratio of<br>Total<br>Annual Net<br>sale (%) | Relationship<br>with the<br>Issuer | Name           | Amount    | Ratio of<br>Total<br>Annual Net<br>sale (%) | Relationship<br>with the<br>Issuer |
| 1    | AC<br>Company: | 377,505   | 10.03                                       | None                               | AC<br>Company: | 563,315   | 12.92                                       | None                               |
|      | Others         | 3,387,999 | 89.97                                       |                                    | Others         | 3,797,133 | 87.08                                       |                                    |
|      | Net Sales      | 3,765,504 | 100   | -                                  | Net Sales      | 4,360,448 | 100   | -                                  |

Note: Reasons for increases or decreases in clients:

AC Company: In 2023, due to the expansion of the market size, the sales ratio of AC Company increased to 12.92% in 2023.

### (V) Production Volume and Value Table for the Most Recent two Years

Unit: NT\$ thousand; KG

| Year   |            | 2022                 |                     | 2023       |                      |                     |  |
|--|------------|----------------------|---------------------|------------|----------------------|---------------------|--|

| Respiratory Agents   | 100,000    | 99,545.81            | 204,584             | 141,150    | 141,139.13           | 257,067             |  |
| Anti-inflammatory and<br>Analgesic Agents                        | 50,910     | 49,948.77            | 177,839             | 26,375     | 26,340.30            | 96,829              |  |
| CNS Agents   | 96,000     | 95,455.20            | 86,679              | 113,749.5  | 113,708.11           | 84,750              |  |
| Others   | 47,427.03  | 43,055.33            | 261,712             | 70,334.69  | 69,423.48            | 512,393             |  |
| Total  | 894,591.01 | 883,911.25           | 2,240,168           | 961,438.11 | 960,190.30           | 2,465,648           |  |

Note: The subsidiaries do not engage in production.

Reasons for increase or decrease:

<sup>1.</sup> In response to the market decrease, the production volume of anti-inflammatory and analgesic agents decreased compared to the same period last year in 2023.

<sup>2.</sup> In response to market demand, the production volume of cholesterol phosphate binding agent and respiratory system drugs increased compared to the same period last year in 2023.

# (VI) Sales Volume and Value Table for the Most Recent Two Years

| Year   |           | 2022    |              |           |                | 2       | 2023         | ,         |
|--|-----------|---------|--------------|-----------|----------------|---------|--------------|-----------|
| Sales Volume<br>and Value  | Domesti   | c Sales | Export Sales |           | Domestic Sales |         | Export Sales |           |
| Main Products  | Volume    | Value   | Volume       | Value     | Volume         | Value   | Volume       | Value     |
| Cholesterol<br>Phosphate<br>Binding Agent                              | 21,756.30 | 48,354  | 470,371.05   | 1,244,140 | 658.00         | 4,252   | 583,241.78   | 1,571,180 |
| Vit. D Derivatives   | 2.46      | 103,205 | 11.45        | 597,763   | 0.92           | 46,764  | 16.22        | 762,231   |
| Contract<br>Development and<br>Manufacturing<br>Organization<br>(CDMO) | 286.45    | 156,168 | 33,637.25    | 379,344   | 1,500.52       | 147,272 | 39,432.93    | 367,442   |
| Respiratory<br>Agents  | 2,422.56  | 12,847  | 108,108.81   | 344,508   | 4,773.76       | 14,842  | 137,066.93   | 463,444   |
| Anticancer Active<br>Ingredients                                       | 116.83    | 20,216  | 886.40       | 97,061    | 146.98         | 32,297  | 1,826.98     | 227,330   |
| Anti-<br>inflammatory and<br>Analgesic Agents                          | 0.03      | 62      | 63,965.99    | 225,915   | 0.00           | 0       | 26,957.28    | 208,368   |
| Others   | 10,911.90 | 39,656  | 103,177.01   | 496,265   | 40,826.42      | 32,656  | 94,050.54    | 482,370   |
| Total  | 35,496.53 | 380,508 | 780,157.96   | 3,384,996 | 47,906.60      | 278,083 | 882,592.66   | 4,082,365 |

Reasons for increase or decrease:

Exports accounted for a majority of the Company's sales in the past two years. The rise in total sales value for 2023, in comparison to 2022, was primarily attributable to the increased sales value of cholesterol and phosphate binders, as well as respiratory agents.

# **III.** Information of Employees

Note: The table above indicates the number of employees who remain employed by the Company and its subsidiaries at the end of each period.

# **IV.** Environmental Protection Expenditure

(I) Losses suffered due to environmental pollution in the most recent year and up to the publication date of the annual report (including compensation and results of environmental protection inspections showing violations of environmental regulations, specifying the disposition dates, disposition reference numbers, articles of law violated, content of violations, and content of dispositions), and disclosing an estimate of possible expenses that could be incurred currently and in the future and the corresponding measures. If a reasonable estimate cannot be made, an explanation of the facts of why it cannot be made shall be provided.

The Company has always been dedicated to environmental protection and preventing pollution. While it is currently difficult to estimate potential losses resulting from environmental pollution in the future, the Company will closely monitor the development of environmental protection laws and regulations, as well as changes in environmental pollution evaluation standards. The Company will respond to these evaluations with appropriate measures. The Company was fined NT\$60,000 in 2023 and up to the publication date of the annual report for violating the Water Pollution Control Act. The Company has completed the improvement by the end of 2023.

(II) The company has established appropriate facilities, designated specialized personnel, and engaged professional and legal institutions to manage pollutants produced during the manufacturing process, including wastewater (sewage), waste gas, garbage, and toxic chemicals. The following is a detailed account:

- 1. Permit for Installation of Facilities or Discharge of Pollutions
  - (1) Sewage Treatment

The Environmental Protection Bureau of Taoyuan City Government has granted the Company the Water Pollution Prevention Permit (Taoyuan-Huan-Pai-Xu-Zi No. H0604-11). To manage the wastewater (sewage) produced during the production process, the Company has constructed a wastewater treatment plant, which is operated by designated personnel. The wastewater (sewage) is only discharged outside the factory after meeting the discharge standard. Additionally, Luzhu No.2 Plant has obtained the Wastewater (Sewage) Storage Permit (Taoyuan-Huan-Pai-Xu-Zi No. H3842-03) and has commissioned Luzhu Plant to treat wastewater (sewage).

(2) Waste Gas Treatment

The company has constructed Regenerative Thermal Oxidizers (RTOs) to improve the treatment of Volatile Organic Compounds (VOCs). These RTOs have a treatment efficiency of 95% or higher and can recycle and reuse waste heat, aligning with our commitment to environmental protection and energy conservation. Additionally, the company has obtained the Stationary Pollution Source Operating Permit in compliance with the Air Pollution Control Act and has designated specialized personnel to manage air pollution control.

| Stationary Pollution Source Operating Permit                               | Permit No.               |
|--|--------------------------|
| (Luzhu Plant) Other Western Medicine<br>Manufacturing Procedure (M01)      | Certificate No. H5698-02 |
| (Luzhu No.2 Plant) Other Western Medicine<br>Manufacturing Procedure (M01) | Certificate No. H5699-03 |
| Boiler Steam Generation Procedure (M05)                                    | Certificate No. H5368-06 |

## (3) Industrial Waste Treatment

Recyclable waste generated during production will be recycled by resource recovery operators. Non-recyclable waste, such as solid waste, waste solvent, and garbage, will be cleaned and treated by qualified professional cleaners and treatment plants approved by environmental protection units.

(4) Toxic Chemical Treatment

The Company has applied appropriate measures for the treatment of toxic chemicals and has complied with relevant laws and regulations.

2. Unit Responsible for Environmental Protection

The company has a dedicated environmental protection unit staffed with specialists in various environmental protection matters. The relevant information on these specialists is described below:

| Item   | Description   |
|--|---|
| (Luzhu Plant) Wastewater<br>Treatment Specialist | Specialist in charge of Class A wastewater treatment,<br>Certificate No. (110) Huan-Shu-Xun Certificate No.<br>GA370448           |
| (Luzhu Plant) Air<br>Pollution Specialist        | Specialist in charge of Class B air pollution prevention and control, Certificate No. (103) Huan-Shu-Xun Certificate No. FB040400 |
| (Luzhu No.2 Plant) Air<br>Pollution Specialist   | Specialist in charge of Class A air pollution prevention and control, Certificate No. (91) Huan-Shu-Xun Certificate No. FA060452  |
| (Luzhu Plant) Waste<br>Treatment Specialist      | Specialist in charge of Class A waste treatment, Certificate<br>No. (111) Huan-Shu-Xun Certificate No. HA080097                   |
| (Luzhu Plant) Toxic<br>Chemical Treatment        | Specialist in charge of Class A toxic chemical treatment,<br>Certificate No. (112) Huan-Shu-Xun Certificate No.<br>JA100251       |
| (Luzhu No.2 Plant) Toxic<br>Chemical Treatment   | Specialist in charge of Class A toxic chemical treatment,<br>Certificate No. (89) Huan-Shu-Xun Certificate No. JA190244           |

3. Future Countermeasures (Including Improvement Measures) and Potential Expenses:

The Company places great emphasis on environmental protection. In recent years, we have constructed wastewater treatment facilities and RTOs, and have strengthened our proper treatment of wastewater and air pollution generated during the production process to meet relevant environmental protection standards.

# V. Labor Relations

- (I) The Company's and its subsidiaries' employee welfare measures, continuing education, training, retirement system and implementation status, as well as the agreement between labor and management and the measures to safeguard employee rights and interests.
  - 1. Welfare System
    - (1) Free group insurance for employees and their dependents (spouses and children) (including life insurance, medical insurance, accident insurance, and travel insurance for business trips), preferential group insurance for employees' relatives, and occupational injury insurance.
    - (2) Performance bonuses, year-end bonuses and employee remuneration.

- (3) Free annual health checkups, special operations health checkups, and executive health checkups.
- (4) On-site nurses and monthly on-site physician health consultations.
- (5) Breastfeeding room for female employees.
- (6) Family Day and Year-end Party. Formosa Labs Family Day was held at Pushin Ranch on July 22, 2023.
- (7) Fitness room, library, employee cafeteria, free employee car and motorcycle parking lot, and free employee dormitory for long-distance employees.
- (8) Establishment of an Employee Welfare Committee, enjoying various employee benefits, including festival gift money/welfare funds, birthday gift money, birthday celebration activities, subsidies for employee gatherings (fellowship meetings), and subsidies for the establishment of clubs.
- (9) Subsidies for employees' self-study degrees or language training, and scholarships for employees' children who are students.
- (10) Employee Health Activities
  - A. Seminars on smoking cessation, weight management, training courses on automated external defibrillators (AED) and cardiopulmonary resuscitation (CPR), and blood donation activities were held.
  - B. Organized 2 blood donation activities and hiking activities.
  - C. Organized health promotion activities such as group weight loss, individual fat loss competitions, chronic disease prevention, etc., with a total of 168 participants in 2023.
  - D. Organized various health lectures such as aerobic exercise, nutrition, musculoskeletal injury prevention, hypertension and cardiovascular diseases, with a total of 364 participants.
  - E. Family Day and Year-end Party. Formosa Labs Family Day was held at Pushin Ranch on July 22, 2023.
- (11) Organized charity events, such as the Formosa Labs "2023 Love to Keep Warm in Winter - Good Meals for the Elderly" charity sale from December 11 to 22, 2023, with all proceeds donated to social welfare organizations; a movie screening of "Shaking the Mountains and the World" on December 9, 2023, to support domestic cultural enterprises with concrete actions, with a total of 149 participants.
- (12) Held labor-management meetings every quarter to conduct two-way communication and negotiation with employees, with a total of 4 meetings held in 2023.
- (13) Provided Employee Assistance Programs (EAPs) to assist employees in resolving work adaptation, organizational relationships and personal life emotional stress, and establish a work-life balance environment with physical

and mental care. A total of two EAP training sessions were held in 2023, with a total of 60 participants and 8 employees receiving counseling.

2. Employee Education and Training

The company has developed procedures for education and training aimed at improving personal skills, training professionals, enhancing product quality and R&D capabilities, maintaining and strengthening our competitive position in the industry, fostering employee understanding of our corporate culture, and establishing a shared organizational culture. These efforts create opportunities for sustainable operations and promote common values.

| Administration          | 9,200             | 1,392        | 407        |
| Total                   | 1,827,927         | 9,979        | 3,826      |

The details of the Company's education and training in 2023 are as follows:

- 3. Retirement System and Its Implementation
  - (1) New Retirement System

In compliance with the Labor Pension Act, the Company has been contributing 6% of employees' monthly salaries to their individual pension fund accounts, as established by the Bureau of Labor Insurance, since July 1, 2005. This applies to both new and existing employees who have opted for the new labor retirement system.

Starting from July 1, 2005, for those who choose the "Labor Pension Act", the pension payment and calculation methods are as follows:

- A. Individual Retirement Pension Account
  - a. Monthly Pension:
    - Employees aged 60 or above and with a seniority of 15 years or more under the "Labor Pension Act" may apply for a monthly pension.
    - The principal and accumulated earnings in the employee's individual retirement pension account are used to calculate the amount of the monthly pension payment based on the annuity life table, average life expectancy, interest rates, etc.
  - b. Lump-Sum Pension:

- Employees aged 60 or above and with a seniority of 15 years or more under the "Labor Pension Act" may apply for a monthly pension.
- The principal and accumulated earnings in the employee's individual retirement pension account are received in a lump sum.
- B. Annuity Insurance System: The payment amount is based on the provisions of the insurance contract.
- C. For employees who choose to apply the retirement system under the "Labor Standards Act" and retain the seniority before the application of the "Labor Pension Act", the contribution rate of the labor retirement reserve is calculated based on factors such as the number of employees, wages, seniority, and turnover rate, and the labor retirement reserve is continued to be fully contributed within 5 years on a monthly basis in accordance with Article 56, Paragraph 1 of the "Labor Standards Act" to be used for the payment of retirement pensions.
- (2) Old Retirement System

At the same time, the Company continues to calculate the seniority for the original employees who chose to apply the old retirement pension system in accordance with the provisions of the "Labor Standards Act", and retains the old seniority for the original employees who chose to apply the new retirement pension system. The Company has also established a Labor Retirement Reserve Supervisory Committee, contributing 2% of the total employee salaries each month as retirement pension, and depositing it in a special account at the Bank of Taiwan and handling employee retirement matters in the name of the Labor Retirement Reserve Supervisory Committee.

- A. Employees of the Company who Meet one of the Following Conditions May Apply for Voluntary Retirement:
  - a. Those who have served for 15 years or more and have reached the age of 55.
  - b. Those who have served for 25 years or more.
  - c. Those who have served for 10 years or more and have reached the age of 60.
- B. The Provisions for the Payment of Employee Retirement Pensions Are as Follows:
  - a. The standard for the base amount of retirement pension is the average salary for one month at the time of approved retirement.
  - b. For each year of service, two base amounts are given; after 15 years, one base amount is given for each additional year, with a maximum

total of 45 base amounts. Less than half a year is counted as half a year, and half a year or more is counted as one year.

- c. For those who have lost their mental faculties or are physically disabled due to the performance of their duties, an additional 20% is given based on the previous provision.
- d. The retirement pension for employees should be paid within 30 days from the date of the employee's retirement.
- (3) Retirement Pension Contribution Status
  - A. For those who apply the new system under the "Labor Pension Act": The total contribution amount in 2023 was NT\$23,145,671.
  - B. For those who apply the old system under the "Labor Standards Act": As of December 31, 2023, the recognized retirement pension expense was NT\$35,326,017.
- (4) In 2023, a total of 2 employees of the Company applied for retirement.
- 4. Agreement Between Labor and Management and Measures to Safeguard Employee Rights and Interests

The Company has always attached great importance to harmonious labormanagement relationships and holds regular labor-management meetings to communicate views and maintain good relations.

- (II) Losses suffered as a result of labor disputes in the most recent year up to the publication date of the annual report (including the results of labor inspections showing violations of the Labor Standards Act, specifying the disposition dates, disposition reference numbers, articles of law violated, content of violations, and content of dispositions) and disclosing an estimate of possible expenses that could be incurred currently and in the future and corresponding measures. If a reasonable estimate cannot be made, an explanation of the facts of why it cannot be made shall be provided: The Company was fined NT\$50,000 on May 24, 2023 for violating Article 32, Paragraph 2 of the Labor Standards Act due to the results of a labor inspection.
- (III) Measures to Protect the Work Environment and Personal Safety of Employees

The Company operates in the biotechnology and medical treatment industry. In order to ensure factory safety, a round-the-clock smoking ban is enforced throughout the premises. Additionally, all employees receive annual health checks, with special attention given to those working in highly toxic areas. This encourages employees to take responsibility for their own health. Professional nurses and doctors are also available on a regular basis to provide consultation services, including occupational and general injury prevention, health consultation, first aid, and emergency treatment. Conduct regular fire drills and training sessions, which should include emergency response drills, advanced emergency response drills with equipment, and emergency evacuation drills. Additionally, ensure that fire alarm tests are conducted on a routine basis. The Company conducts occupational safety and health education and training programs in accordance with regulations to establish crisis awareness and ensure that employees pay attention to their personal safety while performing their duties.

## VI. Information Security Management

- (I) Describe the framework for managing cyber security risks, the policies governing cyber security, specific management programs, and investments in resources for cyber security management.
  - 1. The Company has long been dedicated to cybersecurity and safeguarding personal data. To this end, we have developed Security Management Measures for Information Systems, which are implemented by the Information Section's Network Management Team. Currently, the team consists of three members. The following outlines our primary management plans and policies:
    - (1) Only authorized personnel and administrators are permitted to access the physical servers, network equipment, and other related equipment used in the information system platform architecture. The architecture utilizes redundancy, fault tolerance, and clustering to guarantee the system and hardware equipment's high availability.
    - (2) Disk arrays and redundancy are utilized in physical devices for data storage and backup to improve data protection and availability.
    - (3) Security devices are configured to block various network intrusions, preventing deliberate destruction, attacks, or tampering by external illegal users. Additionally, the built-in feature library identifies attack behavior and system weaknesses, providing administrators with early warning, evidence collection, and records.
    - (4) The user must create a password that is at least 6-8 characters long and meets the criteria for password complexity.
    - (5) The file system and connection transmissions are encrypted to prevent malicious tampering.
    - (6) The anti-virus software console manages the hardware and software information and status of the client. It regularly connects to the original manufacturer to update attribute codes and anti-virus applications. The client also connects to the server regularly to update attribute codes and anti-virus applications. This ensures that the operating system is protected from threats such as viruses, Trojan horses, worms, spyware, adware, or malicious web pages.
    - (7) The company has implemented a reliable backup schedule for both data and systems, and conducts routine restoration exercises to ensure the integrity and accessibility of data, systems, and storage media.

- (8) The company has implemented a data leakage protection scheme to prevent unauthorized computer usage by employees, thereby mitigating the risk of data leakage incidents from internal sources to external ones.
- 2. Specific Measures in 2023
  - (1) Two "Social Engineering Online Information Security Lectures" were held, with the participants being the Company's managers at the associate manager level (inclusive) and above and colleagues involved in business and cash flow related matters, with a total of 100 participants and a total of 100 class hours.
  - (2) Social engineering drills were conducted in January and December 2023. During the test period on working days, social engineering drill emails were sent to managers at the manager level (inclusive) and above, colleagues involved in business and cash flow related matters, and 2-3 randomly selected employees from each unit. In addition to strengthening employees' information security concepts, the results of the drills can be used to understand the effectiveness of information security measures and the areas that need to be strengthened.
  - (3) Completed regular review of the validation status of computer systems. Based on the annual review and evaluation items, it is determined whether revalidation is required. The evaluation conclusions are recorded in the computer system validation status review form. If re-validation is required, it is added to the main validation plan for the year for tracking and management to ensure that the computer systems comply with GAMP5 regulations.
  - (4) Conducted access rights review for the company's important systems.
  - (5) Conducted two disaster recovery drills for the company's important systems.
- 3. The Company has resolved by the Board of Directors to establish a dedicated information security unit (Information Security Section) and formulate the "Information Security Policy". The Information Security Section has one dedicated information security supervisor and one dedicated information security personnel. The supervisor of the Information Security Section has reported the implementation of information security management in 2023 to the Board of Directors on November 10, 2023.
- (II) Please provide a list of any losses that the Company has suffered due to significant cyber security incidents in the most recent fiscal year up to the publication date of this annual report. Additionally, please include the possible impacts of these incidents and any measures that are being taken or will be taken to address them. If a reasonable estimate of the losses cannot be made, please provide an explanation of the reasons why.

#### (I) Financial Analysis - Consolidated Financial Statements

Reasons for changes in financial ratios exceeding 20% over the past two years:

1. Current ratio, quick ratio: Due to the cash capital increase of the subsidiary.

2. Interest coverage ratio, return on assets, return on equity, ratio of net profit before tax to paid-in capital, net profit margin and earnings per share: Due to the increase in non-operating income and expenses in 2022 due to financial asset valuation gains, and the decrease in net profit before tax and net profit after tax in 2023 compared to the same period, resulting in a decrease in various financial ratios.

3. Cash flow ratio, cash flow adequacy ratio, and cash re-investment ratio: Due to the increase in net cash flow from operating activities in 2023.

4. Operating leverage: Caused by the increase in operating income and operating profit in 2023.

Note: Financial reports audited and certified by CPAs.

#### (II) Financial Analysis - Parent Company only Financial Statements

Reasons for changes in financial ratios exceeding 20% over the past two years:

1. Interest coverage ratio, return on assets, return on equity, ratio of net profit before tax to paid-in capital, net profit margin and earnings per share: Due to the increase in non-operating income and expenses in 2022 due to financial asset valuation gains, and the decrease in net profit before tax and net profit after tax in 2023 compared to the same period, resulting in a decrease in various financial ratios.

2. Cash flow adequacy ratio: Due to the increase in net cash flow from operating activities in 2023.

3. Operating leverage: Caused by the increase in operating income and operating profit in 2023.

Note 1: The above financial information for each year was audited by the CPAs.

Note 2: Formulas are shown as follows

- 1. Financial Structure
  - (1) Debt ratio= Total Liabilities / Total Assets
  - (2) Long-term funds to property, plant and equipment = (Total equity + Non-current liabilities) / Property, plant and equipment, net
- 2. Liquidity analysis
  - (1) Current ratio = Current assets / Current liability
  - (2) (Current Assets Inventories Prepaid expenses) / Current liability
  - (3) Interest coverage ratio= net profit before interest and tax / interest expenses for the current period.
- 3. Operating Performance Analysis
  - Average collection turnover (Including Accounts Receivable and Notes Receivable from operation) = Sales / Average trade receivables
  - (2) Average collection days = 365 / Receivable turnover ratio
  - (3) Average inventory turnover = Cost of goods sold / Average inventory
  - (4) Average payables turnover (times) (Including Accounts Payable and Notes Payable from operation) = operating costs / Average trade payables
  - (5) Average inventory turnover days= 365 / Average inventory turnover
  - (6) Property, plant and equipment turnover rate = Net sales / average property, plant and equipment, net
  - (7) Total assets turnover = Sales / Average total assets
- 4. Profitability
  - (1) Rate of return on assets = [Profit + Interest expense x (1 Tax rate)] / Average assets
  - (2) Rate of return on equity = Profit / Average total Equity
  - (3) Profit to sales = Profit / Sales
  - (4) Earnings per share = (Equity attributable to owners of parent Dividend-preferred stock) / Weighted average outstanding shares
- 5. Cash flow
  - (1) Cash flow ratio = Net cash provided by operating activities / Current liability
  - (2) Cash flow adequacy ratio = 5-year net cash provided by operating activities / 5-year (Capital expense + Increase in inventories + Cash dividend)
  - (3) Cash flow reinvestment ratio = (Net cash provided by operating activities Cash dividend) (Property, plant and equipment, net + Long-term investments + Other non-current assets + Operating Capital)
- 6. Leverage
  - (1) Operating Leverage= (Net operating revenue Variable cost and expense) / Operating income
  - (2) Financial leverage = Operating income / (Operating income Interest expenses)
- 7. If the Company's stock is a no-par-value stock or stock with par value other than NTD10, the paid-in capital ratio mentioned above shall be calculated based on the percentage of the equity attributed to owners of parent company in the balance sheet.

#### III. Audit Report on the Latest Year Financial Statements by the Audit Committee

Please refer to this annual report page 158.

#### IV. Audited Financial Report of Last Fiscal Year

Please refer to this annual report pages 159 - 248.

## V. Parent Company Only financial statements for the last fiscal year, audited and certified by CPAs

Please refer to this annual report pages 249 - 321.

#### VI. If the Company and Its Affiliates Have Experienced Financial Difficulties in the Recent Year and as of the Date of the Annual Report, the Impact on the Company's Financial Position Should Be Stated

None.

Unit: NTD thousand

Reasons for and impact of changes:

(The change before and after reaches 20% or more, and the amount of change reaches NT\$10 million.)

1. Current ratio increase: Due to the capital increase in cash of the subsidiary.

2. The increase in the ratio of non-current liabilities: Due to the increase in long-term borrowings

3. The increase in the ratio of other equity: The primary reason for the increase in period-end gains of financial assets measured at fair value through other comprehensive gains and losses in 2023 was due to this factor.

4. The increase in the ratio of non-controlling interests: Due to the change in shareholding ratio resulting from the cash capital increase of subsidiaries.

#### II. Financial Performance

#### (I) Financial Performance for the Most Recent 2 Years

| Total comprehensive income attributable to non-controlling interests    | (194,495) | (184,896) | 9,599                                   | 4.94          |

Explanation of major changes: (The percentage increase or decrease exceeded 20%, and the amount of change was equal to or greater than NT\$10 million.)

- 1. Increase in gross profit from operations and operating profit: The rise in operating income and gross profit margin in 2023 was the primary cause.
- 2. Decrease in non-operating income and expenses: Mainly due to the fact that in 2022, the stocks of the invested company EirGenix Inc. and other companies rose on the valuation date at the end of the year, resulting in an increase in the net loss from financial assets measured at fair value through profit or loss in 2023 compared to the same period.
- 3. Increase in income tax expense: The rise in operating profit in 2023 was the primary cause.
- 4. Increase in other comprehensive income (net): Mainly due to the increase in the gain from the evaluation of financial assets measured at fair value through other comprehensive income at the end of 2023.
- 5. Net profit after tax, net profit for the current period, total comprehensive income for the current period, net profit for the current period attributable to owners of the parent company, and total comprehensive income attributable to owners of the parent company: Mainly due to the fact that in 2022, non-operating

income and expenses increased due to the gain from the evaluation of financial assets, while the amount decreased in 2023 compared to the same period.

(II) Expected Sales Volume and its Basis Over the Next Year: Not applicable.

#### III. Cash Flow

(I) Cash Flow Analysis of the Most Recent Year

| Unit  | NTD                    | thousand; | %  |
|-------|------------------------|-----------|----|
| Unit. | $\mathbf{N}\mathbf{D}$ | mousand,  | /0 |

| Year  | 2022      | 2023        | Increase<br>(Decrease)<br>Dollar<br>Amount | Variation (%) |  |  |
|---|-----------|-------------|--|---------------|--|--|
| Cash Flows from Operating Activities  | 643,086   | 826,600     | 183,514                                    | 29%           |  |  |
| Cash Flows from Investing Activities  | (540,721) | (1,257,426) | (716,705)                                  | 133%          |  |  |
| Cash Flows from Financing Activities  | 447,945   | 700,144     | 252,199                                    | 56%           |  |  |
| Major Change Project Description: (Changes of 50% or more between before and after, and the change amount reaches 5% of the actual paid-in capital) |           |             |  |               |  |  |
| Investing activities: The cash outflow is generated from financial assets measured at amortized cost by subsidiaries.                               |           |             |  |               |  |  |
| Financing activities: The main reason is due to an increase in the Company's long-term borrowings.  |           |             |  |               |  |  |

- (II) Plan to Improve Liquidity Deficiency: Not applicable.
- (III) Analysis of Cash Flow Liquidity for the Next Year

| Cash -               | Expected net<br>Cash Flow From | Exposted Cash            | Expected Cash              | Countermeasures Against<br>Cash Insufficiency |                              |  |
|----------------------|--------------------------------|--------------------------|----------------------------|---|------------------------------|--|
| Beginning<br>Balance | inning Operating               | Expected Cash<br>Outflow | Balance<br>(Insufficiency) | Investment<br>Plan                            | Wealth<br>Management<br>Plan |  |
| 1,526,013            | 404,580                        | (363,809)                | 1,566,784                  | -   | -                            |  |

- 1. Analysis of cash flow changes in the next year:
  - (1) Operating activities: The primary reason for this was the projected cash inflow resulting from the Company's operations.
  - (2) Investing activities: The primary reason for the cash outflow was the acquisition of machinery and associated equipment, as well as the maintenance and replacement of production and research equipment.
  - (3) Financing activities: This was due to bank financing and subsidiaries' issuance of common stock for cash.
- 2. Remedial measures and liquidity analysis of estimated cash deficiency: Not applicable.

#### IV. Impact of Major Capital Expenditures on Corporate Finance and Business for the Most Recent Year

The capital expenditures of the Company and its subsidiaries for the year 2023 amounted to approximately NT\$538,528 thousand, mainly for the payment of the remaining engineering fees for the construction of the Cholesterol Phosphate Binding Agent line and the injectable dosage form production line, the acquisition of related machinery and equipment for the CDMO business, as well as the replacement and maintenance of existing plant and equipment. This capital expenditure has effectively increased the production capacity of APIs, providing clients with one-stop value-added services for the downward expansion of injectable product production in the future. This will have a positive impact on the financial performance of the Company and its subsidiaries.

#### V. Recent Year's Investment Policy, Main Reasons for Profit or Loss, Improvement Plans and Future Year's Investment Plans

(I) Reinvestment policy of the Company and its subsidiaries: The Company's reinvestment in other companies follows the "Investment Cycle" and "Procedures for Acquisition or Disposal of Assets" of the internal control system.

| Investment<br>Business Transfer    | Profit or<br>Loss of the<br>Invested<br>Company in<br>2023 | Main Reasons for<br>Profit or Loss  | Improvement Plan   |

(II) Main Reasons for Profit or Loss and Improvement Plan

Unit: NT\$ thousand

| Investment<br>Business Transfer           | Profit or<br>Loss of the<br>Invested<br>Company in<br>2023 | Main Reasons for<br>Profit or Loss   | Improvement Plan  |
|---|--|--|---|
|   |  |  | from the R&D of TSY-0110. TSY0110<br>is currently in the late stage of<br>preclinical development and is<br>scheduled for clinical trials in 2024.                                    |
| Epione<br>Pharmaceuticals,<br>Inc.        | 200  | The Company is<br>currently in the<br>research and<br>development phase of<br>new drugs, which has<br>led to ongoing<br>financial losses.  | Currently, the Company is focused on the<br>application and development of<br>biotechnology and new drugs, with an<br>emphasis on discovering and exploring<br>novel pharmaceuticals. |
| A.R.Z Taiwan<br>Ltd.                      | (988)  | Decline in commission business.  | -   |
| Epione<br>Investment<br>Cayman Limited    | (5,246)  | The investment losses<br>were primarily<br>attributed to Epione<br>Investment HK<br>Limited and Shanghai<br>Epione Enterprise Co.,<br>Ltd. | Revenue will be recognized in accordance<br>with Shanghai Epione Enterprise's product<br>launch plan.   |
| Epione<br>Investment HK<br>Limited        | (5,078)  | The main cause of the<br>investment losses was<br>Shanghai Epione<br>Enterprise.   | Revenue will be recognized after product<br>launch in accordance with Shanghai<br>Epione Enterprise's product launch plan.  |
| Shanghai Epione<br>Enterprise Co.,<br>Ltd | (5,046)  | The manufacturing<br>partner is in the<br>process of applying for<br>the drug license.   | Once the drug license application is<br>approved, production and sales can<br>commence to generate revenue.   |
| Activus Pharma<br>Co., Ltd.               | 3,902  | The increase in<br>accounts receivable<br>was primarily due to<br>the appreciation of the<br>US dollar.                                    | In the future, the Company will persist in seeking drug development and licensing opportunities for its patented nano R&D technology.   |
| Formosa<br>Labarotories<br>Japan, Inc.    | 15,017   | Increase in sales.   | -   |

#### (III) Investment Plan for the Coming Year

The Company's reinvestment policy maintains a prudent attitude. If there are investment targets that can enhance the overall operational value of the Company, the feasibility and risks of such investments will be evaluated in accordance with the "Procedures for Acquisition or Disposal of Assets" and relevant regulations, and will be carried out after necessary resolution procedures.

#### VI. Risk Management and Assessment

- (I) Impact of Changes in Interest Rates, Exchange Rates, and Inflation on the Company's Profits and Future Countermeasures
  - 1. Changes in Interest Rates

In 2022 and 2023, the Company and its subsidiaries generated NT\$2,144 thousand and NT\$23,708 thousand in interest revenues, respectively, representing 0.06% and 0.54% of net operating income. Meanwhile, interest expenses for the same periods amounted to NT\$19,319 thousand and NT\$34,735 thousand, respectively, accounting for 0.51% and 0.8% of net operating income. Despite fluctuations in interest rates, the overall profitability of the Company and its subsidiaries remained largely unaffected. The Company and its subsidiaries will stay informed of fluctuations in interest rates in order to secure more advantageous rates and mitigate interest rate risk.

2. Effects of Changes in Foreign Exchange

The Company and its subsidiaries primarily import and sell in USD, with a small portion of sales in EUR. To mitigate the impact of exchange rate fluctuations on income, the financial departments of the Company and its subsidiaries regularly gather exchange rate information, monitor major currency changes in the international foreign exchange market, and maintain good relationships with banks to obtain favorable exchange rate quotations. The Company aims to achieve a balance between foreign currency assets and liabilities to achieve natural hedging and minimize the impact of exchange rate fluctuations on income.

The foreign exchange gain in 2022 was NT\$10,382 thousand, while the foreign exchange loss in 2023 was NT\$65,776 thousand, mainly due to fluctuations in the US dollar to New Taiwan dollar exchange rate.

The Company and its subsidiaries have taken the following measures in response to changes in exchange rates:

- (1) Regarding net foreign asset positions, our financial personnel collect and evaluate relevant information and trends in the foreign exchange market. They then exchange foreign currency in a timely manner to reduce risk based on the company's capital needs, in addition to the natural hedge provided by purchase and sale payments denominated in foreign currencies.
- (2) The company maintains close contact with major correspondent banks to stay informed of changes in the foreign exchange market. We appoint relevant personnel to provide timely quotations that reflect changes in the exchange rate.
- (3) The company has developed the Procedures for Acquiring or Disposing of Assets, which the Shareholders' Meeting has approved by resolution. These procedures aim to regulate the operating procedures related to derivative financial products. The Company may take necessary measures to mitigate

foreign exchange risks that may arise from its business operations, based on its foreign currency positions and fluctuations in foreign exchange rates.

3. Inflation

Inflation has not had a significant impact on the profits and losses of the Company and its subsidiaries. In the event of increased purchase costs due to inflation, the Company and its subsidiaries adjust sales prices accordingly.

- (II) The Policy for Engaging in High-Risk, Highly Leveraged Investments, Lending Funds to Others, Endorsement Guarantees, and Derivative Product Transactions, as Well as the Main Reasons for Profits or Losses and Future Response Measures
  - 1. Policies for Engaging in High-Risk and Highly Leveraged Investments, Main Reasons for Profits or Losses, and Future Countermeasures

The company and its subsidiaries concentrate solely on their core business and have refrained from entering other high-risk industries. The company's financial policy is characterized by prudence and conservatism. It refrains from making highly leveraged investments and all investments are executed only after careful evaluation.

2. Policies for Lending Funds to Others, the Primary Reasons for Profits or Losses, and Future Countermeasures

The Company and its subsidiaries have developed the Procedures for Lending Funds to Others, which have received approval from both the Board of Directors and the Shareholders' Meeting. These procedures serve as the foundation for the Company and its subsidiaries to conduct relevant transactions. The Company and its subsidiaries engage in lending funds to others in accordance with the policies and countermeasures established by the "Operational Procedures for Lending Funds to Others." All relevant operations have taken into consideration the risk situations and relevant regulations, and have been carried out prudently.

3. Policies for Engaging in Endorsements and Guarantees, Main Reasons for Profits or Losses, and Future Countermeasures

The company and its subsidiaries have developed the Procedures for Endorsements/Guarantees, which have received approval from the Board of Directors and Shareholders' Meeting for forthcoming endorsements and guarantees. The Company and its subsidiaries have not provided any endorsements or guarantees for any other parties during the previous fiscal year or up to the date of publication of this Annual Report.

4. Policies for Engaging in Derivative Trading, Main Reasons for Profits or Losses, and Future Countermeasures

The Company and its subsidiaries trade derivative products in accordance with relevant regulations from competent authorities and the Procedures for Acquiring or Disposing of Assets. The primary objective is to mitigate market risk associated with

net assets and liabilities denominated in foreign currency due to fluctuations in exchange rates and interest rates. This activity is not intended for arbitrage or speculative purposes. The Company and its subsidiaries only engage with creditworthy banks as counterparties, ensuring low credit risk. The Company and its subsidiaries did not participate in any derivative trading during 2023.

(III) Future Research and Development Plans and Projected R&D Expenditures

To enhance industrial competitiveness, the Company and its subsidiaries continue to engage in innovative research and development. The ratio of R&D expenditures to revenue in 2022 and 2023 is expected to be 20.64% and 19.31%, respectively. The Company expects that the R&D expenses invested in the future will remain above a certain amount. Among them, the Company has upgraded its API technology and services, extending the R&D and production of existing APIs to downstream formulations, and entering the R&D and manufacturing of injectable formulations. Currently, the Company has put into production general production lines and cytotoxic production lines. The Company also continues to pay attention to new drugs that will soon be launched, selecting items from them to expand the market of ADCs and injectable formulations. In addition, the Company's custom R&D and contract manufacturing business not only provides custom synthesis services for small molecule APIs for clinical use but also offers custom synthesis services for APIs of ADCs. Formosa Pharmaceuticals Inc., a subsidiary company, has successfully completed the new drug application review with the U.S. Food and Drug Administration (FDA) for its ophthalmic drug APP13007, which is currently under development, and has received approval for market launch in March 2024. In 2022, Formosa Pharmaceuticals entered into an authorization contract with EirGenix, Inc. for the development of a new drug, TSY-0110, intended for the treatment of breast cancer. Pursuant to the agreement, Formosa Pharmaceuticals will receive royalties in stages, while EirGenix will have the right to share in the profits. Both parties will share in the earnings resulting from the research and development of TSY-0110. The Phase I human clinical trial is anticipated to be submitted for follow-up in 2024. The estimated R&D expenses for 2024 are estimated to be approximately NT\$1.18 billion.

(IV) The Impact of Important Domestic and Foreign Policy and Legal Changes on the Company's Financial Operations, and Corresponding Countermeasures

The Company and its subsidiaries conduct daily operations in accordance with applicable domestic and international laws and regulations. Furthermore, they monitor the development of domestic and international policies and changes in laws and regulations, gather relevant information to inform management decisions, and adjust operating strategies accordingly. As of the date of this Annual Report, the financial operations of the Company and its subsidiaries have not been impacted by significant changes in domestic or foreign policies and laws.

(V) The Impact of Technological Changes (Including Information Security Risks) and Industrial Changes on the Company's Financial Operations, and Corresponding Measures The Company and its subsidiaries stay up-to-date with product and technological advancements in their respective industry. They consistently enhance product quality and manufacturing processes, promptly identify industry trends and market information, and implement sound financial management strategies to sustain market competitiveness. To promote information and communication security-related policies, implement incident reporting and related response handling, the Company and its subsidiaries regularly assess information and communication risks, conduct information and communication security education and training, and formulate auditing systems for information and communication security risk management.

In the future, the Company and its subsidiaries will monitor changes in related product trends, evaluate their impact on operations, and make necessary adjustments to enhance business development and financial standing. There have been no significant changes in technology or industry that have materially impacted the Company and its subsidiaries during the most recent fiscal year up to the publication date of this Annual Report.

(VI) The Impact of Corporate Image Changes on Corporate Crisis Management and Countermeasures

Since its establishment, the Company and its subsidiaries have strived to uphold their corporate image and adhere to laws and regulations. As of the date of this Annual Report, there have been no incidents that have had an impact on the corporate image.

(VII) Expected Benefits, Potential Risks, and Countermeasures for Mergers and Acquisitions

The Company's merger and acquisition plans are prudently evaluated and the specific benefits are carefully considered in accordance with the Company's "Procedures for Acquisition or Disposal of Assets" and relevant laws and regulations, to effectively protect the interests of the Company and shareholders.

- (VIII) Expected Benefits, Potential Risks, and Countermeasures for Plant Expansion
  - 1. Expected Benefits

The Company's new production capacity for cholesterol phosphate binders is expected to come online by the end of 2023 to meet market demand, driving revenue growth in 2024. Additionally, the strong demand for antibody-drug conjugate (ADC) contract manufacturing, along with the ongoing development of injectable fill-finish services, will benefit from international regulatory inspections of the general and cytotoxic product lines in 2024, facilitating the development of injectable fill-finish business.

2. Potential Risks and Countermeasures

The Company's plant expansion aims to increase production capacity and product quality, while the injectable facility can also provide one-stop services to customers. To uphold the Company's commitment to quality, continuous efforts will be made to improve and enhance quality, thereby contributing to the reduction of operational risks.

- (IX) Risks and Countermeasures for Concentrated Procurement or Sales
  - 1. Risk Assessment of Purchasing Concentration and Countermeasures

The Company procures major raw materials by collaborating with at least two qualified suppliers, ensuring that purchases from a single supplier do not exceed 30%. This principle mitigates the risk of excessive concentration of purchases at present.

2. Risk Assessment of Sales Concentration and Countermeasures

In 2022 and 2023, the Company's largest client accounted for 10.03% and 12.92% of annual sales, respectively, without exceeding 30%. As a result, there was no sales concentration risk.

- (X) Directors, Supervisors, or Major Shareholders Holding More Than 10% of Shares, the Impact, Risks, and Countermeasures of Significant Transfers or Replacements of Their Shareholdings: None.
- (XI) The Impact, Risks, and Countermeasures for the Company due to Changes in Management Control

There have been no changes to the Company's operating rights during the previous fiscal year and up to the date of this Annual Report.

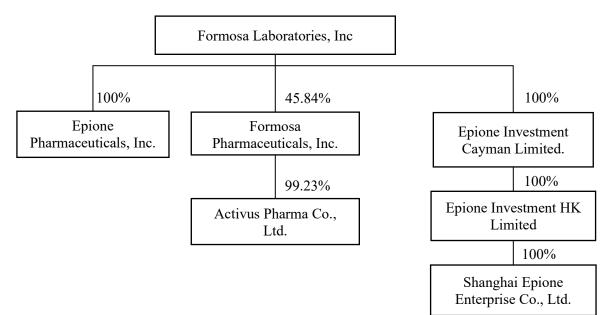

- (XII) Litigation or Non-litigation Matters
  - 1. If there has been any material impact on shareholders' equity or the Company securities prices due to litigation, non-litigious proceedings, or administrative disputes involving the Company that were finalized or remained pending during the most recent fiscal year up to the publication date of this Annual Report, we shall disclose the facts in dispute, amount in dispute, commencement date, main parties involved, and current status of the case: None.
  - 2. If any litigation, non-litigious proceeding, or administrative dispute involving a company director, supervisor, general manager, de facto responsible person, or major shareholder with a stake of more than 10 percent has had a material impact upon shareholders' equity or prices for the Company's securities, and the matter was finalized or remained pending in the most recent two fiscal years up to the publication date of the Annual Report, it must be disclosed: None.
- (XIII) Other Important Risks and Response Measures: None.

#### VII. Other Significant Matters

None.

- 3. Presumptive Reasons for the Presumption of Control and Subordinate Relationship and Related Information of Personnel: None.
- 4. The Industries Covered by the Overall Group's Business Operations and the Division of Labor

The business operations of the overall affiliated companies mainly cover the research and development of new biotechnology drugs. Currently, the subsidiaries Epione Pharmaceuticals, Inc. and Activus Pharma Co., Ltd. are still in the new drug R&D stage. Although there are benefits from the division of labor among Epione Investment Cayman Limited, Epione Investment HK Limited, and Shanghai Epione Enterprise Co., Ltd., they are still in the process of applying for drug certificates, and their products have not yet been launched on the market, resulting in no revenue generated. Formosa Pharmaceuticals Inc. a subsidiary of the Company, is a biotechnology pharmaceutical company focused on developing new drugs in clinical stages for therapeutic areas such as ophthalmology and oncology. Formosa Pharmaceuticals Inc. has adopted a unique R&D strategy to build a diversified portfolio of R&D projects to mitigate the risks of new drug development, including the 505(b)(2) pathway, biosimilars, and new molecular entities.

Note: It is a limited company.

#### (II) Consolidated Financial Statements of Affiliates

If the entities required for the consolidated financial report comprising the parent and its subsidiaries are identical to those necessary for preparing the consolidated financial statements covering affiliates, and if the mandatory disclosures for the consolidated financial statements covering affiliates are already included in the consolidated financial report comprising the parent and its subsidiaries, then there is no need to prepare the consolidated financial statements covering affiliates.

## II. Private Placement of Securities in the Most Recent Year and as of the Date of the Annual Report

None.

#### III. Information on the Company's Shares Held or Disposed of by Subsidiaries in the Most Recent Year and as of the Date of the Annual Report

None.

#### IV. Other Material Issues

None.

Chapter 9 Occurrences of Events Defined Under Article 36-3-2 of the Securities Exchange act in the Latest Year up Till the Publishing Date of This Annual Report That Significantly Impacted Shareholders' Equity or Security Prices: None.

#### Audit Committee's Review Report

2023 Business Report, Financial Statement (consolidated and parent company only financial statements) and Earnings Distribution of the Company submitted by the Board of the Directors, have been audited by CPA Yen, Yu-Fang, Teng, Sheng-Wei of PWC. The Audit Committee has also reviewed all of the reports and statements mentioned above and found no inconsistencies. Therefore, the Audit Committee has acted in accordance with Article 14-4 of the Securities and Exchange Act and Article 219 of the Company Act, and clarified as above.

То

2024 Annual Shareholders' Meeting of Formosa Laboratories, Inc.

Audit Committee Convener: Chen, Yi-Fen

March 12, 2024

FORMOSA LABORATORIES, INC. AND SUBSIDIARIES CONSOLIDATED FINANCIAL STATEMENTS AND INDEPENDENT AUDITORS' REPORT DECEMBER 31, 2023 AND 2022

#### INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Formosa Laboratories, Inc.

#### **Opinion**

We have audited the accompanying consolidated balance sheets of Formosa Laboratories, Inc. and its subsidiaries (the "Group") as at December 31, 2023 and 2022, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2023 and 2022, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

#### **Basis for opinion**

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and

appropriate to provide a basis for our opinion.

#### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Company's 2023 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Company's 2023 consolidated financial statements are stated as follows:

#### Key audit matter - inventory valuation

#### Description

Refer to Note 4(13) for accounting policy on inventory valuation, Note 6(6) for details of inventory, and Note 5(1) for uncertainty of accounting estimates and assumptions in relation to inventory valuation.

The Group is primarily engaged in the manufacturing and sales of active pharmaceutical ingredients. Due to the intensely competitive market and the restriction of expiry date of active pharmaceutical ingredients, there is a higher risk in loss on decline in market value of expired or obsolete inventories. As the determination of impairment of inventories involves subjective judgement and estimation uncertainty and considering that the amount of inventories is significant to the financial statements, we identified the inventory valuation as a key audit matter.

#### How our audit addressed the matter

We performed the following audit procedures in relation to the above key audit matter:

A. Obtained an understanding of the Group's operations and industry, assessed the reasonableness of the accounting policy in recognising the allowance for inventory valuation losses, and ascertained whether the accounting policy was applied

consistently for both periods.

- B. Obtained the net realisable value report of inventories, reviewed the calculation logic used and tested related parameters, including sales and purchase data files and other resource data.
- C. Obtained the expiry information date of each inventory item, checked against related supporting documents, and assessed the reasonableness of the provision of allowance for loss on inventory decline in market value.
- D. Verified the related documents we gathered during the physical inventory count and performed an inquiry with management and related personnel to verify whether the following have been addressed in the inventory list: a. Slow-moving inventory, b. Inventory that is over certain age, and c. Significant amount of damaged inventory.

## Key audit matter - Impairment assessment of investments accounted for using equity method

#### Description

As of December 31, 2023, the amount of the Company's reinvestment in Formosa Pharmaceuticals, Inc. was significant and the reinvestment generated goodwill. Refer to Note 4(18) for details of related accounting policies, and Notes 5(2) and 6(9) for uncertainty of accounting estimates and assumptions in relation to impairment assessment of investments accounted for using equity method.

The Company measured the recoverable amount of cash generating unit by discounting estimated future cash flows of related research and development projects as basis for impairment assessment. As the amount of investments accounted for using equity method was significant and the valuation model adopted by the impairment assessment process belongs to significant accounting estimates, recoverable amount was determined based on projected future cash flows, we considered the impairment assessment of investments accounted for using equity method as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures in relation to the above key audit matter:

- A. Obtained an understanding of the estimation process of projected cash flows to ascertain whether it was in agreement with the budget of the investee.
- B. Obtained the appraisal report of appraisers who were appointed by the management and performed the following audit procedures:
  - (1) Assessed whether the valuation model was reasonably matched with its industry, environment and assets to be valued.
  - (2) Compared the expected growth rate and net operating interest rate used in the estimation of future cash flows with historical result, economic documents and other external data.
  - (3) Assessed the discount rate used and compared with capital cost assumption of cashgenerating units and return rates of similar assets.
- C. Confirmed and measured the recoverable amount of cash-generating units by discounting estimated future cash flows to determine whether the recoverable amount exceeds the book value.

#### Other matter – Parent company only financial reports

We have audited and expressed an unqualified opinion on the parent company only financial statements of Formosa Laboratories, Inc. as at and for the years ended December 31, 2023 and 2022.

## Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including supervisors, are responsible for overseeing the Group's financial reporting process.

## Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of

internal control.

- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Yen, Yu-Fang

Teng, Sheng-wei

For and on Behalf of PricewaterhouseCoopers, Taiwan March 12, 2024

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and independent auditors' report are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

The accompanying notes are an integral part of these consolidated financial statements.

### FORMOSA LABORATORIES, INC AND SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2023 AND 2022

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

#### 1. HISTORY AND ORGANIZATION

Formosa Laboratories, Inc. (the "Company") was incorporated as a company limited by shares under the provisions of the Company Law of the Republic of China (R.O.C.) in December 1995 and started its operations in the same year. The Company and its subsidiaries (the "Group") are primarily engaged in the wholesale and manufacturing of active pharmaceutical ingredients.

On June 6, 2008, in order to strengthen operational efficiency, enlarge operation scale and minimize management costs, the Company's shareholders resolved to merge with L. C. United Chemical Corporation, effective July 1, 2008, with the Company as the surviving company. L. C. United Chemical Corporation was incorporated in Luzhu Dist., Taoyuan County in July 1984 and is primarily engaged in the manufacturing and sales of ultraviolet absorbers.

After the merger, the Company is primarily engaged in the manufacturing and sales of active pharmaceutical ingredients, including medical active pharmaceutical ingredients and ultraviolet absorbers. The Company's shares were listed in the Taiwan Stock Exchange starting from March 1, 2011. As of December 31, 2023, the Company's authorised capital and paid-in capital were \$1,600,000 and \$1,202,560, respectively, with a par value of \$10 (in dollars) per share.

2. <u>THE DATE OF AUTHORISATION FOR ISSUANCE OF THE FINANCIAL STATEMENTS AND</u> <u>PROCEDURES FOR AUTHORISATION</u>

These consolidated financial statements were authorised for issuance by the Board of Directors on March 12, 2024.

- 3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS
  - (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS<sup>®</sup>") Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by the FSC and became effective from 2023 are as follows:

|   | Effective date by        |
|---|--------------------------|
|   | International Accounting |
| New Standards, Interpretations and Amendments             | Standards Board          |
| Amendments to IAS 1, 'Disclosure of accounting policies'  | January 1, 2023          |
| Amendments to IAS 8, 'Definition of accounting estimates' | January 1, 2023          |

|  | Effective date by        |
|--|--------------------------|
|  | International Accounting |
| New Standards, Interpretations and Amendments  | Standards Board          |
| Amendments to IAS 12, 'Deferred tax related to assets and liabilities arising from a single transaction' | January 1, 2023          |
| Amendments to IAS 12, 'International tax reform - pillar two model rules'                                | May 23, 2023             |

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC and will become effective from 2024 are as follows:

|  | Effective date by        |
|--|--------------------------|
|  | International Accounting |
| New Standards, Interpretations and Amendments                                      | Standards Board          |
| Amendments to IFRS 16, 'Lease liability in a sale and leaseback'                   | January 1, 2024          |
| Amendments to IAS 1, 'Classification of liabilities as current or non-<br>current' | January 1, 2024          |
| Amendments to IAS 1, 'Non-current liabilities with covenants'                      | January 1, 2024          |
| Amendments to IAS 7 and IFRS 7, 'Supplier finance arrangements'                    | January 1, 2024          |

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

#### (3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

|   | Effective date by        |
|---|--------------------------|
|   | International Accounting |
| New Standards, Interpretations and Amendments   | Standards Board          |
| Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets                           | To be determined by      |
| between an investor and its associate or joint venture'                                     | International Accounting |
|   | Standards Board          |
| IFRS 17, 'Insurance contracts'  | January 1, 2023          |
| Amendments to IFRS 17, 'Insurance contracts'  | January 1, 2023          |
| Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information' | January 1, 2023          |
| Amendments to IAS 21, 'Lack of exchangeability'   | January 1, 2025          |

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

#### 4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC<sup>®</sup> Interpretations, and SIC<sup>®</sup> Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

#### (2) Basis of preparation

- A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:
  - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
  - (b) Financial assets at fair value through other comprehensive income financial assets measured at fair value.
  - (c) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC<sup>®</sup> Interpretations, and SIC<sup>®</sup> Interpretations that came into effect endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.
- (3) Basis of consolidation
  - A. Basis for preparation of consolidated financial statements:
    - (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
    - (b) Inter-company transactions, balances and unrealised gains or losses on transactions between

companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.

- (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the noncontrolling interests having a deficit balance.
- (d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.

|   |   |   | Owners       | hip (%)      |                  |

B. Subsidiaries included in the consolidated financial statements:

- Note 1: In the second half of 2023, because Formosa Pharmaceuticals Inc.'s employees gradually exercised share options, the Group's shareholding ratio in Formosa Pharmaceuticals Inc. decreased to 45.84%. Refer to Note 6(30).
- Note 2: On December 31, 2023, although the Company's equity interest held in Formosa Pharmaceuticals Inc. did not exceed 50%, the Company was its single major shareholder and conducted its relevant activities, which met the controlling factor in paragraph 7 of IFRS 10, 'Consolidated Financial Statements'. Accordingly, Formosa Pharmaceuticals Inc. was included in the consolidated financial statements.
- C. Subsidiaries not included in the consolidated financial statements: None.
- D. Adjustments for subsidiaries with different balance sheet dates: None.
- E. Significant restrictions: None.
- F. Subsidiaries that have non-controlling interests that are material to the Group:

As of December 31, 2023 and 2022, the non-controlling interest amounted to \$639,249 and \$275,629, respectively. The information on non-controlling interest and respective subsidiaries is as follows:

|                                    |                 | <br>Non-controlling interest |           |    |          |           |  |

#### (4) Foreign currency translation

Items included in the financial statements of the Group are measured using the currency of the primary economic environment in which the Group operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the Group's functional and presentation currency.

- A. Foreign currency transactions and balances
  - (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
  - (b) Monetary assets and liabilities denominated in foreign currencies at the period end are retranslated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.

- (c) The translation differences of non-monetary assets and liabilities denominated in foreign currencies were parts of gains or losses on fair value. For those non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are retranslated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.
- B. Translation of foreign operations
  - (a) The operating results and financial position of all the group entities and associates that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
    - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
    - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
    - iii. All resulting exchange differences are recognised in other comprehensive income.
  - (b) Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing exchange rates at the balance sheet date.
- (5) Classification of current and non-current items
  - A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
    - (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
    - (b) Assets held mainly for trading purposes;
    - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
    - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
  - B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
    - (a) Liabilities that are expected to be settled within the normal operating cycle;

- (b) Liabilities arising mainly from trading activities;
- (c) Liabilities that are to be settled within twelve months from the balance sheet date;
- (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.
- (6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

#### (7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income. Financial assets at amortised cost or fair value through other comprehensive income are designated as at fair value through profit or loss at initial recognition when they eliminate or significantly reduce a measurement or recognition inconsistency.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Group recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.
- (8) Financial assets at fair value through other comprehensive income
  - A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income.
  - B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
  - C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value. The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. The Group recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the

amount of the dividend can be measured reliably.

(9) Financial liabilities at amortised cost

The Group's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

- (10) Accounts and notes receivable
  - A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
  - B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.
- (11) Impairment of financial assets

For financial assets at amortised cost, at each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

(12) Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(13) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and applicable variable selling expenses.

- (14) Investments accounted for using equity method / subsidiaries and associates
  - A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognised at cost.
  - B. The Company's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Company's share of losses in an associate equals or

exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses. If the company provided endorsement/guarantee and loans to associates or intends to continuously support the investee, the Company shall continue to recognise losses in proportion to its ownership.

#### (15) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

| Buildings and structures       | 2 to 50 years |
|--------------------------------|---------------|
| Machinery and equipment        | 2 to 20 years |
| Utilities equipment            | 7 to 20 years |
| Testing equipment              | 2 to 13 years |
| Pollution-prevention equipment | 5 to 15 years |
| Office equipment               | 2 to 20 years |
| Leasehold improvements         | 3 to 15 years |
| Other equipment                | 2 to 20 years |

- (16) Leasing arrangements (lessee) right-of-use assets/ lease liabilities
  - A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
  - B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments

are comprised of fixed payments, less any lease incentives receivable and variable lease payments that depend on an index or a rate. The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
  - (a) The amount of the initial measurement of lease liability;
  - (b) Any lease payments made at or before the commencement date; and
  - (c) Any initial direct costs incurred by the lessee;

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

## (17) Intangible assets

- A. Computer software is stated at cost and amortized using the straight-line method over the estimated useful life of 3-10 years.
- B. Special technology is stated initially at cost and amortised using the straight-line method over its estimated economic service life of 14~20 years.
- C. Goodwill arises in a business combination accounted for by applying the acquisition method.
- (18) Impairment of non-financial assets
  - A. The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.
  - B. The recoverable amount of goodwill is evaluated periodically. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.Impairment loss of goodwill previously recognised in profit or loss shall not be reversed in the following years.
  - C. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units, or groups of cash-generating units, that is/are expected to benefit from the synergies of the business combination.

## (19) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

# (20) Accounts and notes payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

# (21) Financial liabilities at fair value through loss

- A. Financial liabilities at fair value through profit or loss. Financial liabilities that meet one of the following criteria are designated as at fair value through profit or loss at initial recognition:
  - (a) Hybrid (combined) contracts; or
  - (b) They eliminate or significantly reduce a measurement or recognition inconsistency; or
  - (c) They are managed and their performance is evaluated on a fair value basis, in accordance with a documented risk management policy.
- B. At initial recognition, the Group measures the financial liabilities at fair value. All related transaction costs are recognised in profit or loss. The Group subsequently measures these financial liabilities at fair value with any gain or loss recognised in profit or loss.
- (22) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expires.

## (23) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

## (24) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

- B. Pensions
  - (a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expense when

they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

- (b) Defined benefit plans
  - i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.
  - ii. Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

## (25) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-market vesting conditions.

Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognised is based on the number of equity instruments that eventually vest. The aforementioned grant date of share-based payment agreement is the date when the acquisition price and number of shares were confirmed.

## (26) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively

enacted at the balance sheet date. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.

- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. Deferred tax is determined using tax rates and laws that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.
- D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities.
- (27) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

(28) Dividends

Dividends are recorded in the Group's financial statements in the period in which they are resolved by the Group's shareholders. Cash dividends are recorded as liabilities.

#### (29) <u>Revenue recognition</u>

- A. Sales of goods
  - (a) The Group manufactures and sells active pharmaceutical ingredients and ultraviolet absorber. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.
  - (b) A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

#### B. Research and development revenue

The Group provides research and development of medicine and related services. Revenue from providing services is recognised in the accounting period in which the services are rendered. The revenue from fixed price contract is recognised based on the percentage of the actual services provided as of the balance sheet date to the total services to be provided under the contract. The customer pays at the time specified in the payment schedule. If the services rendered exceed the payment, a contract asset is recognised. If the payments exceed the services rendered, a contract liability is recognised.

## C. Revenue from licencing intellectual property

The Group entered into a licensing of intellectual property contract with a customer to grant a license of patents to the customer. If the license can be distinct from other promised goods or services in the contract, the Group recognises the revenue from licensing when the license transfer to a customer either at a point in time or over time based on the nature of the license granted. The nature of the Group's promise in granting a license is a promise to provide a right to access the Group's intellectual property if the Group undertakes activities that significantly affect the patents to which the customer has rights, the customer is affected by the Group's activities and those activities do not result in the transfer of a good or a service to the customer as they occur. The royalties are recognised as revenue on a straight-line basis throughout the licensing period. In case the abovementioned conditions are not met, the nature of the Group's promise in granting a license is a promise to group's intellectual property and therefore the revenue is recognised when transferring the license to a customer at a point in time.

## (30) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Group's chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

# 5. <u>CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION</u> <u>UNCERTAINTY</u>

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The Group had no significant accounting judgement in relation to the adoption of accounting policies. In addition, the details of significant accounting estimates and assumption uncertainty are as follows:

Critical accounting estimates and assumptions

(1) Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Because of the intensely competitive market and the restriction of expiry date of active pharmaceutical ingredients, the Group assesses the amounts of inventories with normal consumption, obsolescence or without market value as of the balance sheet date, and writes off the inventory cost to net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation. As of December 31, 2023, the carrying amount of inventories was \$1,597,467.

## (2) Impairment assessment of investments accounted for using equity method

The impairment assessment of goodwill arising from premiums on investment relies on the Group's subjective judgement which was based on the discounted value of expected future cash flow of investees to estimate the recoverable amount and the reasonableness of related assumptions. Refer to Note 6(9).

(3) <u>Revenue recognition</u>

The Group recognises revenue from providing services based on the transaction price and the stage of completion, which is measured based on the actual services provided as of the end of the reporting period in proportion to the total services to be provided. The estimated total commissioned service cost will be affected by the estimated total time incurred, compliance costs, etc. The Group reassesses the reasonableness of estimates periodically.

For the year ended December 31, 2023, the amount of commissioned service revenue recognised was \$171,365.

#### 6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

|                                  | Decen | mber 31, 2023 | December 31, 2022 |           |
|----------------------------------|-------|---------------|-------------------|-----------|
| Petty cash and cash on hand      | \$    | 346           | \$                | 554       |
| Demand deposits                  |       | 831,438       |                   | 655,866   |
| Foreign currency demand deposits |       | 469,294       |                   | 511,622   |
| Time deposits                    |       | 224,935       |                   | 111,420   |
|                                  | \$    | 1,526,013     | \$                | 1,279,462 |

A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. The Group has no cash and cash equivalents pledged to others.

(2) Financial assets at fair value through profit or loss

#### (3) Financial assets at fair value through other comprehensive income

- A. The Group has elected to classify equity investments that are considered to be strategic investments as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to \$121,269 and \$61,479 as at December 31, 2023 and 2022, respectively.
- B. Amounts recognised in comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

|  | <br>Year ended December 31, |             |         |  |  |
|--|-----------------------------|-------------|---------|--|--|
|  | <br>2023                    | _           | 2022    |  |  |
| Equity instruments at fair value through other |                             |             |         |  |  |
| comprehensive income                           |                             |             |         |  |  |
| Fair value change recognised in other          |                             |             |         |  |  |
| comprehensive income                           | \$<br>12,995                | ( <u>\$</u> | 53,483) |  |  |

- C. As at December 31, 2023 and 2022, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at fair value through other comprehensive income held by the Group was \$121,269 and \$61,479, respectively.
- D. The Group had no financial assets at fair value through other comprehensive income pledged to others as collateral.
- (4) Financial assets at amortised cost

| Items                            | December 31, 2023 |         | December 31, 2023 December 31, 2 |         |  |
|----------------------------------|-------------------|---------|----------------------------------|---------|--|
| Current items:                   |                   |         |                                  |         |  |
| Time deposits with a maturity of |                   |         |                                  |         |  |
| more than three months           | \$                | 831,410 | \$                               | 153,550 |  |

A. Amounts recognised in profit or loss in relation to financial assets at amortised cost are listed below:

|                 | For the years ende | ed December 31, |
|-----------------|--------------------|-----------------|
|                 | 2023               | 2022            |
| Interest income | 9,219              |                 |

- B. As at December 31, 2023 and 2022, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at amortized cost held by the Company were \$831,410 and \$153,550, respectively.
- C. The Company has no financial assets at amortized cost pledged to others as collateral.
- D. Information relating to credit risk of financial assets at amortized cost is provided in Note 12(2). The counterparties of the Group's investments in certificates of deposits are financial institutions with high credit quality, so the group expects that the probability of counterparty default is remote.
- (5) Notes and accounts receivable, net

|  | Decen | nber 31, 2023 | Decer | nber 31, 2022 |
|--|-------|---------------|-------|---------------|
| Accounts receivable                        | \$    | 955,487       | \$    | 832,623       |
| Less: Allowance for uncollectible accounts | (     | 7,312)        | (     | 33,774)       |
|  | \$    | 948,175       | \$    | 798,849       |

A. The ageing analysis of accounts receivable and notes receivable that were past due but not impaired is as follows:

|                        | <br>December          | : 31 | , 2023              | <br>December          | r 31, 2022 |                     |  |   |
|------------------------|-----------------------|------|---------------------|-----------------------|------------|---------------------|--|---|
|                        | accounts<br>eceivable |      | Notes<br>receivable | Accounts<br>eceivable |            | Notes<br>receivable |  |   |
| Not past due           | \$<br>871,497         | \$   | -                   | \$<br>711,139         | \$         | -                   |  |   |
| Up to 30 days past due | 53,919                |      | -                   | 68,145                |            | -                   |  |   |
| 31~ 90 days past due   | 13,474<br>15,381      |      | -                   | 46,849                |            | -                   |  |   |
| 91~ 180 days past due  |                       |      | 15,381              |                       | -          | -                   |  | - |
| 181 days past due      | <br>1,216             |      |                     | <br>6,490             |            | <u> </u>            |  |   |
|                        | \$<br>955,487         | \$   | -                   | \$<br>832,623         | \$         | -                   |  |   |

The above ageing analysis was based on past due date.

- B. As of December 31, 2023 and 2022, accounts receivable and notes receivable were all from contracts with customers. As of January 1, 2022, the balance of receivables from contracts with customers amounted to \$761,441.
- C. The Group did not hold any collateral for the security of notes and accounts receivable.
- D. As at December 31, 2023 and 2022, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Group's notes and accounts receivable was \$0 and \$0, \$948,175 and \$798,849, respectively.

# E. Information relating to credit risk of accounts receivable and notes receivable is provided in Note 12(2).

Current expenses related to inventories are as follows:

|   | Year ended December 31, |           |    |           |  |  |  |  |  |  |
|---|-------------------------|-----------|----|-----------|--|--|--|--|--|--|
|   |                         | 2023      |    | 2022      |  |  |  |  |  |  |
| Cost of goods sold                              | \$                      | 2,371,441 | \$ | 2,230,987 |  |  |  |  |  |  |
| (Gain from price recovery of inventory) loss on |                         |           |    |           |  |  |  |  |  |  |
| valuation decline and scrapped inventory        | (                       | 31,598)   |    | 74,772    |  |  |  |  |  |  |
| Cost of services                                |                         | 98,492    |    | 70,610    |  |  |  |  |  |  |
| Others  | (                       | 1,216)    | (  | 1,057)    |  |  |  |  |  |  |
|   | \$                      | 2,437,119 | \$ | 2,375,312 |  |  |  |  |  |  |

For the year ended December 31, 2023, the Group reversed a previous inventory write-down which was accounted for as reduction of cost of goods sold as certain inventories which were previously provided with allowance were subsequently sold.

#### (7) Investments accounted for using equity method

|                                  | Decem | Decem         | ber 31, 2022 |        |
|----------------------------------|-------|---------------|--------------|--------|
| A. R. Z Taiwan Limited           | \$    | 169           | \$           | 614    |
| Formosa Labarotories Japan, Inc. |       | <u>19,639</u> |              | 14,811 |
|                                  | \$    | 19,808        | \$           | 15,425 |

- A. The Group's share of profit or loss of associates accounted for using the equity method for the years ended December 31, 2023 and 2022 was \$5,562 and \$7,587, respectively.
- B. The percentage of A. R. Z Taiwan Limited's and Formosa Laboratories Japan's assets, liabilities, income and profit or loss presented in the Group was minimal, and the two companies were not significant associates. Accordingly, the related accounts are not disclosed separately.

Note 1: Prepayments for equipment were shown as "other non-current assets".

Note 2: Including capitalised interests.

Note 3: The significant components of buildings include main plants and ancillary works and improvements, which is/are depreciated over 15~50 and 2~15 years, respectively.

Note 4: The difference of transfer during the year arose from prepayments for equipment transferred to intangible assets and operating expenses.

Note 1: Prepayments for equipment were shown as "other non-current assets".

Note 2: Including capitalised interests.

Note 3: The significant components of buildings include main plants and ancillary works and improvements, which is/are depreciated over 15~50 and 2~15 years, respectively.

Note 4: The difference of transfer during the year arose from prepayments for equipment transferred to intangible assets and operating expenses.

A. Amount of borrowing costs capitalised as part of property, plant and equipment and the range of the interest rates for such capitalisation are as follows:

|  | Year ended December 31, |            |    |               |  |  |  |  |  |
|--|-------------------------|------------|----|---------------|--|--|--|--|--|

Note: It was transferred from prepayments for equipment (shown as 'other non-current assets').

A. Details of amortisation on intangible assets are as follows:

|                                   | Year ended December 31, |        |    |        |  |  |  |  |  |  |  |
|-----------------------------------|-------------------------|--------|----|--------|--|--|--|--|--|--|--|
|                                   |                         | 2023   |    | 2022   |  |  |  |  |  |  |  |
| Operating costs                   | \$                      | 4,774  | \$ | 5,720  |  |  |  |  |  |  |  |
| Administrative expenses           |                         | 2,875  |    | 3,246  |  |  |  |  |  |  |  |
| Research and development expenses |                         | 17,179 |    | 18,071 |  |  |  |  |  |  |  |
|                                   | \$                      | 24,828 | \$ | 27,037 |  |  |  |  |  |  |  |

- B. On December 31, 2023 and 2022, goodwill is allocated to the Group's cash-generating units the subsidiary, Formosa Pharmaceuticals Inc., which was identified according to the operating segment.
- C. Goodwill is allocated to the Group's cash-generating units identified according to operating segment. The recoverable amount of all cash-generating units has been determined based on the value in use which was calculated from the expected economic income of related research and

development projects. The recoverable amount of all cash-generating units calculated using the value-in-use exceeded their carrying amount, so goodwill was not impaired. The key assumptions used for value-in-use calculations are operating profit margin, growth rate and discount rate. Management determined budgeted net operating profit margin based on its expectations of market development. The assumptions used for growth rates are based on expectations of industry; the assumption used for discount rate is the weighted average capital cost of the same industry. For the years ended December 31, 2023 and 2022, the discounts rates were 18.51% and 17.90%, respectively.

#### (10) Other non-current assets

|                                     | Decem | ber 31, 2023 | Decen | nber 31, 2022 |
|-------------------------------------|-------|--------------|-------|---------------|
| Prepayments for business facilities | \$    | 26,870       | \$    | 59,705        |
| Prepayments for investment (Note 1) |       | 52,025       |       | 38,895        |
| Guarantee deposits paid (Note 2)    |       | 4,783        |       | 6,384         |
| Others                              |       | 1,743        |       | 1,515         |
|                                     | \$    | 85,421       | \$    | 106,499       |

Note 1: As the capital increase procedure has not yet been completed, the capital contribution was recognised as prepayments for investment.

Note 2: Refer to Note 8 for the performance guarantees provided.

(11) Financial liabilities at amortised cost

| Items                                  | December 31, 2023 |        | December 31, 2022 |        |
|--|-------------------|--------|-------------------|--------|
| Non-current items:                     |                   |        |                   |        |
| New medicine development revenue share |                   |        |                   |        |
| agreement                              | \$                | 61,410 | \$                | 61,420 |

On April 18, 2022, the Group and EirGenix Inc. entered into a new medicine development revenue share agreement for TSY-0110 (EG12043) (the 'product') to replace the previous signed development and manufacturing related collaboration contract. During the development stage, the raw material of the product shall be provided at a reasonable market price by EirGenix Inc. The Group shall be responsible for the research and development of the product and the implementation of production and manufacturing after the development of the product has been completed. Both parties can launch the product in the global market and shall be entitled to a 50% authorisation income on any revenue or income generated from the development and commercialization of the product. Under the agreement, the Group will share the future authorization income with EirGenix Inc. and is entitled to a consideration of US\$30,000 thousand, which will be received in accordance with the schedule as specified in the contract. As of December 31, 2023, the Group has received US\$2,000 thousand.

# (12) Short-term borrowings

|  |  |               |            | \$ 1,637,756       |

Note 1: Such borrowings can be redrawn during the contract period.

Note 2: Information on guarantees is provided in Note 8.

- A. Under the loan agreements, the Group is required to compute and maintain certain financial covenants based on the annual and semi-annual consolidated financial statements. As of December 31, 2023 and 2022, the Group has met all the required covenants.
- B. As at December 31, 2023 and 2022, the Group had total undrawn borrowing facilities of \$1,605,730 and \$1,551,084, respectively.

#### (16) Pensions

- A. Defined benefit plans
  - (a) The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Act, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Labor Standards Act. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company and its domestic subsidiaries contribute monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company and its domestic subsidiaries would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company and its domestic subsidiaries will make contributions for the deficit by next March.
  - (b) The amounts recognised in the balance sheet are as follows:

|  | December 31, 2023 |         | Decen | nber 31, 2022 |
|--|-------------------|---------|-------|---------------|
| Present value of defined benefit obligations | \$                | 46,778  | \$    | 41,148        |
| Fair value of plan assets                    | ()                | 23,407) | (     | 24,300)       |
| Net defined benefit liability (shown as      |                   |         |       |               |
| "other non-current liabilities")             | \$                | 23,371  | \$    | 16,848        |

|  |  |               | 2023                      |    |                                  |

(d) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitisation products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorised by the Regulator. The Company and domestic subsidiaries have no right to participate in managing and operating that fund and hence the Company and domestic subsidiaries are unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2023 and 2022 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

(e) The principal actuarial assumptions used were as follows:

|                         | Year ended I | Year ended December 31 |  |  |  |
|-------------------------|--------------|------------------------|--|--|--|
|                         | 2023 2022    |                        |  |  |  |
| Discount rate           | 1.196%       | 1.70%                  |  |  |  |
| Future salary increases | 2.50%        | 2.50%                  |  |  |  |

Assumptions regarding future mortality experience are set based on the Taiwan Standard Ordinary Experience Mortality Table for the years ended December 31, 2023 and 2022. Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

|  | Discount rate            |                           | Future sala                   | ry increases   |
|--|--------------------------|---------------------------|-------------------------------|----------------|
|  | Increase 0.25%           | Decrease 0.25%            | Increase 0.25%                | Decrease 0.25% |
| December 31, 2023  |                          |                           |                               |                |

| December 31, 2022<br>Effect on present<br>value of defined |                          |                           |                               | •              |

(f) Expected contributions to the defined benefit pension plans of the Group for the year ending December 31, 2024 amount to \$840.

(g) As of December 31, 2023, the weighted average duration of the retirement plan is 8.46 years.

#### B. Defined contribution plans

- (a) The Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
- (b) The pension costs under the defined contribution pension plans of the Group for the years ended December 31, 2023 and 2022 were \$36,372 and \$34,173, respectively.

#### (17) Share-based payment

A. For the years ended December 31, 2023 and 2022, the Group's share-based payment arrangements were as follows:

|                             |            | Quantity  | Contract | Vesting            |
|-----------------------------|------------|-----------|----------|--------------------|
| Type of arrangement         | Grant date | granted   | period   | conditions         |
| Formosa Pharmaceuticals Inc | 2022.03.09 | 6 hundred | 5 years  | 2~4 years' service |
| Employee stock options      |            | thousand  |          |                    |
|                             |            | shares    |          |                    |

B. Details of the share-based payment arrangements are as follows:

|                                       |                | 2023   |       |                | 2022 |   |  |
|---------------------------------------|----------------|--|-------|----------------|------|---|--|
|                                       | No. of options | Weighted-average<br>exercise price<br>(in dollars) |       | No. of options |      | eighted-average<br>exercise price<br>(in dollars) |  |
| Options outstanding<br>at January 1   | 540,000        | \$   | 40.80 | -              | \$   | -   |  |
| Options granted                       | -              |  | -     | 600,000        |      | 40.80   |  |

| stock options   |            |              |           |            |                |           |               |              |

- Note 1: It was set based on the closing price of target shares in Taipei Exchange on the grant date.
- Note 2: The expected price volatility was estimated based on the closing price of stocks of comparable companies at time length which approximates the expected duration.
- E. Expenses incurred on share-based payment transactions are shown below:

|                |      | Year ended December 31, |    |       |  |  |  |
|----------------|------|-------------------------|----|-------|--|--|--|
|                | 2023 |                         |    | 2022  |  |  |  |
| Equity-settled | \$   | 2,423                   | \$ | 2,587 |  |  |  |

- F. Formosa Pharmaceuticals Inc. employee share options 111 adjusted the performance price of employee share options to NT\$40.8 in accordance with the regulations on employee share options on July 29, 2022. The aforementioned adjustment of performance price did not significantly affect the fair value of employee share options
- G. Formosa Pharmaceuticals Inc. employee share options 111 adjusted the performance price of employee share options to NT\$39.7 in accordance with the regulations on employee share options on June 29, 2023. The aforementioned adjustment of performance price did not significantly affect the fair value of employee share options
- (18) Share capital

As of December 31, 2023, the Group's authorised capital was \$1,600,000, consisting of 160,000 thousand shares of ordinary stock (including 8,000 thousand shares reserved for employee stock options issued by the Group), and the paid-in capital was \$1,202,560 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

(19) Capital surplus

A. Pursuant to the R.O.C. Group Act, capital surplus arising from paid-in capital in excess of par

value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Group has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient

B. Refer to 6(17) for details of capital surplus, share options.

#### (20) Retained earnings

- A. Under the Company's Articles of Incorporation, current year's earnings, if any, shall first be used to pay all taxes and offset prior years' deficit and then 10% of the remaining amount shall be set aside as legal reserve (until the legal reserve equals the paid-in capital), and the Group shall appropriate or reverse special reserve in accordance with laws or regulations of the authority. The remainder, if any, along with prior years' accumulated undistributed earnings shall be distributed as shareholders' bonus or retained for operating requirements which shall be proposed by the Board of Directors and resolved by the shareholders.
- B. The Group's dividend distribution policy was based on the Group's financial structure, operation status and capital budget, etc., along with the consideration of shareholders' interest and balancing dividends. The distribution of earnings shall be in the form of stock or cash or both, and the cash dividends shall account for at least 10% of total dividends distributed.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Group's paid-in capital.
- D.(a) In accordance with the regulations, the Group shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
  - (b) The amounts previously set aside by the Group as special reserve on initial application of IFRSs in accordance with Order No. Financial-Supervisory-Securities-Corporate-1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently. Such amounts are reversed upon disposal or reclassified if the assets are investment property of land, and reversed over the use period if the assets are investment property other than land.
- E. On June 27, 2023 and June 23, 2022, the Group's shareholders resolved the appropriations of earnings for the years ended December 31, 2022 and 2021 as follows:

|                 |    | Year ended December 31, |              |      |    |         |              |                  |  |
|-----------------|----|-------------------------|--------------|------|----|---------|--------------|------------------|--|
|                 |    | 2022                    |              |      |    | 2021    |              |                  |  |
|                 |    | Dividends per share     |              |      |    |         |              | vidends<br>share |  |
|                 | A  | Amount                  | (in dollars) |      | A  | Amount  | (in dollars) |                  |  |

F. On March 12, 2024, the Company's Board of Directors proposed for the appropriations of earnings for the year ended December 31, 2023 as follows:

|                 | Year ended December 31, 202 |         |                     |  |  |
|-----------------|-----------------------------|---------|---------------------|--|--|
|                 |                             |         | Dividends per share |  |  |
|                 | Amount                      |         | (in dollars)        |  |  |
| Legal reserve   | \$                          | 12,111  |                     |  |  |
| Special reserve | (                           | 54,964) |                     |  |  |
| Cash dividends  |                             | 240,512 | \$ 2.00             |  |  |
|                 | <u></u>                     | 197,659 |                     |  |  |

As of March 12, 2024, the aforementioned appropriations of 2023 earnings have not yet been resolved by the shareholders.

Year ended December 31, 2022

#### B. Contract assets and liabilities

The Group has recognised the following revenue-related contract assets and liabilities:

|                      | Decen | nber 31, 2023 | Decei | mber 31, 2022 | January 1, 2022 |         |
|----------------------|-------|---------------|-------|---------------|-----------------|---------|
| Contract liabilities | \$    | 193,102       | \$    | 72,764        | \$              | 109,686 |

The Group recognised the revenue-related contract liabilities arising from advance sales receipts and licensing fee.

Revenue recognised that was included in the contract liability balance at the beginning of the year

|   |    | Year ended December 31, |    |        |  |
|---|----|-------------------------|----|--------|--|
|   |    | 2023                    |    | 2022   |  |
| Revenue recognised that was included in the             |    |                         |    |        |  |
| contract liability balance at the beginning of the year | \$ | 27,238                  | \$ | 90,757 |  |

- C. For the aforementioned technology license, the Group and Grandpharma (China) Co., Ltd. entered into a contract for collaborative development and authorisation agreement on new medicines in China, Hong Kong, Macao, etc. The Group transferred professional knowledge and provided related data to Grandpharma (China) Co., Ltd. who was responsible for clinical development. When Grandpharma (China) Co., Ltd. successfully develops new medicines, it will obtain the right of production and sales in China, Hong Kong and Macao. Under the contract, the Group can charge signing bonus, milestone payment and royalties proportionately to the sales amount in the future. For the years ended December 31, 2023, the Group recognised the licensing revenue of \$31,172, and from the date of signing the contract to December 31, 2023, the accumulated revenue was \$59,023.
- D. The Group and Eyenovia, Inc. (EYEN) entered into a contract for authorisation on new medicines in U.S. The Group will transfer the drug license and the right of production and sales in the US.

Under the contract, the Group can charge EYEN for signing bonus, development milestones and sales milestones. As of December 31, 2023, the Group has received US\$1,000 and 487 thousand ordinary shares of EYEN, shown as 'non-current financial assets at fair value through other comprehensive income' and from the date of signing the contract to December 31, 2023, the Group has not yet recognised any revenue.

#### (23) Interest income

## 7. RELATED PARTY TRANSACTIONS

### (1) Parent and ultimate controlling party

As the Group's shares were widely held by the public, the Group had no ultimate parent company and ultimate controlling party.

### (2) Names of related parties and the relationship with the Group

| Names of related parties         | Relationship with the Company |
|----------------------------------|-------------------------------|
| TaiRx, Inc.                      | Other related party           |
| EirGenix Inc.                    | Other related party           |
| Formosa Labarotories Japan, Inc. | Associate                     |
| A. R. Z Taiwan Limited           | Associate                     |

(3) Significant related party transactions

### A. Operating revenue

|                       |      | Year ended December 31 |      |        |  |  |  |  |
|-----------------------|------|------------------------|------|--------|--|--|--|--|
|                       | 2023 |                        | 2022 |        |  |  |  |  |
| Sales of goods:       |      |                        |      |        |  |  |  |  |
| Associates            | \$   | 73,301                 | \$   | 63,628 |  |  |  |  |
| Other related parties |      | 21                     |      | -      |  |  |  |  |
| -                     | \$   | 73,322                 | \$   | 63,628 |  |  |  |  |

Goods are sold based on the price lists in force and terms that would be available to third parties.

|                       | <br>Year ended December 31, |    |        |  |  |  |
|-----------------------|-----------------------------|----|--------|--|--|--|
|                       | <br>2023                    |    | 2022   |  |  |  |
| Sales of services:    |                             |    |        |  |  |  |
| Other related parties | \$<br>16,302                | \$ | 20,105 |  |  |  |

The Group was appointed to develop the manufacturing process and research method of active pharmaceutical ingredients. As there were no similar transactions for reference, the price cannot be compared with general customers and was based on mutual agreement. The payment term was not significantly different from regular transactions.

#### B. Purchases

|                       | <br>Year ended December 31, |      |        |  |  |  |
|-----------------------|-----------------------------|------|--------|--|--|--|
|                       | <br>2023                    | 2022 | 2      |  |  |  |
| Purchases of goods:   |                             |      |        |  |  |  |
| Other related parties | \$<br>-                     | \$   | 11,190 |  |  |  |

Goods and services are purchased from associates and an entity controlled by key management personnel on normal commercial terms and conditions.

### C. Service expenses (shown as research and development expenses)

|                        | Year ended December 31, |              |       |              |
|------------------------|-------------------------|--------------|-------|--------------|
|                        |                         | 2023         |       | 2022         |
| Other related parties  | \$                      | 5,335        | \$    | 4,343        |
| D. Accounts receivable |                         |              |       |              |
|                        | Decemb                  | per 31, 2023 | Decem | ber 31, 2022 |
| Associates             | \$                      | 7,701        | \$    | 12,086       |
| Other related parties  |                         | 4,136        |       | 1,546        |
| Loss allowance         | (                       | 3)           | (     | 4)           |
|                        | \$                      | 11,834       | \$    | 13,628       |

Receivables from related parties arose from sales of goods and service transactions, except for some service revenue which were recognised based on the percentage-of-completion method. The credit terms were 30-90 days from the date of sale. The receivables are unsecured in nature and bear no interest.

E. Other receivables

F.

|                                 | December  | December 31, 2023 |         | r 31, 2022 |
|---------------------------------|-----------|-------------------|---------|------------|
| Other receivables<br>Associates | <u>\$</u> | 28                | \$      | 27         |
| . Other payables                |           |                   |         |            |

| Unfinished construction and equipment under acceptance   |                   | 433,466   |                   | 974,278   | "  |  |
| Guarantee deposits paid (shown as                        |                   |           |                   |           | Performance guarantee  |  |
| "other non-current assets")                              |                   | 1,659     |                   | 3,225     |  |  |
|  | \$                | 3,842,632 | \$                | 4,018,235 |  |  |

### 9. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNISED CONTRACT COMMITMENTS

(1) Capital expenditure contracted for at the balance sheet date but not yet incurred is as follows:

|                               | December 31, 2023 |         | December 31, 2022 |         |
|-------------------------------|-------------------|---------|-------------------|---------|
| Property, plant and equipment | \$                | 356,208 | \$                | 303,174 |

(2) On August 10, 2017, the Group purchased a 100% equity interest in Activus Pharma. Co., Ltd. by cash of \$107,294 plus a contingent consideration of \$170,097 (US\$5,621 thousand). Activus Pharma Co., Ltd. is primarily engaged in the research and development of medicine of nano grinding technology and is a micromolecule nanotechnology platform company. The above acquisition can strengthen the Group's nanomanufacturing process, and expand market with this technology and existing collaboration.

The aforementioned contingent price will be paid in accordance with the progress for application of clinical testing, patent and new medicine. The maximum amount is US\$8,500 thousand, which will be paid based on a certain percentage of the sales amount as specified in the contract when the product is launched in the market. As of December 31, 2023 and 2022, accumulated payments of the contact price were US\$6,000 thousand and US\$6,000 thousand, respectively. As of December 31, 2023 and 2022, the outstanding payment amounted to \$69,931 (US\$2,278 thousand) and \$33,709 (US\$1,098 thousand), where the considerations for "other current liabilities" are \$69,931 and \$0, respectively, and the rest are listed as "other non-current liabilities".

#### 10. SIGNIFICANT DISASTER LOSS

None.

### 11. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

- (1) Information about the appropriations of 2023 earnings of the Group is provided in Note 6(20)F.
- (2) The Company's board of directors during its meeting on March 12, 2024 resolved to acquire 100% equity interest in American Company SynChem. The total acquisition price is expected to be no more than US\$2,000 thousand.
- (3) On March 4, 2024 (U.S. time), Formosa Pharmaceuticals Inc., a subsidiary of the Company, received a notice from the U.S. Food and Drug Administration (FDA) that clobetasol propionate eye drop suspension 0.05% (APP13007) for the treatment of inflammation and pain after ophthalmic surgery has passed the U.S. FDA new drug application review and obtained marketing approval.

### 12. <u>OTHERS</u>

### (1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain the optimal capital structure, the Group may adjust the amount of dividends paid to shareholders, issue new shares or convertible bonds. The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net liabilities is calculated as total borrowings (including short-term borrowings, short-term notes and bills payable, corporate bonds payable and long-term borrowings (including current portion)) less cash and cash equivalents. Total capital is calculated as 'equity' as shown in the consolidated balance sheet plus net debt.

During the year ended December 31, 2023, the Group's strategy, which was unchanged from 2022, was to maintain the gearing ratio within a certain range. The gearing ratios at December 31, 2023 and 2022 were as follows:

|                                 | December 31, 2023 |            | Dece | ember 31, 2022 |
|---------------------------------|-------------------|------------|------|----------------|
| Total borrowings                | \$                | 4,020,640  | \$   | 3,756,348      |
| Less: Cash and cash equivalents | (                 | 1,526,013) | ()   | 1,279,462)     |
| Net debt                        |                   | 2,494,627  |      | 2,476,886      |
| Total equity                    |                   | 8,210,201  |      | 7,796,273      |
| Total capital                   | \$                | 10,704,828 | \$   | 10,273,159     |
| Gearing ratio                   |                   | 23.30%     |      | 24.11%         |

### B. Financial risk management policies

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's entire risk management policies focus on unpredictable matters in financial market and reducing the potential negative effects on the Group's financial status and financial performance.

- C. Significant financial risks and degrees of financial risks
  - (a) Market risk

### Exchange rate risk

- i. The Group operates internationally and is exposed to exchange rate risk arising from the transactions of the Group used in various functional currency, primarily with respect to the USD and EUR. Foreign exchange rate risk arises from future commercial transactions and recognised assets and liabilities.
- ii. Management has set up a policy to require each entity of the Group to manage their foreign exchange risk against their functional currency. Each entity of the Group is required to hedge their entire foreign exchange risk exposure with the Group treasury. Exchange rate risk is measured through a forecast of highly probable USD and EUR expenditures. Forward foreign exchange contracts are adopted to minimise the volatility of the exchange rate affecting cost of forecast inventory purchases.
- iii. The Group's businesses involve some non-functional currency operations. The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

|                       | December 31, 2023                            |         |               |     |                       |

### Price risk

- i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.
- ii. The Group's investments in equity securities comprise equity instruments issued by domestic and foreign companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, post-tax profit for the years ended December 31, 2023 and 2022 would have increased/decreased by \$19,618 and \$23,751, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased by \$1,213 and \$615, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

- i. The Group's interest rate risk arose from short-term notes and bills payable, short-term and long-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk which was partially offset by cash and cash equivalents held at variable rates. Borrowings issued at fixed rates expose the Group to fair value interest rate risk. During 2023 and 2022, the Group's borrowings at variable rate were mainly denominated in New Taiwan dollars and US Dollars.
- ii. For the years ended December 31, 2023 and 2022, if the borrowing interest rate increased by 0.1% (such as 1% increased to 1.1%) with all other variables held constant, the profit,

net of tax for the years ended December 31, 2023 and 2022 would have decreased by \$1,989 and \$1,805, respectively. The main factor is that increases in interest expense result from floating rate borrowings.

- (b) Credit risk
  - i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and financial assets stated at amortised cost.
  - ii. According to the Group's credit policy, the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
  - iii. The Group adopts the assumption under IFRS 9 that is, the default occurs when the contract payments are past due over 90 days.
  - iv. The Group adopts the following assumption under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition: If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
  - v. The Group classifies customer's accounts receivable in accordance with credit rating of customer. The Group applies the modified approach using a provision roll rate matrix based on the loss rate methodology to estimate the expected credit loss.
  - vi. The Group wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights.
  - vii. The Group used the forecastability of Taiwan Institute of Economic Research boom observation report to adjust historical and timely information to assess the default possibility of accounts receivable. The Group distinguished customers into optimal customers and non-optimal customers based on the customers' rating. Related information is as follows:
    - (i) The loss allowance for optimal customers' accounts was estimated to be 0.03% by using expected loss rate method. As of December 31, 2023 and 2022, the balances of loss allowance were \$195 and \$174, respectively.
    - (ii) The loss allowance for non-optimal customers' accounts was estimated by using provision roll rate matrix. As of December 31, 2023 and 2022, related information

is as follows:

|  | Expected loss rate         | Total book value |                                | Loss       | allowance        |
|--|----------------------------|------------------|--------------------------------|------------|------------------|
| December 31, 2023  |                            |                  |                                |            |                  |
| Not past due   | 1.18%                      | \$               | 304,175                        | \$         | 3,581            |

|                             |    | Year e    | nded Dec | ember 31, | , 2022 |         |  |
|                             | No | n-related |          |           |        |         |  |

|                             | <br>parties  | Related | 1 parties | Total |        |  |
|-----------------------------|--------------|---------|-----------|-------|--------|--|
| Balance at January 1        | \$<br>5,426  | \$      | 4         | \$    | 5,430  |  |
| Reversal of impairment loss | <br>28,348   |         |           |       | 28,348 |  |
| Balance at December 31      | \$<br>33,774 | \$      | 4         | \$    | 33,778 |  |

For provisioned loss on December 31, 2023 and 2022, the impairment losses (reversal gains) arising from customers' contracts are (\$26,463) and \$28,348, respectively.

### (c) Liquidity risk

- i. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational requirements.
- ii. The table below analyses the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the

contractual maturity date for non-derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

Non-derivative financial liabilities:

|                             |               |           | Between 1 and |           | Between 2 and |           |              |         |
|-----------------------------|---------------|-----------|---------------|-----------|---------------|-----------|--------------|---------|

#### (3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
  - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.
  - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
  - Level 3: Unobservable inputs for the asset or liability.

- B. The carrying amounts of the Group's financial instruments not measured at fair value comprise cash and cash equivalents, contract assets, notes receivable, accounts receivable (including related parties), other receivables (including related parties), short-term borrowings, short-term bills payable, notes payable, accounts payable, other payables, corporate bonds payable and longterm borrowings (including current portion) are approximate to their fair values.
- C. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at December 31, 2023 and 2022 are as follows:
  - (a) The related information on the nature of the assets and liabilities is as follows:

| December 31, 2023             | Level 1                                       | Level 2   | Level 3           | Total        |

(b) The methods and assumptions the Group used to measure fair value are as follows:

- i. For the instruments the Group used market quoted prices as their fair values (that is, Level 1), the Group uses the closing price of market quoted price to measure the listed and emerging shares.
- ii. Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques. Some of the listed stocks which were invested by the Group were restricted by lock-up period. Their fair values were determined based on the quoted prices of the same and unrestricted instruments in the active market, adjusted by the restricted effects, and calculated by inputting available market information in the model at the balance sheet date.

| At December 31  | \$<br>135,793                | \$      | 76,455    | \$ | 69,931 | \$ | 22,835  |

E. Treasury segment is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions and periodically reviewed.

F. The following is the qualitative information of significant unobservable inputs to valuation model used in Level 3 fair value measurement:

|  | Fair value at<br>December 31, 2023 | Valuation<br>technique                             | Significant<br>unobservable<br>input | Range<br>(weighted average) | Relationship of<br>inputs<br>to fair value                |
|--|------------------------------------|--|--------------------------------------|-----------------------------|---|

### 13. SUPPLEMENTARY DISCLOSURES

(1) Significant transactions information

- A. Loans to others: Refer to table 1.
- B. Provision of endorsements and guarantees to others: None.
- C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Refer to table 2.
- D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Groups' paid-in capital: None.
- E. Acquisition of real estate reaching NT\$300 million or 20% of paid-in capital or more: Refer to table 3.
- F. Disposal of real estate reaching NT\$300 million or 20% of paid-in capital or more: None.
- G. Purchases or sales of goods from or to related parties reaching NT\$100 million or 20% of paidin capital or more: None.
- H. Receivables from related parties reaching NT\$100 million or 20% of paid-in capital or more: Refer to table 4.
- I. Trading in derivative instruments undertaken during the reporting periods: None.
- J. Significant inter-Group transactions during the reporting periods: Refer to table 5.
- (2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China) : Refer to table 6.

- (3) Information on investments in Mainland China
  - A. Basic information: Refer to table 7.
  - B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: None.
- (4) <u>Major shareholders information</u> Major shareholders information: Refer to table 8.

### 14. SEGMENT INFORMATION

### (1) General information

The Group considers the business from a product type perspective and distinguishes the business into active pharmaceutical ingredients segment and other segments.

### (2) Measurement of segment information

The Group measured the performance of operating segment with the post-tax profit of continuing operations. The accounting policies of the operating segments are in agreement with the significant accounting policies summarised in Note 4.

### (3) Information about segment profit or loss, assets and liabilities

The segment information provided to the chief operating decision-maker for the reportable segments is as follows:

### Year ended December 31, 2023

### (4) <u>Reconciliation for segment income (loss)</u>

The post-tax profit of continuing operations reported to the chief operating decision-maker is measured in a manner consistent with the revenue and expenses in the statement of comprehensive income. Amounts of total assets and total liabilities of segments are not provided to the chief operating decision-maker to make strategic decisions. There is no difference between the presentation of segment report and income statement which were provided to the chief operating decision-maker and accordingly, no reconciliation is required to be disclosed.

Note 1: The numbers filled in for the transaction company in respect of inter-company transactions are as follows:

(1) Parent company is '0'.

(2) The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between transaction company and counterparty is classified into the following three categories; fill in the number of category each case belongs to (If transactions between parent company and subsidiaries or between subsidiaries refer to the same transaction, it is not required to disclose twice. For example, if the parent company has already disclosed its transaction with a subsidiary, then the subsidiary is not required to disclose the transaction; for transactions between two subsidiaries has disclosed the transaction, then the other is not required to disclose the transaction.):

(1) Parent company to subsidiary.

(2) Subsidiary to parent company.

(3) Subsidiary to subsidiary.

Note 3: Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.

Note 4: The aforementioned threshold of disclosure was NT\$10 million above. Aforementioned related party transactions were written-off when preparing the consolidated financial statements.

Note 5: The transaction price and terms were based on mutual agreement.

Note 6: Represents receivables from authorised transaction in 2018 and was based on terms from mutual agreement, and the transaction price was \$196,928. Because it was a business transfer in the Group, the profit or loss was not recognised.

### FORMOSA LABORATORIES, INC. PARENT COMPANY ONLY FINANCIAL STATEMENTS AND INDEPENDENT AUDITORS' REPORT DECEMBER 31, 2023 AND 2022

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

#### INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Formosa Laboratories, Inc.

#### **Opinion**

We have audited the accompanying parent company only balance sheets of Formosa Laboratories, Inc. (the "Company") as at December 31, 2023 and 2022, and the related parent company only statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the parent company only financial statements, including a summary of material accounting policies.

In our opinion, the accompanying parent company only financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2023 and 2022, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

#### **Basis for opinion**

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the parent company only financial statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Company's 2023 parent company only financial statements. These matters were addressed in the context of our audit of the parent company only financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Company's 2023 parent company only financial statements are stated as follows:

#### Key audit matter - inventory valuation

#### Description

Refer to Note 4(11) for accounting policy on inventory valuation, Note 6(5) for details of inventory, and Note 5(1) for uncertainty of accounting estimates and assumptions in relation to inventory valuation.

The Company is primarily engaged in the manufacturing and sales of active pharmaceutical ingredients. Due to the intensely competitive market and the restriction of expiry date of active pharmaceutical ingredients, there is a higher risk in loss on decline in market value of expired or obsolete inventories. As the determination of impairment of inventories involves subjective judgement and estimation uncertainty and considering that the amount of inventories is significant to the financial statements, we identified the inventory valuation as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures in relation to the above key audit matter:

- A. Obtained an understanding of the Company's operations and industry, assessed the reasonableness of the accounting policy in recognising the allowance for inventory valuation losses, and ascertained whether the accounting policy was applied consistently for both periods.
- B. Obtained the net realisable value report of inventories, reviewed the calculation logic used and tested related parameters, including sales and purchase data files and other resource data.
- C. Obtained the expiry information date of each inventory item, checked against related supporting documents, and assessed the reasonableness of the provision of allowance for loss on inventory decline in market value.
- D. Verified the related documents we gathered during the physical inventory count and performed an inquiry with management and related personnel to verify whether the following have been addressed in the inventory list: a. Slow-moving inventory. b. Inventory that is over certain age. and c. Significant amount of damaged inventory.

### Key audit matter - Impairment assessment of investments accounted for using equity method

#### Description

As of December 31, 2023, the amount of the Company's reinvestment in Formosa Pharmaceuticals, Inc. was significant and the reinvestment generated goodwill. Refer to Notes 4(12) and (16) for details of related accounting policies, and Notes 5(2) and 6(6) for uncertainty of accounting estimates and assumptions in relation to impairment assessment of investments accounted for using equity method.

The Company measured the recoverable amount of cash generating unit by discounting estimated future cash flows of related research and development projects as basis for impairment assessment. As the amount of investments accounted for using equity method was significant and the valuation model used in the impairment assessment involves significant accounting estimates, the recoverable amount was determined based on projected

future cash flows, we considered the impairment assessment of investments accounted for using equity method as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures in relation to the above key audit matter:

- A. Obtained an understanding of the estimation process of projected cash flows to ascertain whether it was in agreement with the budget of the investee.
- B. Obtained the appraisal report of appraisers who were appointed by the management and performed the following audit procedures:
  - (1) Assessed whether the valuation model was reasonably matched with its industry, environment and assets to be valued.
  - (2) Compared the expected growth rate and net operating interest rate used in the estimation of future cash flows with historical result, economic documents and other external data.
  - (3) Assessed the discount rate used and compared with capital cost assumption of cashgenerating units and return rates of similar assets.
- C. Confirmed and measured the recoverable amount of cash-generating units by discounting estimated future cash flows to determine whether the recoverable amount exceeds the book value.

# Responsibilities of management and those charged with governance for the parent company only financial statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including supervisors, are responsible for overseeing the Company's financial reporting process.

## Auditors' responsibilities for the audit of the parent company only financial statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Yen, Yu-Fang Teng, Sheng-Wei For and on Behalf of PricewaterhouseCoopers, Taiwan March 12, 2024

The accompanying parent company only financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying parent company only financial statements and independent auditors' report are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

### FORMOSA LABORATORIES, INC. NOTES TO THE PARENT COMPANY ONLY FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

#### 1. HISTORY AND ORGANIZATION

Formosa Laboratories, Inc. (the "Company") was incorporated as a company limited by shares under the provisions of the Company Law of the Republic of China (R.O.C.) in December 1995 and started its operations in the same year. The Company is primarily engaged in the wholesale and manufacturing of active pharmaceutical ingredients.

On June 6, 2008, in order to strengthen operational efficiency, enlarge operation scale and minimize management costs, the Company's shareholders resolved to merge with L. C. United Chemical Corporation, effective July 1, 2008, with the Company as the surviving company L. C. United Chemical Corporation was incorporated in Luzhu Dist., Taoyuan County in July 1984 and is primarily engaged in the manufacturing and sales of ultraviolet absorbers.

After the merger, the Company is primarily engaged in the manufacturing and sales of active pharmaceutical ingredients, including medical active pharmaceutical ingredients and ultraviolet absorbers. The Company's shares were listed in the Taiwan Stock Exchange starting from March 1, 2011. As of December 31, 2023, the Company's authorised capital and paid-in capital were \$1,600,000 and \$1,202,560, respectively, with a par value of \$10 (in dollars) per share.

#### 2. <u>THE DATE OF AUTHORISATION FOR ISSUANCE OF THE FINANCIAL STATEMENTS AND</u> <u>PROCEDURES FOR AUTHORISATION</u>

These financial statements were authorised for issuance by the Board of Directors on March 12, 2024.

#### 3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS®") Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by the FSC and became effective from 2023 are as follows:

|   | Effective date by        |
|---|--------------------------|
|   | International Accounting |
| New Standards, Interpretations and Amendments                         | Standards Board          |
| Amendments to IAS 1, 'Disclosure of accounting policies'              | January 1, 2023          |
| Amendments to IAS 8, 'Definition of accounting estimates'             | January 1, 2023          |
| Amendments to IAS 12, 'Deferred tax related to assets and liabilities | January 1, 2023          |
| arising from a single transaction'                                    |                          |

|   | Effective date by        |
|---|--------------------------|
|   | International Accounting |
| New Standards, Interpretations and Amendments                             | Standards Board          |
| Amendments to IAS 12, 'International tax reform - pillar two model rules' | May 23, 2023             |

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments endorsed by the FSC and will become effective from 2024 are as follows:

|  | Effective date by        |
|--|--------------------------|
|  | International Accounting |
| New Standards, Interpretations and Amendments                          | Standards Board          |
| Amendments to IFRS 16, 'Lease liability in a sale and leaseback'       | January 1, 2024          |
| Amendments to IAS 1, 'Classification of liabilities as current or non- | January 1, 2024          |
| current'   |                          |
| Amendments to IAS 1, 'Non-current liabilities with covenants'          | January 1, 2024          |
| Amendments to IAS 7 and IFRS 7, 'Supplier finance arrangements'        | January 1, 2024          |

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

#### (3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

|  | Effective date by        |
|--|--------------------------|
|  | International Accounting |
| New Standards, Interpretations and Amendments                      | Standards Board          |
| Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets  | To be determined by      |
| between an investor and its associate or joint venture'            | International Accounting |
|  | Standards Board          |
| IFRS 17, 'Insurance contracts'                                     | January 1, 2023          |
| Amendments to IFRS 17, 'Insurance contracts'                       | January 1, 2023          |
| Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 - | January 1, 2023          |
| comparative information'   |                          |
| Amendments to IAS 21, 'Lack of exchangeability'                    | January 1, 2025          |

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

#### 4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these parent company only financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The parent company only financial statements of the Company have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC<sup>®</sup> Interpretations, and SIC<sup>®</sup> Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

#### (2) Basis of preparation

- A. Except for the following items, the parent company only financial statements have been prepared under the historical cost convention:
  - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
  - (b) Financial assets at fair value through other comprehensive income financial assets measured at fair value.
  - (c) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC<sup>®</sup> Interpretations, and SIC<sup>®</sup> Interpretations that came into effect endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the parent company only financial statements are disclosed in Note 5.
- (3) Foreign currency translation

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the "functional currency"). The parent company only financial statements are presented in New Taiwan dollars, which is the Company's functional and presentation currency.

- A. Foreign currency transactions and balances
  - (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.

- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are retranslated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- (c) The translation differences of non-monetary assets and liabilities denominated in foreign currencies were parts of gains or losses on fair value. For those non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are retranslated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.
- B. Translation of foreign operations

The operating results and financial position of all the group entities and associates that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
- (b) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- (c) All resulting exchange differences are recognised in other comprehensive income.
- (4) Classification of current and non-current items
  - A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
    - (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
    - (b) Assets held mainly for trading purposes;
    - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
    - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
  - B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
    - (a) Liabilities that are expected to be settled within the normal operating cycle;

- (b) Liabilities arising mainly from trading activities;
- (c) Liabilities that are to be settled within twelve months from the balance sheet date;
- (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.
- (5) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

#### (6) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income. Financial assets at amortised cost or fair value through other comprehensive income are designated as at fair value through profit or loss at initial recognition when they eliminate or significantly reduce a measurement or recognition inconsistency.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Company subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Company recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

#### (7) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Company has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value. The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. The Company recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and

the amount of the dividend can be measured reliably.

#### (8) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.
- (9) Impairment of financial assets

For financial assets at amortised cost, at each reporting date, the Company recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Company recognises the impairment provision for lifetime ECLs.

#### (10) Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(11) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and applicable variable selling expenses.

#### (12) Investments accounted for using equity method / subsidiaries and associates

- A. Subsidiaries are all entities (including structured entities) controlled by the Company. The Company controls an entity when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.
- B. Inter-company transactions, balances and significant unrealised gains or losses on transactions between companies within the Company are eliminated. Accounting policies of subsidiaries were in consistent with the policies adopted by the Company.
- C. The Company's share of its subsidiaries' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Company's share of losses in a subsidiary equals or

exceeds its interest in the subsidiary, the Company continues to recognise losses in proportion to its ownership.

- D. Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.
- E. Associates are all entities over which the Company has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognised at cost.
- F. The Company's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses. If the company provided endorsement/guarantee and loans to associates or intends to continuously support the investee, the Company shall continue to recognise losses in proportion to its ownership.
- G. In accordance with "Regulations Governing the Preparation of Financial Reports by Securities Issuers", the profit or loss and other comprehensive income or loss presented on the parent company only financial statements are consistent with those presented on the consolidated financial statements. In addition, owner's equity presented on the parent company only financial statements is consistent with equity attributable to owners of parent presented on the consolidated financial statements.

#### (13) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.

D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

| Buildings and structures       | 2 to 50 years |
|--------------------------------|---------------|
| Machinery and equipment        | 2 to 15 years |
| Utilities equipment            | 7 to 20 years |
| Testing equipment              | 2 to 13 years |
| Pollution-prevention equipment | 5 to 15 years |
| Office equipment               | 2 to 10 years |
| Leasehold improvements         | 5 to 15 years |
| Other equipment                | 2 to 20 years |

(14) Leasing arrangements (lessee) - right-of-use assets/lease liabilities

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of fixed payments, less any lease incentives receivable and variable lease payments that depend on an index or a rate. The Company subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.
- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
  - (a) The amount of the initial measurement of lease liability;
  - (b) Any lease payments made at or before the commencement date; and
  - (c) Any initial direct costs incurred by the lessee;

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

#### (15) Intangible assets

Computer software is stated at cost and amortized using the straight-line method over the estimated useful life of 3-10 years.

#### (16) Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

#### (17) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

#### (18) Accounts and notes payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

#### (19) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expires.

#### (20) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

#### (21) Employee benefits

#### A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

#### B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

- (b) Defined benefit plans
  - i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.
  - ii. Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

#### (22) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the parent company only balance sheet. Deferred tax is determined using tax rates and laws that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the

related deferred tax asset is realised or the deferred tax liability is settled.

- D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities.

#### (23) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

#### (24) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are resolved by the Company's shareholders. Cash dividends are recorded as liabilities.

#### (25) <u>Revenue recognition</u>

- A. Sales of goods
  - (a) The Company manufactures and sells active pharmaceutical ingredients and ultraviolet absorber. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied.
  - (b) A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.
- B. Research and development revenue

The Group provides research and development of medicine and related services. Revenue from providing services is recognised in the accounting period in which the services are rendered. The revenue from fixed price contract is recognised based on the percentage of the actual services provided as of the balance sheet date to the total services to be provided under the contract. The customer pays at the time specified in the payment schedule. If the services rendered exceed the payment, a contract asset is recognised. If the payments exceed the services rendered, a contract liability is recognised.

#### 5. <u>CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION</u> <u>UNCERTAINTY</u>

The preparation of these parent company only financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The Company had no significant accounting judgement in relation to the adoption of accounting policies. In addition, the details of significant accounting estimates and assumption uncertainty are as follows:

Critical accounting estimates and assumptions

(1) Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Company must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Because of the intensely competitive market and the restriction of expiry date of active pharmaceutical ingredients, the Company assesses the amounts of inventories with normal consumption, obsolescence or without market value as of the balance sheet date, and writes off the inventory cost to net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of December 31, 2023, the carrying amount of inventories was \$1,597,467.

#### (2) Impairment assessment of investments accounted for using equity method

The assessment procedure of goodwill impairment which was generated from premiums on investment relies on the Company's subjective judgement which is based on the discounted value of expected future cash flows of investees to estimate the recoverable amount and the reasonableness of related assumptions.

#### (3) <u>Revenue recognition</u>

The Company recognises revenue from providing services based on the transaction price and the stage of completion, which is measured based on the actual services provided as of the end of the reporting period in proportion to the total services to be provided. The estimated total commissioned service cost will be affected by the estimated total time incurred, compliance costs, etc. The Company reassesses the reasonableness of estimates periodically.

For the year ended December 31, 2023, the amount of commissioned service revenue recognised was \$181,821.

#### 6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

|                                  | Decen | mber 31, 2023 | December 31, 2022 |         |  |  |
|----------------------------------|-------|---------------|-------------------|---------|--|--|
| Petty cash and cash on hand      | \$    | 326           | \$                | 534     |  |  |
| Demand deposits                  |       | 497,875       |                   | 428,785 |  |  |
| Foreign currency demand deposits |       | 396,731       |                   | 504,254 |  |  |
| Time deposits                    |       | 224,935       |                   | 61,420  |  |  |
|                                  | \$    | 1,119,867     | \$                | 994,993 |  |  |

A. The Company transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. The Company has no cash and cash equivalents pledged to others.

#### (2) Financial assets at fair value through profit or loss

|   | Decen | nber 31, 2023 | Decem | ber 31, 2022 |
|---|-------|---------------|-------|--------------|
| Current items:                                      |       |               |       |              |
| Financial assets mandatorily measured at fair value |       |               |       |              |

Note 1: Prepayments for equipment were shown as "other non-current assets".

Note 2: Including capitalised interests.

Note 3: The significant components of buildings include main plants and ancillary works and improvements, which is/are depreciated over 15~50 and 2~15 years, respectively.

Note 4: The difference of transfer during the year arose from prepayments for equipment transferred to intangible assets and operating expenses.

Note 1: Prepayments for equipment were shown as "other non-current assets".

Note 2: Including capitalised interests.

Note 3: The significant components of buildings include main plants and ancillary works and improvements, which is/are depreciated over 15~50 and 2~15 years, respectively.

Note 4: The difference of transfer during the year arose from prepayments for equipment transferred to intangible assets and operating expenses.

A. Amount of borrowing costs capitalised as part of property, plant and equipment and the range of the interest rates for such capitalisation are as follows:

|  | Year ended December 31, |            |    |               |  |  |  |  |
|--|-------------------------|------------|----|---------------|--|--|--|--|
|  |                         | 2023       |    | 2022          |  |  |  |  |
| Amount capitalised                             | \$                      | 43,002     | \$ | 33,498        |  |  |  |  |
| Range of the interest rates for capitalisation | 1.815                   | 5%~1.8435% |    | 1.159%~1.531% |  |  |  |  |

B. Information about the property, plant and equipment that were pledged to others as collateral is provided in Note 8.

#### (8) Other non-current assets

|                                     | December 31, 2023 |        | December 31, 2022 |         |
|-------------------------------------|-------------------|--------|-------------------|---------|
| Prepayments for business facilities | \$                | 26,870 | \$                | 59,705  |
| Guarantee deposits paid (Note 1)    |                   | 4,130  |                   | 5,711   |
| Prepayments for investment (Note 2) |                   | 52,025 |                   | 38,895  |
| Others                              |                   | 1,743  | _                 | 1,515   |
|                                     | \$                | 84,768 | \$                | 105,826 |

Note 1: Refer to Note 8 for the performance guarantees provided.

Note 2: As the capital increase procedure has not yet been completed, the capital contribution was recognised as prepayments for investment.

Note 1: Such borrowings can be redrawn during the contract period.

Note 2: Information on guarantees is provided in Note 8.

- A. Under the loan agreements, the Company is required to compute and maintain certain financial covenants based on the annual and semi-annual consolidated financial statements. As of December 31, 2023 and 2022, the Company has met all the required covenants.
- B. As at December 31, 2023 and 2022, the Company had total undrawn borrowing facilities of \$1,605,730 and \$1,551,084, respectively.

### (13) <u>Pensions</u>

- A. Defined benefit plans
  - (a) The Company has a defined benefit pension plan in accordance with the Labor Standards Act, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Labor Standards Act. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contributions for the deficit by next March.
  - (b) The amounts recognised in the balance sheet are as follows:

|  | Decen | nber 31, 2023 | December 31, 2022 |         |  |
|--|-------|---------------|-------------------|---------|--|
| Present value of defined benefit obligations | \$    | 46,778        | \$                | 41,148  |  |
| Fair value of plan assets                    | (     | 23,407)       | ()                | 24,300) |  |
| Net defined benefit liability (shown as      |       |               |                   |         |  |
| "other non-current liabilities")             | \$    | 23,371        | \$                | 16,848  |  |

| (c) | ) Movements | in net | defined | benefit | liabilities | are as follows: |

| At December 31                         | \$  | 41,148                     | (\$        | 24,300)                   | \$ | 16,848                        |

(d) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-thecounter, or private placement equity securities, investment in domestic or foreign real estate securitisation products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorised by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2023 and 2022 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

(e) The principal actuarial assumptions used were as follows:

|                         | Year ended December 31, |       |  |  |  |
|-------------------------|-------------------------|-------|--|--|--|
|                         | 2023                    | 2022  |  |  |  |
| Discount rate           | 1.196%                  | 1.70% |  |  |  |
| Future salary increases | 2.50%                   | 2.50% |  |  |  |

Assumptions regarding future mortality experience are set based on the Taiwan Standard Ordinary Experience Mortality Table for the years ended December 31, 2023 and 2022.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

|  | Disco                   | unt rate                   | Future sala                   | ry increases                   |  |

(f) Expected contributions to the defined benefit pension plans of the Company for the year ending December 31, 2024 amount to \$840.

(g) As of December 31, 2023, the weighted average duration of the retirement plan is 8.46 years.

## B. Defined contribution plan

- (a) The Company has established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
- (b) The pension costs under defined contribution pension plan of the Company for the years ended December 31, 2023 and 2022 were \$35,326 and \$33,182, respectively.

## (14) Share capital

As of December 31, 2023, the Company's authorised capital was \$1,600,000, consisting of 160,000 thousand shares of ordinary stock (including 8,000 thousand shares reserved for employee stock options issued by the Company), and the paid-in capital was \$1,202,560, with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

## (15) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

## (16) <u>Retained earnings</u>

- A. Under the Company's Articles of Incorporation, current year's earnings, if any, shall first be used to pay all taxes and offset prior years' deficit and then 10% of the remaining amount shall be set aside as legal reserve (until the legal reserve equals the paid-in capital), and the Company shall appropriate or reverse special reserve in accordance with laws or regulations of the authority. The remainder, if any, along with prior years' accumulated undistributed earnings shall be distributed as shareholders' bonus or retained for operating requirements which shall be proposed by the Board of Directors and resolved by the shareholders.
- B. The Company's dividend distribution policy was based on the Company's financial structure, operation status and capital budget, etc., along with the consideration of shareholders' interest and balancing dividends. The distribution of earnings shall be in the form of stock or cash or both, and the cash dividends shall account for at least 10% of total dividends distributed.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their

share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.

- D.(a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
  - (b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Order No. Financial-Supervisory-Securities-Corporate-1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently. Such amounts are reversed upon disposal or reclassified if the assets are investment property of land, and reversed over the use period if the assets are investment property other than land.
- E. On June 27, 2023 and June 23, 2022, the Company's shareholders resolved the appropriations of earnings for the years ended December 31, 2022 and 2021, as follows:

|  |          | Year ended December 31,                      |         |          |                               |     |                              |  |
|--|----------|--|---------|----------|-------------------------------|-----|------------------------------|--|
|  |          | 20   | 22      |          | 20                            | 21  |                              |  |
|  | A        | Dividends<br>per share<br>mount (in dollars) |         |          | Amount                        | per | vidends<br>share<br>dollars) |  |
| Legal reserve<br>Special reserve<br>Cash dividends | \$<br>\$ | 40,979<br>54,964<br>120,256<br>216,199       | \$ 1.00 | \$<br>\$ | 125,044<br>240,512<br>365,556 | \$  | 2.00                         |  |

F. On March 12, 2024, the Company's Board of Directors proposed the appropriation of earnings for the year ended December 31, 2023 as follows:

|                 | <u> </u>  | Year ended December 31, 2023 |              |  |
|-----------------|-----------|------------------------------|--------------|--|
|                 |           |                              | Dividends    |  |
|                 |           |                              | per share    |  |
|                 |           | Amount                       | (in dollars) |  |
| Legal reserve   | \$        | 12,111                       |              |  |
| Special reserve | (         | 54,964)                      |              |  |
| Cash dividends  |           | 240,512                      | \$ 2.0       |  |
|                 | <u>\$</u> | 197,659                      |              |  |

As of March 12, 2024, the aforementioned appropriations of 2023 earnings have not yet been resolved by the shareholders.

- A. In accordance with the Articles of Incorporation, an amount equal to at least 5% of the Company's distributable profit of the current year shall be appropriated as employees' compensation and not higher than 2% as directors' and supervisors' remuneration.
- B. For the years ended December 31, 2023 and 2022, employees' compensation was accrued at \$15,944 and \$28,500, respectively; while directors' and supervisors' remuneration was accrued at \$3,900 and \$7,998, respectively. The aforementioned amounts were recognised in salary expenses. For the year ended December 31, 2023, the Company has accrued the compensation and remuneration according to the profit of current year and the percentage range as regulated in the Company's Articles of Incorporation.

On March 12, 2024, the employees' compensation and directors' and supervisors' remuneration resolved by the Board of Directors were \$15,944 and \$3,900, respectively, and the employees' compensation will be paid in cash.

- C. On March 9, 2023, the employees' compensation and directors' and supervisors' remuneration resolved by the Board of Directors were \$28,500 and \$7,998, respectively and the employees' compensation will be distributed in the form of cash.
- D. Information about employees' compensation and directors' and supervisors' remuneration of the Company as resolved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

## (25) Income tax

- A. Income tax expense
  - (a) Components of income tax:

|                                       | Year ended December 31 |         |    |         |  |  |  |  |

| Sales of goods:       |      |                         |    |        |  |  |  |
| Subsidiaries          | \$   | 6,559                   | \$ | 24,393 |  |  |  |
| Associates            |      | 73,301                  |    | 63,628 |  |  |  |
| Other related parties |      | 21                      |    | -      |  |  |  |
| -                     | \$   | 79,881                  | \$ | 88,021 |  |  |  |

Goods are sold based on the price lists in force and terms that would be available to third parties.

|                       | Year ended December 31, |        |    |        |
|-----------------------|-------------------------|--------|----|--------|
|                       |                         | 2023   |    | 2022   |
| Sales of services:    |                         |        |    |        |
| Subsidiaries          | \$                      | 10,456 | \$ | 15,563 |
| Other related parties |                         | 16,302 |    | 20,105 |
|                       | \$                      | 26,758 | \$ | 35,668 |

The Company was appointed to develop the manufacturing process and research method of active pharmaceutical ingredients. As there were no similar transactions for reference, the price cannot be compared with general customers and was based on mutual agreement. The payment term was not significantly different from regular transactions.

## B. Purchases

|                       | Year ended December 31, |  |      |        |  |
|-----------------------|-------------------------|--|------|--------|--|
|                       | 2023                    |  |      | 2022   |  |
| Purchases of goods:   |                         |  |      |        |  |
| Other related parties | \$                      |  | - \$ | 11,190 |  |

Goods and services are purchased from associates and an entity controlled by key management personnel on normal commercial terms and conditions.

## C. Accounts receivable

|                       | Deceml | December 31, 2022 |    |        |  |
|-----------------------|--------|-------------------|----|--------|--|
| Subsidiaries          | \$     | 3,426             | \$ | 9,180  |  |
| Associates            |        | 7,701             |    | 12,086 |  |
| Other related parties |        | 4,136             |    | 1,546  |  |
| Loss allowance        | (      | 3) (              | (  | 4)     |  |
|                       | \$     | 15,260            | \$ | 22,808 |  |

Receivables from related parties arose from sales of goods and service transactions, except for some service revenue which were recognised based on the percentage-of-completion method. The

credit terms were 30-90 days from the date of sale. The receivables are unsecured in nature and bear no interest.

D. Contract liabilities

|   | Decemb | er 31, 2023 | Decembe | er 31, 2022 |
|---|--------|-------------|---------|-------------|
| Current contract liabilities<br>Formosa Pharmaceuticals. Inc. | \$     | 11,570      | \$      | 19,665      |
|   | Ψ      | 11,570      | Ψ       | 17,005      |
| C. Other income and other receivables                         |        |             |         |             |
|   | Decemb | er 31, 2023 | Decembe | er 31, 2022 |
|   |        |             |         |             |
| Other receivables (Note)                                      |        |             |         |             |
| Other receivables (Note)<br>Subsidiaries                      | \$     | 969         | \$      | 571         |
| × ,   | \$     | 969<br>28   | \$      | 571<br>27   |

Note: Other receivables arose from providing administrative resource management service provided, and the collection terms were based on the mutual agreement and collected according to the contract period. For the years ended December 31, 2023 and 2022, the Company recognised other income from subsidiaries and associates in the amounts of \$1,894, \$151 and \$1,060, \$98, respectively.

D. Other payables

|  | \$    | 3,842,632     | \$   | 4,018,235      |  |

## 9. <u>SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNISED CONTRACT COMMITMENTS</u> Capital expenditure contracted for at the balance sheet date but not yet incurred is as follows:

|                               | December | 31, 2023 | December | 31, 2022 |
|-------------------------------|----------|----------|----------|----------|
| Property, plant and equipment | \$       | 356,208  | \$       | 303,174  |

## 10. <u>SIGNIFICANT DISASTER LOSS</u>

None.

## 11. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

- (1) Information about the appropriations of 2023 earnings of the Group is provided in Note 6(16)F.
- (2) The Company's board of directors during its meeting on March 12, 2024 resolved to acquire 100% equity interest in American Company SynChem. The total acquisition price is expected to be no more than US\$2,000 thousand.
- (3) On March 4, 2024 (U.S. time), Formosa Pharmaceuticals, Inc., a subsidiary of the Company, received a notice from the U.S. Food and Drug Administration (FDA) that clobetasol propionate eye drop suspension 0.05% (APP13007) for the treatment of inflammation and pain after ophthalmic surgery has passed the U.S. FDA new drug application review and obtained marketing approval.

## 12. OTHERS

## (1) Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain the optimal capital structure, the Company may adjust the amount of dividends paid to shareholders, issue new shares or convertible bonds. The Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net liabilities is calculated as total borrowings (including short-term borrowings, short-term notes and bills payable, corporate bonds payable and long-term borrowings (including current portion)) less cash and cash equivalents. Total capital is calculated as 'equity' as shown in the parent company only balance sheet plus net debt.

During the year ended December 31, 2023, the Company's strategy, which was unchanged from 2022, was to maintain the gearing ratio within a certain range. The gearing ratios at December 31, 2023 and 2022 were as follows:

|   | December 31, 202. | 3 December 31, 2022   |
|---|-------------------|-----------------------|
| Total borrowings  | \$ 4,020,64       | 0 \$ 3,756,348        |
| Less: Cash and cash equivalents   | (1,119,86         | 67) (994,993)         |
| Net debt  | 2,900,77          | 2,761,355             |
| Total equity  | 7,570,95          | 7,520,644             |
| Total capital   | \$ 10,471,72      | <u>    10,281,999</u> |
| Gearing ratio   | 27.70%            | <u>6</u> 26.86%       |

## B. Financial risk management policies

The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Company's entire risk management policies focus on unpredictable matters in financial market and reducing the potential negative effects on the Company's financial status and financial performance.

- C. Significant financial risks and degrees of financial risks
  - (a) Market risk

Exchange rate risk

- i. The Company operates internationally and is exposed to exchange rate risk arising from the transactions of the Company used in various functional currency, primarily with respect to the USD and EUR. Foreign exchange rate risk arises from future commercial transactions and recognised assets and liabilities.
- ii. Management has set up a policy to require each entity of the Company to manage their foreign exchange risk against their functional currency. Each entity of the Company is required to hedge their entire foreign exchange risk exposure with the Company treasury. Exchange rate risk is measured through a forecast of highly probable USD and EUR expenditures. Forward foreign exchange contracts are adopted to minimise the volatility of the exchange rate affecting cost of forecast inventory purchases.
- iii. The Company's businesses involve some non-functional currency operations. The information on assets and liabilities denominated in foreign currencies whose values

| would be materially affected by the exchange rate fluctuations is | s as follows: |
|---|---------------|

v. Analysis of foreign currency market risk arising from significant foreign exchange variation:

## Price risk

- i. The Company's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.
- ii. The Company's investments in equity securities comprise equity instruments issued by domestic and foreign companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, post-tax profit for the years ended December 31, 2023 and 2022 would have increased/decreased by \$19,605

and \$23,731, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased by \$940 and \$615, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

- i. The Company's interest rate risk arose from short-term notes and bills payable, short-term and long-term borrowings. Borrowings issued at variable rates expose the Company to cash flow interest rate risk which was partially offset by cash and cash equivalents held at variable rates. Borrowings issued at fixed rates expose the Company to fair value interest rate risk. During 2023 and 2022, the Company's borrowings at variable rate were mainly denominated in New Taiwan dollars and US Dollars.
- ii. For the years ended December 31, 2023 and 2022, if the borrowing interest rate increased by 0.1% (such as 1% increased to 1.1%) with all other variables held constant, the profit, net of tax for the years ended December 31, 2023 and 2022 would have decreased by \$1,989 and \$1,805, respectively. The main factor is that increases in interest expense result from floating rate borrowings.
- (b) Credit risk
  - i. Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and financial assets stated at amortised cost.
  - ii. According to the Company's credit policy, the Company is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
  - iii. The Company adopts the assumption under IFRS 9, that is, the default occurs when the contract payments are past due over 90 days.
  - iv. The Company adopts the following assumption under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition: If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
  - v. The Company classifies customer's accounts receivable in accordance with credit rating of customer. The Company applies the modified approach using a provision roll rate matrix based on the loss rate methodology to estimate the expected credit loss.

- vi. The Company wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Company will continue executing the recourse procedures to secure their rights.
- vii. The Company used the forecastability of Taiwan Institute of Economic Research boom observation report to adjust historical and timely information to assess the default possibility of accounts receivable. The Company distinguished customers into optimal customers and non-optimal customers based on the customers' rating. Related information is as follows:
  - (i) The loss allowance for optimal customers' accounts was estimated to be 0.03% by using expected loss rate method. As of December 31, 2023 and 2022, the balances of loss allowance were \$195 and \$174, respectively.
  - (ii) The loss allowance for non-optimal customers' accounts was estimated by using provision roll rate matrix. As of December 31, 2023 and 2022, related information is as follows:

|                        | Expected loss rate | Tota | l book value | Loss allowance |           |
|------------------------|--------------------|------|--------------|----------------|-----------|
| December 31, 2023      |                    |      |              |                |           |
| Not past due           | 1.18%              | \$   | 304,175      | \$             | 3,581     |
| Up to 30 days past due | 16.65%             |      | 8,978        |                | 1,494     |
| 31~90 days past due    | 55.92%~100.00%     |      | -            |                | -         |
| 91~180 days past due   | 100.00%            |      | 829          |                | 829       |

|                        | Expected loss rate | Tota | l book value | Loss           | allowance |
| December 31, 2022      |                    |      |              |                |           |
| Not past due           | 0.35%              | \$   | 211,197      | \$             | 734       |
| Up to 30 days past due | 48.46%             |      | 44,400       |                | 21,518    |
| 31~90 days past due    | 100.00%            |      | 11,352       |                | 11,352    |
| 91~180 days past due   | 100.00%            |      | -            |                | -         |
| 181 days past due      | 100.00%            |      | -            |                | -         |
| Total                  |                    | ¢    | 266,949      | \$             | 33,604    |

viii. Movements in relation to the Company applying the modified approach to provide loss allowance for accounts receivable are as follows:

|                            |     | Year        | ended | December 31, 2 | 2023      |
|----------------------------|-----|-------------|-------|----------------|-----------|
|                            | 1   | Non-related |       |                |           |
|                            |     | parties     | Rel   | ated parties   | Total     |
| Balance at January 1       | \$  | 33,774      | \$    | 4              | \$ 33,778 |
| Reversal of impairment los | s ( | 26,462)     | (     | 1) (           | 26,463)   |
| Balance at December 31     | \$  | 7,312       | \$    | 3              | \$ 7,315  |

|                             |    | Year e      | ended De | cember 31 | , 202 | 2      |  |  |  |  |
|-----------------------------|----|-------------|----------|-----------|-------|--------|--|--|--|--|
|                             | N  | Non-related |          |           |       |        |  |  |  |  |
|                             |    | parties     | Relate   | d parties | Total |        |  |  |  |  |
| Balance at January 1        | \$ | 5,426       | \$       | 4         | \$    | 5,430  |  |  |  |  |
| Reversal of impairment loss |    | 28,348      |          | -         |       | 28,348 |  |  |  |  |
| Balance at December 31      | \$ | 33,774      | \$       | 4         | \$    | 33,778 |  |  |  |  |

For provisioned loss on December 31, 2023 and 2022, the impairment (reversal) losses arising from customers' contracts are (\$26,463) and \$28,348, respectively.

- (c) Liquidity risk
  - i. Company treasury monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational requirements.
  - ii. The table below analyses the Company's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

. .

### (3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
  - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.
  - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
  - Level 3: Unobservable inputs for the asset or liability.
- B. The carrying amounts of the Company's financial instruments not measured at fair value comprise cash and cash equivalents, contract assets, notes receivable, accounts receivable (including related parties), other receivables (including related parties), short-term borrowings, short-term bills payable, notes payable, accounts payable, other payables, corporate bonds payable and long-term borrowings (including current portion) are approximate to their fair values.
- C. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at December 31, 2023 and 2022 are as follows:

(a) The related information on the nature of the assets and liabilities is as follows:

| December 31, 2023        | Level 1      | Level 2     | Level 3           | Total        |
|--------------------------|--------------|-------------|-------------------|--------------|

| Total                    | \$ 2,358,167 | <u>\$</u> - | \$ 76,455         | \$ 2,434,622 |

(b) The methods and assumptions the Company used to measure fair value are as follows:

- i. For the instruments the Company used market quoted prices as their fair values (that is, Level 1), the Company uses the closing price of market quoted price to measure the listed and emerging shares.
- ii. Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques. Some of the listed stocks which were invested by the Company were restricted by lock-up period. Their fair values were determined based on the quoted prices of the same and unrestricted instruments in the active market, adjusted by the restricted effects, and calculated by inputting available market information in the model at the balance sheet date.
- D. For the years ended December 31, 2023 and 2022, there was no transfer between Level 1 and Level 2.

E. The following chart is the movement of Level 3 for the years ended December 31, 2023 and 2022:

|                                      | Equity | securities and | derivati | vative instruments |  |
|--------------------------------------|--------|----------------|----------|--------------------|--|
|                                      |        | 2023           | 2022     |                    |  |
| At January 1                         | \$     | 76,455         | \$       | 114,962            |  |
| Recognised in profit or loss         |        | 2,808          |          | -                  |  |
| Gains and losses recognised in other |        |                |          |                    |  |
| comprehensive income                 |        | 17,635         | (        | 53,483)            |  |
| Acquired during the year             |        | 38,895         |          | 14,976             |  |
| At December 31                       | \$     | 135,793        | \$       | 76,455             |  |

F. Treasury segment is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions and periodically reviewed.

G. The following is the qualitative information of significant unobservable inputs to valuation model used in Level 3 fair value measurement:

|                                   | Fair value at<br>December 31, 2023 | Valuation<br>technique                             | Significant<br>unobservable<br>input | Range<br>(weighted average) | Relationship of<br>inputs<br>to fair value |
|-----------------------------------|------------------------------------|--|--------------------------------------|-----------------------------|--|
| Non-derivative equity instrument: |                                    |  |                                      |                             |  |

## 13. SUPPLEMENTARY DISCLOSURES

- (1) Significant transactions information
  - A. Loans to others: Refer to table 1.
  - B. Provision of endorsements and guarantees to others: None.
  - C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Refer to table 2.

- D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Companys' paid-in capital: None.
- E. Acquisition of real estate reaching NT\$300 million or 20% of paid-in capital or more: Refer to table 3.
- F. Disposal of real estate reaching NT\$300 million or 20% of paid-in capital or more: None.
- G. Purchases or sales of goods from or to related parties reaching NT\$100 million or 20% of paidin capital or more: None.
- H. Receivables from related parties reaching NT\$100 million or 20% of paid-in capital or more: Refer to table 4.
- I. Trading in derivative instruments undertaken during the reporting periods: None.
- J. Significant inter-company transactions during the reporting periods: Refer to table 5.
- (2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China) : Refer to table 6.

(3) Information on investments in Mainland China

A. Basic information: Refer to table 7.

- B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: None.
- (4) <u>Major shareholders information</u> Major shareholders information: Refer to table 8.

## 14. SEGMENT INFORMATION

In accordance with the Article 22 of Regulations Governing the Preparation of Financial Reports by Securities Issuers, the Company is not required to prepare segment information within the scope of IFRS 8 in its parent company only financial statements.

| 1                  | Activus Pharma. Co., Ltd.  | Formosa Pharmaceuticals Inc. | 3                     | Other receivables      | 104,731             | Note 6            | 1%  |

Note 1: The numbers filled in for the transaction company in respect of inter-company transactions are as follows:

(1) Parent company is '0'.

(2) The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between transaction company and counterparty is classified into the following three categories; fill in the number of category each case belongs to (If transactions between parent company and subsidiaries or between subsidiaries refer to the same transaction, it is not required to disclose twice. For example, if the parent company has already disclosed its transaction with a subsidiary, then the subsidiary is not required to disclose the transaction; for transactions between two subsidiaries has disclosed the transaction, then the other is not required to disclose the transaction.):

(1) Parent company to subsidiary.

(2) Subsidiary to parent company.

(3) Subsidiary to subsidiary.

Note 3: Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.

Note 4: The aforementioned threshold of disclosure was NT\$10 million above. Aforementioned related party transactions were written-off when preparing the consolidated financial statements.

Note 5: The transaction price and terms were based on mutual agreement.

Note 6: Represents receivables from authorised transaction in 2018 and was based on terms from mutual agreement, and the transaction price was \$196,928. Because it was a business transfer in the Group, the profit or loss was not recognised.

Note:

A. As at December 31, 2023 and 2022, the Company has an average of 874 and 837 employees, respectively, including 8 and 7 non-employee directors for both years.

B. (1) Average employee benefit expense in current year was \$1,124 thousand ((Total employee benefit expense in current year - Total directors' compensation in current year) / (Number of employees in current year - Number of non-employee directors in current year)).

Average employee benefit expense in previous year was \$1,127 thousand ((Total employee benefit expense in previous year - Total directors' compensation in previous year) / (Number of employees in previous year - Number of non-employee directors in previous year)).

(2) Average employee salaries in current year was \$966 thousand (Total employee salaries in current year / (Number of employees in current year - Number of non-employee directors in current year)).

Average employee salaries in previous year - Number of non-employee directors in previous year - (Number of employees in previous year - Number of non-employee directors in previous year)).

(3) Adjustment of average employee salaries was (1%) ((Average employee salaries in current year - Average employee salaries in previous year) / Average employee salaries in previous year).

(4) On June 23, 2022, the shareholders during their meeting set up an audit committee to replace the supervisor, and the annual remuneration of the supervisor in 2022 was \$1.56 million.

(5) The Company's Compensation Policy is as follows:

i. Compensation that the Company paid to the employees includes basic salary, performance rewards, year-end bonus and salary increase. The salary standard was referred to internal salary and external market of salary, job classification, education background, professional knowledge and skill, professional working experience to approve competitive salary. The distribution of performance rewards took into consideration the operating performance of the Company and employees' performance. The salary raising would be based on the Company's operation profit of current year, performance assessment and other results and encourage employees' long-term development and with reference to the comprehensive consideration of the salary market standard and overall salary raising status to process annual salary raising.

ii. The Company's remuneration policies for managers were based on the Company's operation strategies, profit, performance and contributions in work, etc., and referred to salary standard in market, and be executed after being proposed by remuneration committee and approved by the Board of Directors.

iii. Additionally, under the Company's Articles of Incorporation, if the Company had profit for the year, the Board of Directors should resolve that the profit of the current year shall be distributed by not lower than 5% as employees' compensation and distributed no higher than 2% as directors' and supervisors' remuneration.
